URGENT AND CONFIDENTIAL.

S. O. 2

Foreigners, European and American.

No. G. 10893 / P. P. 85-19-2

GOVERNMENT OF H. H. THE MAHARAJA OF MYSORE,
GENERAL AND REVENUE SECRETARIAT,
Dated Bangalore, the 15th November 1919.

From C. S. Balasundaram Iyer, Esq., B.A., Chief Secretary to the Government of His Highness the Maharaja of Mysore, to A. Subramanya Iyer, Esq., B.A., Inspector-General of Police in Mysore.

SIR,

I am directed to request that the list of European and American Foreigners referred to in this office letter No. G. 14797-805, dated 3rd May 1918, may be annually revised up to the 31st December and forwarded to Government in the annexed form by the 8th January in each year, the first return being sent on or before the 8th January 1920.

I am to request that a brief account of the antecedents and activities so far as they are known of each foreigner entered in the list may be given, and that the list may include also (1) the names of women who were European or American Foreigners, but have married British subjects and (2) the names with particulars of persons who were European or American Foreigners but have become naturalised subjects.

I have the honor to be,
Sir,
Your most obedient servant,

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

Exd—G.W.B.

Implements, Machinery and Laboratory Appliances.

No. G. 10281-2—P. P. 11-19-69, DATED 10TH NOVEMBER 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Government Order No. G. 419-69—P. P. 11-19-1, dated the 7th July 1919, appointing Messrs. Jeremiah Lyon & Co., as their Agents in London for the purchase of machinery, stores and other articles manufactured in Europe and America which are required for the use of the several departments of the State and directing that all orders for articles to be purchased abroad should be sent to the Chief Secretary to Government on receipt of the usual departmental sanction, so that arrangements may be made for their purchase through Messrs. Jeremiah Lyon & Company, London.

2. Letter No. 2051—C. 371, dated the 19th—24th September 1919, from the Director of Agriculture, stating that Laboratory appliances, implements and machinery usually ordered for by the Agricultural Department have to be made by giving special instructions to the manufacturers so as to suit local conditions here and requesting that he may be authorised to send his orders for all articles required by his department to the manufacturers themselves without the intervention of Messrs. Jeremiah Lyon & Co., London.

Order No. G. 10281-2—P. P. 11-19-69, dated 10th November 1919.

Government are pleased to direct that the rule laid down in their order of the 7th July 1919, be relaxed in the case of implements, machinery and laboratory appliances, which are required to be specially constructed for the Agricultural Department.

C. S. BALASUNDARAM IYER,
Chief Secy. to Govt.

To—The Director of Agriculture in Mysore.
The Comptroller, Mysore Government.

The Registrar, Mysore University, Mysore.

Exd.—C.R.

Annual Report on the working of the Amrut Mahal Department.

No. G. 9912—Mily. 163-19-3, dated 6th November 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Annual Report of the Amrut Mahal Department for the year 1918-19, forwarded by the Chief Commandant, Mysore State Troops, with his letter No. 3217, dated the 18th September 1919.

Order No. G. 9912—Mily. 163-19-3. dated 6th November 1919.

Recorded.

2. Though the year under report was characterised by adverse seasonal conditions, the number of deaths from infectious diseases (150) was less than during the previous year (197).

3. The number of births was particularly low this year (1,234) against 1,487 in the previous year. Three major factors are reported to have been responsible for the low birth-rate:—

(1) Under feeding of the Amrut Mahal cows due to adverse seasonal conditions. In order to provide against such contingencies in future, Government have sanctioned a sum of Rs. 3,000 for 1919-20 for growing exotic fodder grasses in some of the kavals as an experimental measure.

(2) Inbreeding that has been carried on for a series of years in all the herds. Arrangements are now reported to have been made to supply every herd with good bulls taken from a different herd.

(3) Old and useless cows are not systematically weeded out from the herds. It is proposed to dispose of such cows by sale during the year 1919-20, if the seasonal conditions improve.

4. Two hundred and nine bullocks were sold during the year and the average price realised per bullock was Rs. 112-14-11 against 456 bullocks and Rs. 78-8-3 respectively during 1917-18.

5. The aggregate strength of the several heads increased from 8,348 to 8,591 during the year.

6. The demand under all heads during the year amounted to Rs. 51,612-1-2 out of which Rs. 48,398-6-5 was recovered.

7. The Superintendent is requested to give fuller details about the condition of the flock of Australian sheep in future reports.

8. The management of the department was satisfactory. Now that the appointment of a full-time Veterinary Officer for the Amrut Mahal Department has also been sanctioned, Government hope that further improvements in management will be visible from the current year.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

To—The Chief Commandant, Mysore State Troops.

Military Grass Farm.

No. G. 11631-3—Mily. 57-18-10, dated 21st November 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

READ—

Correspondence ending with letter No. 11736, dated 16th May 1919, from the Chief Commandant, Mysore State Troops, forwarding for orders of Government, the proposals of the Amrut Mahal Superintendent to convert 500 acres of the Kalanahalli Amrut Mahal Kaval in the Hole-Narsipur Taluk and 1,000 acres of the Bellibetta Amrut Mahal Kaval in the Krishnarajpete Taluk into Military Grass Farms for supplying good hay to the Mysore Horse at about Rs. 12 per ton if an expenditure as detailed in the margin is sanctioned for the purpose.

Item	Cost
Initial expenditure	Rs.
Digging ditches and putting up fences around the Farms ...	3,000
Recurring expenditure	
(*a*) *Establishment.*—2 Farm Mestris on Rs. 15 each per mensem	30
2 Assistant Mestris on Rs 12 each per mensem	24
8 Watchmen on Rs 7 each per mensem . ..	56
Contingencies Rs. 2 per mensem ...	2
Total ..	112 P M.
or Rs.	1,344 P. A.
(*b*) Farm Improvement .	1,000
(*c*) Grass cutting charges ...	4,000
(*d*) Railway freight of hay from Hole-Narsipur to Mysore at Rs 3-12-0 per ton	
Railway freight of hay from Akkihebbal to Mysore at Rs. 2-15-0 per ton.	

Order No. G. 11631-3—Mily. 57-18-10, dated 21st November 1919.

The above proposals are sanctioned as a temporary measure, the expenditure being met by reappropriation from the grants sanctioned for the Military Department during the current year.

Arrangements should be made as soon as practicable to get the quantity of hay required for the Mysore Horse from the Amrut Mahal Superintendent and sell the same to the Sowars of the Regiment at actual cost price, the sale proceeds being credited to Government.

It is hoped that the scheme will be self-supporting and will entail no extra cost to Government.

Apprehension of Deserters.

No. G. 11267-77—Mily. 100-18-6, dated 19th November 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

Read—

Letter No. Pol. 733, dated 30th January 1919, from the Chief Secretary to Government, to the First Assistant Resident.

I am directed to state that the Inspector-General of Police, Mysore, has represented that the number of requisitions for the apprehension of deserters from the British Military Units escaping to Mysore territory and for their despatch to Military Depots under the escort of the Mysore Police has of late increased. The escorting by the Mysore Police of the deserters to Military Stations beyond the frontier is not only very inconvenient but does not appear to be in conformity with law.

2. The existing orders about the surrender of accused persons (*vide* your office letters Nos. 3386—219-1900, dated 14th July 1900, 6438, dated 30th December 1901, 4364, dated 6th August 1902, and 794, dated 9th February 1905), relate only to cases in which warrants have been issued by the British or Mysore Magistrates and do not refer to requisitions by the Military Authorities for the arrest of deserters or to their escort or to the payment of cost incurred in this connection.

3. The Government of His Highness the Maharaja of Mysore would be obliged if you will kindly address the authorities concerned on the subject in order that an arrangement may be arrived at for the escorting and handing over of such deserters similar to the one now in force for the surrender of accused persons on warrants issued by Magistrates.

Letter No. 7501, dated 30th September 1919, from the First Assistant Resident, to the Chief Secretary to Government.

With reference to your letter No. Pol. 733, dated the 30th January 1919, regarding the apprehension of deserters from British Military Units, I am directed to forward, for the information of the Durbar, a copy of a letter No. 460 A, dated the 12th August 1919, with enclosures, from the Government of Madras, from which it will be seen that the General Officer Commanding 9th (Secunderabad) Division, has agreed to the adoption in the case of these deserters, of the arrangements now in force for the apprehension of accused persons on warrants issued by Magistrates. I am to add that the Government of Bombay are prepared to adopt the same procedure.

Letter No. 460 A, dated the 12th August 1919, from the Acting Chief Secretary to the Government of Madras, Public Department, to the Hon'ble the Resident in Mysore.

With reference to the correspondence ending with my letter No. 1826-3—Public, dated the 2nd June 1919, regarding the apprehension of Military deserters, I am directed to inform you that the General Officer Commanding 9th (Secunderabad) Division has agreed to the adoption in the case of these deserters, of the arrangements now in force for the apprehension of accused persons on warrants issued by Magistrates. A copy of the letter No. 1826-2—Public, dated 28th May 1919, addressed to the General Officer Commanding 9th (Secunderabad) Division, with a copy of his reply, is herein enclosed for your information and for communication to the Mysore Durbar.

Letter from the Chief Secretary to the Government of Madras, to the General Officer Commanding 9th (Secunderabad) Division, No. 1826-2, dated the 28th May 1919.

I am directed to enclose a copy of a letter No. Pol. 733, dated the 30th January 1919, from the Chief Secretary to the Government of His Highness the Maharaja of Mysore, to the First Assistant to the Hon'ble the Resident in Mysore and to state that, under the arrangements in force for obtaining the arrest and return of offenders escaping from British India into Mysore, a requisite preliminary is the issue of criminal processes by a Magistrate having jurisdiction in British India. These processes are then acted upon and executed by Magistrates and Police Officers in Mysore under the same conditions and in the same manner as if they had been issued by a Magistrate having jurisdiction in Mysore. The expenses incurred in connection with the subsistence and transit of accused persons are adjusted in accordance with the arrangement described in Government Order No. 1859—Judicial, dated the 13th December 1904, copy of which is enclosed for reference.

2. It will be seen that, under the arrangements described above, there is no legal provision under which the Mysore Authorities could comply with requisitions made directly by the Military Authorities in British India for the surrender of deserters from the Army.

No. G. 11267-77—Mily. 100-18-6, dated 19th November 1919.

The proper procedure for the Military authorities would seem to be to prefer the charge of desertion, if any, to a Magistrate having jurisdiction in British India and move him to issue a criminal process on which the Mysore Authorities could act. The expenses, if any, incurred in connection with the subsistence and transit of deserters, could be adjusted in accordance with Government Order No. 1859—Judicial, dated the 13th December 1904, the expenses incurred by the Government of Madras being subsequently recovered from Army Funds.

3. I am directed to enquire whether you have any objections to the adoption of such a course in future.

Letter from the General Officer Commanding 9th (Secunderabad) Division, to the Chief Secretary to the Government of Madras, No. 05418—5 A, dated 17th July 1919.—

With reference to your Public Department No. 1826—2, dated 28th May 1919, I have the honour to inform you that there is no objection to the adoption of the course of action outlined.

It appears to be convenient and workable.

Order No. G. 11267-77—Mily. 100-18-6, dated 19th November 1919.

The foregoing communications in regard to the apprehension of deserters from British Military Units are forwarded to the Chief Commandant, Mysore State Troops, the Inspector-General of Police in Mysore and District Magistrates of Districts for information and guidance.

C. S. BALASUNDARAM IYER,
Chief Secy. to Govt.

GENERAL AND REVENUE DEPARTMENTS

Read—

The annual Report of the Military Forces for the year 1918-19, submitted by the Chief Commandant, Mysore State Troops, with his letter No. 3156, dated 17th September 1919.

2. Government Order No. 1432-82—Mily. 232-18-4, dated 21st July 1919, reviewing the reports on the recruitment operations in the Mysore State from September 1917 to November 1918.

Order No. G. 12400—Mily. 158-19-3, dated 26th November 1919.

Recorded.

2. The expenditure under all branches of the Military Service amounted to Rs. 18,06,551 as against Rs. 15,04,081 in the previous year, the increase being chiefly under Imperial Service Transport Corps. Headquarter Establishment, Military Works and other miscellaneous items.

3. The Imperial Service Troops were on active service throughout the year. Just before the conclusion of the Armistice the Imperial Service Lancers took an active part in the action against Aleppo, and the Imperial Service Transport Corps was selected as part of the machinery of demobilisation.

4. The strength of the combatants and followers of the Imperial Service Regiment in the Field was 624 and 143 as against 568 and 145, in the previous year. The number that came back invalided from the Field during the year was 118, while the number sent to the Field was 215, (2 officers, 187 combatants and 26 followers).

5. Resaldar Hayathulla Khan of the Imperial Service Lancers and Division Commander Gulam Murtuza Beig of the Imperial Service Transport Corps from the Department, and Resalder B. P. Krishne Urs, and Nasir Ahmed from the Field were detailed to proceed to England to represent the Mysore State on the occasion of the Peace Celebration in London.

6. His Highness the Maharaja was pleased to award Distinguished War Service Medals to,

Resaldar Hanumantha Rao Power Bahadur ..	3rd class
Captain A. T. Thyagaraj	2nd ,,
Division Commandar Gulam Murtuza Beig and Subedar Heera Singh	3rd ,,
Jamedar Krishna Rao, Kadam Duffedar Keroji Keserkar ..	4th ,,

Distinguished War Service Medals of the 2nd class were awarded also to Resaldar B. P. Krishne Urs and Abdul Guffar in lieu of the 3rd class ones held by them.

7. Government are pleased to note also the several distinctions gained by their Military Officers for their gallant service on the Field, Resaldar B. P. Krishne Urs secured the Military Cross, the late Captain Mr. Mohiuddin gained the Order of British India (1st Class) with the title of "Sirdar Bahadur," 2 Jamadars Mir Turab Ali and Abdul Gaffer secured the Indian Order of Merit, 19 others gained medals and 8 were mentioned in despatches.

8. Special efforts were made in the latter part of 1917-18 and from July to November 1918, to enlist recruits sufficient to supply the requirements of the Mysore Troops and also to supplement the efforts of the British Indian recruiting authorities. Four thousand four hundred and three recruits were secured, of whom 1,389 were rejected after medical examination, 1,127 enlisted in the Mysore Army and 1,887 in the British Indian Army. In the order of the 21st July 1919, Government have reviewed the recruitment operations in detail and recorded their appreciation of the services rendered by the Central and District Recruitment Committees and by Mr. Bowring as Director of recruitment. They desire also to acknowledge the services rendered in

this connection, by the Honorary Secretaries of the Central Recruitment Committee, Messrs. T. E. Jeyarama Iyer and R. Puttanna, on whom devolved from the very beginning a large amount of work connected with organisation and correspondence. In recognition of his services in this direction, Mr. Puttanna has been awarded also a Recruitment Badge by the Government of India.

9. At the close of the year Colonel J. Desaraj Urs, C.I.E., M.V.O., retired from service and Major (now Lieutenant Colonel) B. Chamaraj Urs, Sirdar Bahadur, succeeded him. In their Order No. 7-8—C. B. 87-18-9, dated 1st July 1919, Government have already reviewed Colonel Desaraj Urs' distinguished career, placed on record their high appreciation of the valuable services rendered by him to the Mysore State and its Army. The Report under review affords additional evidence of his unflagging energy and devotion and Government take this opportunity of congratulating him on the distinguished part played by the Mysore Troops during the tenure of his command.

C. S. BALASUNDARAM IYER,
Chief Secy. to Govt.

District Sanitary Officers.

No. G. 10633-43—San. 73-17-8, dated 12th November 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Government Order No. G. 18997-9—San. 73-17-6, dated 1st March 1919, reorganising the Public Health Department and placing four District Sanitary Officers, each in charge of a group of two districts and sanctioning two places of reserve District Sanitary Officers.

2. Letter No. G. C. 429, dated 24th March 1919, from the Sanitary Commissioner in Mysore, stating that as the District Sanitary Officers are, under Government Order No. 94-8—San. 114-16-4, dated 5th July 1917, Personal Assistants to the Deputy Commissioners of Districts, the system of having one Sanitary Officer for two districts involves dual control by the heads of two districts and that one district by itself is large enough for purposes of effective sanitary work and proposing that the existing arrangement of the District Medical Officers being in charge of the sanitary work in four districts be ordered to continue till whole time District Sanitary Officers are appointed for these four districts also.

Order No. G. 10633-43—San. 73-17-8, dated 12th November 1919.

On a reconsideration of the question of the charges of District Sanitary Officers, Government are pleased to direct as follows:—

(1) The arrangement of two districts being placed under the charge of a District Sanitary Officer will be modified and a separate officer appointed for each of the districts except Bangalore and Mysore.

(2) In the Bangalore and Mysore Districts the District Medical Officers who are not in immediate charge of hospitals or wards in the hospitals will be District Sanitary Officers *ex-officio* and will be given a local allowance of Rs. 50 per mensem for the additional work.

(3) The number of officers so far sanctioned will be increased by one so as to leave one officer in reserve after providing for district charges as above.

(4) The designations of the Health Officers and the District Sanitary Officers will be changed into Health Officers, 1st Class, and Health Officers, 2nd Class, respectively.

2. The extra cost during the current year on account of the appointment of one additional Health Officer of the 2nd Class as a reserve officer will be met by reappropriation in the current year's budget of the Sanitary Department from a source to be pointed out by the Sanitary Commissioner.

3. The Sanitary Commissioner will submit proposals at an early date for the posting of the several District Officers in accordance with the arrangements sanctioned above.

No. G. 11053-63—Cts. 247-18-1, dated 17th November 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Government Order No. J. 4550-4600—Cts. 312-12-1, dated 10th May 1918, sanctioning the scheme for the separation of judicial and executive functions in the State and stating that, pending the elaboration of a suitable scheme of recruitment, the officers immediately required to fill the places of Special Magistrates in the Bangalore and Shimoga Districts would be selected partly from among Assistant Commissioners, Munsiffs and Amildars and partly from among the members of the Bar.

Order No. G. 11053-63—Cts. 247-18-1, dated 17th November 1919.

The general question of laying down definite rules for the recruitment of magistrates under the separation scheme has engaged the attention of Government for some time past. Government are pleased to direct that appointments to the magistracy be made from among Assistant Commissioners, Sub-Judges, Munsiffs, Amildars, other services and members of the Bar in the manner laid down in detail in this order. Government also direct that for purposes of gradation of pay, the designation of the magistracy be changed to Magistrates 1st grade and 2nd grade. The terms Magistrates 1st class and Magistrates 2nd class will be used only with reference to the powers conferred on them under the Criminal Procedure Code. It is the intention of Government to invest Magistrates of the 2nd grade also with first class powers wherever such a course is desirable in public interests.

2. The 11 places of first grade magistrates will be recruited from the said services in the proportion noted below:—

Senior Assistant Commissioners	.. 4
Subordinate Judges	.. 3
Bar	.. 2
By promotion of Magistrates recruited from the Amildari and other services	.. 2

The number of second grade magistrates will be distributed as follows:—

Assistant Commissioners	.. 6
Munsiffs	.. 4
Amildari and other services	.. 4
Bar	.. 5

Until the scheme is fully introduced, the recruitment from the several services will be at the discretion of Government.

3. The pay of the magistracy will be fixed as follows:—

(i) In the case of Assistant Commissioners selected for the magistracy they will draw their grade pay as Assistant Commissioners. Ordinarily Senior Assistant Commissioners will be posted as first grade magistrates and Assistant Commissioners of junior rank as second grade magistrates.

(ii) In the case of judicial officers selected from among Sub-Judges or Munsiffs, they will also draw their grade pay.

(iii) Amildars and officers selected from other services and the Bar will be put in the grade Rs. 150-200-50-3—400 as 2nd grade magistrates.

(iv) The pay of the first grade magistrates who are not Assistant Commissioners or Sub-Judges, will be Rs. 500—50-2—600.

4. Assistant Commissioners, Sub-Judges and Munsiffs will be liable to be posted as magistrates, first and second grade, as the case may be, and members of the Bar directly recruited as 2nd and 1st grade magistrates will be eligible to be transferred for civil judicial work as Munsiffs and Sub-Judges respectively. In order to

provide the requisite number of officers for employment as magistrates, the cadres of Assistant Commissioners, Sub-Judges and Munsiffs will be increased by the number of appointments allotted to them in the magistracy under paragraph 1 above, *viz.*,

Senior Assistant Commissioners	.. 4
Assistant Commissioners	.. 6
Sub-Judges	.. 3
Munsiffs	.. 4

Magistrates recruited from the Amildari and other services will not be eligible for transfer to the civil judicial service as Munsiffs or Sub-Judges or to the general line as Assistant Commissioners, etc.

5. In making appointments to the magistracy from the Bar, the claims of Public Prosecutors who have rendered official service will receive special consideration. In other cases selection will be confined to lawyers who have had at least 3 years' practice at the Bar.

6. The other services in addition to the Amildari from which selection will be made to the magistracy will be defined by Government from time to time. For the present, police inspectors and officials of the Secretariat and other officers, who have taken a degree in law will be eligible for selection.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

Deputation of men in Service to the Police Training School.

No. G 9750-60 - Pol. 63-18-9, DATED 3RD NOVEMBER 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE

GENERAL AND REVENUE DEPARTMENTS.

READ—

Correspondence ending with letter No. 106, dated 19th August 1919, from the Offg. Inspector-General of Police in Mysore, in the matter of entertaining substitutes in place of the Officers and officials of the Police Department deputed for training in the Police Training School, Bangalore.

Order No. G. 9750-60—Pol. 63-18-9, dated 3rd November 1919.

The rules relating to the Police Training School contained in pp (1-6) of Appendix I of Vol. II of the Police Manual do not provide for the payment of salary to substitutes appointed in place of those deputed to the Police School for training. The several Government Orders issued from time to time on the subject do not also definitely lay down the exact number of Officers and officials to be deputed to the Training School every year or the salary to be paid to substitutes appointed in the place of the persons so deputed. Government are accordingly pleased to issue, in supersession of all existing orders, the following rules for regulating the deputation of men in service to the Training School:—

(i) Police officers in the executive line, *viz.*, Constables, Duffedars and Jamedars deputed to the Police School for training will get their full pay during their stay in the school. No substitutes should be appointed in the place of Constables deputed for training. In the case of Duffedars, a charge allowance of Rs. 3 per mensem may be given to the constables appointed to act in their place. As regards Jamedars, acting arrangements may be made at a cost not exceeding Rs. 20 per mensem in each case.

(ii) The number of Duffedars and Jamedars deputed for training in the Police School should not exceed 20 at any time.

(iii) Head Munshies and other officials who wish to attend the Police Training School may be granted such leave as they may be entitled to under the Mysore Service Regulations, and admitted into the school as private recruits. During the period of their training they will not be allowed to draw any more than the leave allowance to which they may be entitled under the Mysore Service Regulations.

2. The above rules will be incorporated in Appendix I of Volume II of the Police Manual.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

Use of certain insignia by private persons other than Matathipathies.

No. G. 11404-14—Pol. 202-14-41, dated 19th November 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

Read-

Letter No. 41, dated 24th March 1915, from the Deputy Commissioner, Chitaldrug District soliciting orders regarding the insignia intended to be used by Mr. B. D. Madakeri Naik, Pallegar, Pensioner of Chitaldrug when he goes in procession during Ugadi and Dasara Festivals.

2. Correspondence ending with the reports of the Deputy Commissioners furnishing informations as to the persons permitted to use the several insignia in their districts and the authority under which they are allowed to do so.

Order No. G. 11404-14—Pol. 202-14-41, dated 19th November 1919.

The grant of permission to the use of insignia by private persons other than the Matathipathies has been under the consideration of Government for some time past and after careful review of the question in all its aspects they are pleased to pass the following orders.

2. The honours now in use in the State fall under two classes as shown below:—

Royal Honours.

Addapalki.	Moharchal.
Panchakalasa.	Aftagiri.
Panchakalasada Sweta Chatri.	Surepana.
Hagal Deevatige.	Ambari on elephant.
Makara Thorana.	Navabath.
Dhavala Sankha.	

Special Honours.

Simhalalatada Palki.	Sweta Chattri.
Nisani on elephant.	Bhuchakrada Kode.
Nisani on camel.	Green Chattri.
Nagari on elephant.	Pancharangi Chattri.
Nagari on camel.	Barajari Chattri.
Danka on horse.	Surya Vadya.
Yellow Nishani.	Chandra Vadya.
Green Nishani.	Chowri.
Kavi Nishani.	Chamara.

3. The roval honours are by immemorial custom specially reserved for the use of royalty and a display of the same by any one except under the special sanction of the Sovereign is an invasion of the Royal privilege and must not be permitted under any circumstances.

4. The use of the special honours by private persons should be permitted only after production of satisfactory documentary evidence in proof of specific grant by sovereign authorities or long and uninterrupted usage of 50 years or more. In the case of any such alleged right, the local officers should obtain all the evidence that might be adduced and if, in their opinion, a strong case is made out, submit the records for the orders of Government. The evidence must be sufficiently convincing to prove not only the original grant or continued usage but also that the right was heritable, (*i.e.*, not personal,) the presumption in all such cases being that the title or honour conferred on a private person is personal only.

No. G; 11404-14—Pol. 202-14-41, dated 19th November 1919.

5. As regards all other insignia not specified above magistrates may grant or refuse permissions to use them as they think fit, having regard to the usage of the locality and the provisions of the Police Regulation.

6. Cases of the use of insignia by the persons referred to in the communications read above will be disposed of in accordance with the above principles.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

To—The Deputy Commissioners of Districts, returning the records.
The Inspector-General of Police in Mysore.
The Secretary to Government, Muzrai Department.

No. G. 11308-67—G. M. 1-19-49, DATED 19TH NOVEMBER 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Reports, forwarding returns of dismissals for the quarter ending 30th June 1919, received from the Heads of Departments and Deputy Commissioners of Districts, in pursuance of Government Order No. G. 1214-52—G. F: 124-03-04, dated 2nd September 1904.

Order No. G. 11308-67—G. M. 1-19-49, dated 19th November 1919.

The accompanying consolidated statement, showing the name, designation and other particulars of Government servants of and above the rank of peons, who were dismissed from service during the quarter ended 30th June 1919, is forwarded to the Heads of Departments and Deputy Commissioners of Districts for information and guidance.

C. S. BALASUNDARAM IYER,
Chief Secy. to Govt.

To—The Heads of Departments.
The Deputy Commissioners of Districts.

Exd.—R.K.

ANNEXURE.

Statement of Dismissals for the quarter ending 30th June 1919.

No. R. 5151-4—L. R. 41-19-13, DATED 3RD NOVEMBER 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Government Order No. R. 1-15—L. R. 448-16, dated Camp Mysore, 26—27th April 1919, passing orders regarding the levy of water rate and contribution under the Krishnarajasagara Reservoir Channels for supply of water for sugar-cane and other hot weather crops.

2. Letter* No. M. 1687, dated 7th August 1919, from the Chief Engineer of Mysore, forwarding a copy of the Proceedings† of an emergent meeting of the Central Irrigation Board held on 9th July 1919, to consider the points raised in paras 4 and 5 by the Chief Engineer, Cauvery Valley Irrigation, in his letter No. 878, dated 30th June 1919, on the subject and requesting orders in the matter of arranging for starting re-settlement operations in the localities which enjoy the mamul supply and which will, in future, be improved and augmented by the Reservoir.

3. Unofficial Note No. D1 Dis. 343—G1, dated 29th September 1919, of the Revenue Commissioner in Mysore on the subject.

4. Unofficial Note No. A. Camp Mysore, dated 12th October 1919, of the Superintendent, Revenue Survey and Settlements in Mysore, in the matter.

5. Unofficial Note dated 31st October 1919, of the Superintendent, Revenue Survey and Settlements in Mysore on the subject, suggesting among other things that to prevent loss of time by measurers (on account of harkath), one of the Special Deputy Amildars attached to the Krishnarajasagara Works may be deputed to put the boundary marks in order with a staff of chainment and flag holders.

Order No. R. 5151-4—L. R. 41-19-13, dated 3rd November 1919.

The villages coming under the mamul supply owing to their situation within the reaches specified in para 1 of the Government Order of 26—27th April 1919, read above, are mentioned in the list‡ appended hereto and those which are commanded by the Krishnarajasagara channels and are included in the taluks of Seringapatam, Mysore, Krishnarajpete, T.-Narsipur and Malvalli and the French Rocks Sub-Taluk are given in Appendix III to this order. Revision Settlement is due in the Mysore, Krishnarajpete and Seringapatam Taluks including the French Rocks Sub-Taluk but the survey guarantee of the Malvalli and T.-Narsipur Taluks will not expire till 1923-24 and 1928-29 respectively.

2. With a view to obviate the difficulties brought to notice by the Chief Engineer in the matter of working the block system and in discriminating between the natural flow of the river and the Reservoir supply, the Chief Engineer, Cauvery Valley Irrigation, proposes to bring under one category all lands commanded by the Reservoir channels, the survey guarantee of which has expired and to do away with the distinction between the established sugar-cane and non-sugar-cane tracts by remitting a portion of the assessment on all the lands in the former and fixing rates for only the monsoon irrigation, pending formal settlement of rates after re-survey. Mr. K. R. Srinivasiengar, as Revenue Commissioner was of opinion that the best course would be to expedite revision settlement as soon as it fell due. The Survey Superintendent, supports this view, but suggests that the operations may be confined to the 74 channel villages referred to *infra* in order that he may be able to carry out his departmental programme for the current year. Government are pleased to accept the concurrent recommendations made above, and direct that the revision survey and settlement of the 74 villages situated in the channel areas of the Seringapatam, Mysore and Krishnarajpete Taluks and French Rocks Sub-Taluk be taken up at once in consultation with the Revenue Commissioner and the Chief Engineer, Cauvery Valley Irrigation.

*Printed as Appendix I. †Printed as an enclosure to Appendix I
‡ Printed as Appendix II to this order.

No. R. 5151-4—L. R. 41-19-13, dated 3rd November 1919.

3. The Survey Superintendent has brought to the notice of Government the fact that the boundary marks in these taluks are in a deplorably neglected condition. The Revenue Commissioner is requested to issue suitable instructions to set them right at once. An advance may, if necessary, be applied for, for this purpose, subject to adjustment in due course.

4. The Survey Superintendent is requested to submit definite proposals regarding the additional establishment asked for by him in his unofficial Note dated 31st October 1919, read above in consultation with the Revenue Commissioner.

B. RAMASWAMAIYA,
Secy. to Govt., Rev. Dept.

To—The Superintendent, Revenue Survey and Settlements in Mysore.
The Revenue Commissioner in Mysore.
The Chief Engineer of Mysore.
The Chief Engineer, Cauvery Valley Irrigation.
PRESS TABLE.

APPENDIX I.

Letter No. M. 1687, dated 7th August 1919, from S. Cadambi, Esq., Chief Engineer of Mysore, to B. Ramaswamaiya, Esq., B.A., B.L., Secretary to Government, Revenue Department.

I have the honor to forward herewith, a copy of the Proceedings* of an emergent meeting of the Central Irrigation Board held on 9th July 1919, to consider the points raised by the Chief Engineer, Cauvery Valley Irrigation, in his letter No. 878, dated 30th June 1919, (copy enclosed,) in regard to Government Order No. R. 1-15—L. R. 448-16, dated 26—27th April 1919, passing orders about the levy of water rate and contribution under the Krishnarajasagara Reservoir Channels.

2. I enclose a copy of letter No. 1012, dated 17th July 1919, from the Chief Engineer, Cauvery Valley Irrigation, and request that you will be so good as to obtain Government Orders in the matter of arranging to start settlement operations in the localities which enjoy the mamul supply, which will, in future, be improved and augmented by the Reservoir.

ENCLOSURE TO APPENDIX I.

Proceedings of an emergent meeting of the Central Irrigation Board held at 1. P.M. in the Chief Engineer's room on Wednesday the 9th July 1919.

PRESENT.

1. S. Cadambi, Esq., B.A., L.C.E., Chief Engineer and President.
2. K. R. Srinivasa Iyengar, Esq., M.A., Revenue Commissioner in Mysore.
3. B. Ramaswamaiya, Esq., B.A., B.L., Revenue Secretary to Government.
4. S. A. Ramaswami Iyer, Esq., B.E., Executive Engineer (Secretary).
5. Rao Bahadur Rajasabhabhushana K. Krishna Iyengar, Esq., B.A., L.C.E., Chief Engineer on Special Duty, Cauvery Valley Irrigation. (Specially invited to attend.)

Read letter No. 878, dated the 30th June 1919, from the Chief Engineer, Cauvery Valley Irrigation, bringing to notice the difficulties likely to arise in giving effect to the orders contained in Government Proceedings No. R. 1-15—L. R. 448-18, dated the 26—27th April 1919, passing orders regarding the levy of water rate and contribution under the Krishnarajasagara Channels for the supply of water to sugar-cane and other hot weather crops.

2. In para 2 of the Government Order referred to above, it is stated that "The lands in this reach will, during the remainder of the period of settlement, be entitled to whatever natural supply is available in the river, but will have no claim to any additional supply of water from the Reservoir." Adverting to the above, the Chief Engineer explained that

*Printed as an enclosure.

in the past, the sugar-cane area never exceeded 1,500 or 1,600 acres in summer in any one year, but the total extent of wet land in the reaches of the canals entitled to this supply was about 11,000 acres.

3. Mr. Krishna Iyengar stated that as the natural flow of the river and the water let out from the storage of the reservoir had to be carried in the same channel, it would be impossible to separate the one from the other, or to apportion the volume due to natural flow to lands out of this 11,000 acres. To solve this difficulty, he proposed that so far as these lands were concerned, their right to water in summer may be purchased by a rebate in the rate of assessment, so as to reduce all the existing wet lands to the same basis to facilitate formation of blocks and the levy of water rate and contribution for the hot weather crops. He quoted as a precedent, the case of Madhavamantri and Holsal channels where the assessment was reduced by Re. 1 when water was conserved for power.

4. The Chief Engineer suggested that if the above proposal be adopted, it would pave the way for the introduction of the Irrigation Act in the Cauvery Valley, which the Government had under consideration.

5. The Revenue Commissioner and the Revenue Secretary contended that the proposal was not in conformity with the existing rules of procedure or practice and that there was not enough justification for a measure of this kind.

6. The Revenue Commissioner suggested that, for the lands that were hitherto enjoying a supply of water in summer, the same concession may be continued, that cultivation of sugar-cane was controlled by other powerful factors than mere supply of water, so that even if water is given without restriction it is not likely that the cane area would go much higher than the previous maximum of 1,600 acres, for some years to come, that even if it did, it should be welcomed as it would increase the wealth of the locality and that the best and most unobjectionable course to obtain increased assessment for the lands will be to have their revision settlement taken up immediately on the expiry of the period of the present settlement which will be over in 1920. After a thorough discussion, it was resolved that the suggestion of the Revenue Commissioner be adopted, and that no action be taken for the modification of the Government Order for the present.

APPENDIX II.

List of villages coming under the mamul supply under the Krishnarajasagara Reservoir referred to in para 1 of Government Order.

9. The recommendations of the Special Committee of the Representative Assembly appointed under Government Order No. 15077-127—G. M. 626-17-1, dated 9th May 1918, on the subject.

Order No. R. 5135-46—L. R. 493-16-22, dated 3rd November 1919.

Preliminary.—Complaint is frequently made that while large sums of money are spent on the construction and restoration of irrigation tanks, comparatively little attention is bestowed upon their timely repair and upkeep. There have been cases where tanks once restored and brought up to standard had so deteriorated within a period of ten or twelve years that the entire work had to be done over again at a considerable outlay. It is true that in some of these instances, faulty construction, no less than neglected maintenance, was responsible for the deterioration of the tank within a short period, but there can be no doubt that the system of executing periodical tank repairs stands in need of considerable improvement. The subject has been brought to notice by several officers of Government and has been more than once discussed in the Representative Assembly in recent years.

2. *Previous history.*—By the custom of the country, it is the duty of the raiyats holding lands under irrigation tanks to execute the necessary annual repairs and to maintain the works in an efficient condition. But this obligation has never been satisfactorily discharged. On the assumption of the administration of the State by the British Government, the majority of tanks were found in a "deplorable condition" showing the extent of the neglect of the villagers even in those early days. In 1863, rules were issued to enforce the performance of the customary duties of the raiyats by suitable penalties, but the rules were of doubtful legal validity and apparently remained a dead letter. The Commissioner, Mr. Bowring, wrote in the Administration Report for 1865-66 that "of late years, the raiyats have silently ignored their obligations and the whole duty and cost of repairing tanks both in regard to the requisite labour and material have fallen on Government." But it was manifestly

impossible for Government to undertake the petty repairs of the several thousands of tanks scattered all over the State, and the idea had soon to be given up. In 1873, after prolonged discussion, it was decided that the raiyats' responsibility for the upkeep of tanks should be revived and enforced, Government agency being employed only for executing repairs requiring technical skill. The rules issued in that year, with minor modifications, are still in operation and have the force of law. According to these rules "the *pattadars*, *shikmidars*, *inamdars* and others holding lands in a village and all others deriving any benefit whatever from the tank, either directly or indirectly, were held responsible for the annual maintenance" and the enforcement of this responsibility was entrusted to the patel of the village. In case of default, the patel was empowered and required to carry out by paid labour the portion of the work that ought to have been done by the defaulter and to recover the cost as a revenue demand. The obligation of the raiyats for annual maintenance was, however, confined to tanks restored and brought up to standard. In regard to unrestored tanks also, the raiyats were expected to do the necessary minor repairs but no penalty was attached to neglect. In order to ensure the systematic working of the maintenance rules, constant inspection of tanks by the higher Revenue and Public Works Officers was prescribed.

3. *Difficulties experienced.*—The system of repairing tanks by means of compulsory communal labour is certainly the only practical method available, but the working of the same is attended with some difficulties. With the decline of the communal spirit in villages, it has become increasingly difficult to get together the villagers to carry out the annual repairs, and in the case of absentee land-lords this difficulty is specially great. Further, the rules do not impose any penalty on a defaulting cultivator, who is merely required to defray the cost of the share of the work which he should have done.

4. *Recent endeavours at improvement.*—Endeavours have been made, of late, in two directions to overcome the difficulties of the present *hanchike* system. On the one hand, the raiyats' liability for maintenance has been commuted into an acreage cess in the case of some irrigation works. On the other, an attempt has been made to revive communal spirit by the formation of tank panchayets under the Mysore Tank Panchayet Regulation, 1911, and to make them responsible for enforcing the obligations of cultivators for the maintenance of tanks. Neither of these attempts, however, as will be presently shown, has proved a complete solution of the existing difficulties.

5. *Recent discussions.*—Various suggestions have been recently made on the question of tank maintenance by two committees of the Representative Assembly and the subject has been carefully considered by Government in consultation with Revenue and Public Works Officers. The suggestions which have been put forward may be dealt with under three heads:—

1. Levy of an acreage cess and abolition of the system of communal labour.
2. Formation of tank panchayets on a larger scale and in a modified form.
3. Stricter enforcement of the rules regarding the inspection of tanks by Revenue and Public Works Officers.

6. *Levy of an acreage cess.*—Several of the officers consulted are of opinion that it is necessary once for all to relieve the raiyats of their customary obligation for maintenance work and to commute their liability into an acreage cess. This cess, which was first levied in 1896 in the case of Rekalgere Channel in the Chitaldrug District, and since extended to some 20 other irrigation works, rests on a contractual, not statutory basis. It can only be imposed where the raiyats have voluntarily agreed, by executing mutchalikas, to pay the cess instead of contributing labour, and cannot, at present, be compulsorily levied. Further, the system has not proved very successful in the few cases in which it has been tried. There have been disputes as to liability with regard to work done, and, in some instances, the cess has accumulated without any regular maintenance work being carried out. The accounts, too, of demand, collection and balance of this levy are in confusion. A list of tanks in respect of which acreage cess is levied is given in the appendix, with the necessary particulars. In cases in which the system has not worked, the cess should be abolished and special estimates prepared and worked out by the Public Works Department, for all necessary works, meeting the cost from the accumulated balance of the cess. The system, therefore, cannot be indefinitely extended, since no Government establishment, however large, can attend to the petty annual repairs and maintenance of all the tanks

in the State, which exceed 26,000 in number. The task would be too large in the aggregate and too minute in detail, for any department to undertake with success.

7. It has long been recognised that the best practicable means of maintaining tanks in good order is by entrusting their management to the raiyats of the village, who are the natural guardians and immediate beneficiaries of the works. Government are not prepared to relieve cultivating raiyats of their responsibility in this respect and cannot undertake to introduce the system of acreage cess, as a general rule, under all irrigation works. The levy of the cess must remain, as at present, an exceptional measure, intended to meet cases where, owing to the large number of absentee land-lords, difficulty of executing repairs, scarcity of population, or other similar causes, communal labour cannot be readily obtained ; and even in such cases, the cess should cover special establishment charges, for supervision and prompt execution of works.

8. While adhering to the view that the present system of tank maintenance by raiyats is the only feasible arrangement, though not an ideal one, Government are prepared to modify the rules with a view to give an added inducement to the raiyats to maintain their tanks in good repair, and, at the same time, to provide slightly deterrent penalties for neglect. With this view, they are pleased to lay down as follows :—

(1) A money value of the annual work of repair and maintenance of each tank will be estimated by the Public Works Department ; and for a period of three years Government will pay a contribution of 50 per cent of the total by way of remission of the irrigation cess leviable from the lands under the tank, if the Deputy Commissioner or Assistant Commissioner is satisfied that the works have been properly executed.

(2) Where a raiyat fails to perform his share of work *twice* the cost of executing it may be recovered from him as an arrear of land revenue.

9. *Tank Panchayets.*—The scheme of Tank Panchayets has been applied, so far in the case of 76 irrigation works. Considering that the Tank Panchayet Regulation was passed in 1911, and the rules thereunder were framed in 1914, the progress achieved so far must be pronounced inadequate. This must, to some extent, be attributed to the complicated procedure prescribed by the Regulation and the Rules for the formation of Panchayets. Government are disposed to agree with the view urged by the Committee of the Representative Assembly as modified by the Revenue Commissioner that, where a Village Improvement Committee is already in existence, it should be entrusted with the duty of looking after the village tank provided that the majority of the occupants of the lands under the tank agree to have such Village Committee invested with the powers of a Tank Panchayet and that in other cases either separate panchayet may be constituted under the Tank Panchayet Regulation for looking after the work, or the patel allowed to continue to do so as hitherto. As an incentive to attend to its duties assiduously one-half of the irrigation cess raised under a tank will for a period of three years be made over to the panchayet every year as a grant, if the Deputy Commissioner or Assistant Commissioner is satisfied after inspection that the tank has been maintained in a satisfactory condition.

10. *Inspection of Tanks.*—Whether the maintenance work is carried out under the supervision of the patel under the Maintenance Rules or by a panchayet under the Panchayet Regulation, it is essential that the higher revenue officers should exercise strict vigilance and that the system of inspection prescribed in the rules should be rigorously carried out. These rules provide.—

(1) that the Amildar or a responsible officer deputed by him should inspect each tank between the months of October and January and note the results of the inspection in the Tank Register;

(2) that a second inspection should be held before the end of April to see that all repairs are completed;

(3) that Assistant Commissioners and Deputy Commissioners should frequently inspect the tanks in their respective jurisdictions according to a definite programme previously drawn up for the purpose; and

(4) that all the major tanks should be inspected periodically by Executive Engineers and a report submitted in a prescribed form.

No. R. 5135-46—L. R. 493-16-22, DATED 3RD NOVEMBER 1919.

It is necessary, as pointed out by the committee of the Representative Assembly that an annual record should be kept of the tanks inspected, defects noticed and the action taken to rectify the same. The Revenue Commissioner will be requested to issue the necessary standing orders and prescribe proper registers in all taluks in a suitable form, to ensure the maintenance of such annual record.

11. The changes which will be brought into effect as described in the foregoing paragraphs are summarised as follows.—

(1) The present system of tank maintenance by raiyats is the only feasible arrangement, though not an ideal one, but in order to better enforce their obligations a penalty of twice the actual cost of execution may be recovered from any raiyat who fails to perform his share of work. Necessary legislation may be undertaken to modify the Tank Maintenance Rules accordingly.

(2) The levy of acreage cess must remain, as at present, an exceptional measure intended to meet special cases and cannot be applied generally in respect of all tanks, but in cases in which the system has not worked, the cess should be abolished and special estimates prepared and worked out by the Public Works Department, for all necessary works, meeting cost from the accumulated balance of the cess.

(3) As an inducement to the raiyats to maintain their tanks in good repair, Government will for a period of three years pay a contribution of 50 per cent of the total money value of the annual work of repairs and maintenance of a tank, by way of remission of the irrigation cess leviable from the lands under the tank, if the Deputy Commissioner or Assistant Commissioner is satisfied that the works have been properly executed.

(4) Where a Village Improvement Committee is already in existence, it should be entrusted with the duties of looking after the village tank. In other cases, the formation of a Tank Panchayet may be left to the discretion of the District Officer, and, as an incentive to attend to its duties assiduously, one-half of the irrigation cess raised under a tank may be made over to the panchayet, if the Deputy Commissioner or Assistant Commissioner is satisfied about its work in regard to maintenance.

(5) A stricter observance of the rules regarding inspection of tanks should be insisted upon. An annual record should be kept of the tanks inspected, defects noticed and the action taken to rectify the same.

12. The scheme, as sanctioned above, will be tried tentatively for a period of three years.

Annexure No. 1.

Chief Engineer's Note on the levy of a cess in lieu of the raiyats' liability for annual maintenance work.

Object of the proposal.—As the *mamool* obligation of the raiyats in respect of maintenance work cannot be easily enforced for various reasons, it is now proposed—

(1) to commute generally the liability into an acreage cess or otherwise, as is being done in the case of certain selected tanks and channels, and

(2) to entrust the funds derived from this source to the Tank Panchayets.

2. The remedy proposed may be given a fair trial in the case of a few large irrigation works, for which Tank Panchayets have already been constituted, before it is decided to extend its application generally.

3. *Suggestions.*—In order that the Panchayetdars may be in a position to supervise and get the maintenance work executed systematically, they should have at their disposal a technically trained agency. Another point to consider is whether the cess to be levied will cover the establishment charges as well as the cost of maintenance work. It is also doubtful if a sufficient amount can be collected from the raiyats under a tank, so that the entire maintenance work may be carried out without any extra grant from Government for that particular work.

4. In the case of tanks with a small revenue of, say, between Rs. 400 and 1,000, it may so happen that the levy of a cess, at so much per rupee of the assessment (ranging from 1 to 2 as. in the rupee) may cause hardship, assuming the assessment is equal to the revenue collected in these cases.

Note.—The rate of 8 annas per acre was fixed in the case of tanks, the maintenance work of which is being carried out by the Public Works Department, on the basis of the average cost of maintenance for a certain number of years. Under Bhimasandra and Rekalgere tanks and channels, the cess collected has been found inadequate.

5. The proposal to allow poorer raiyats (who find it hard to pay in cash) the option of contributing their share in the shape of labour will be in effect the presence of the same difficulty as is now experienced, *viz.*, the difficulty of enforcing the obligation in the case of defaulting raiyats, and consequently, will leave it untouched. It has also its attendant

practical defects, namely, the determination of their share of work (which may be contested), the fixing of the wages of labour which should be equivalent to the raiyats' share, etc.

6. The Panchayetdars should also be given a clerical establishment to account for the realizations from the cess handed over to them for expenditure. It is for the Revenue Department to say if the Taluk authorities can manage it without any additional cost. Otherwise, the cost of this establishment will be a debit against the cess to be collected.

7. The points for consideration and discussion are:—

(1) A technically qualified agency is required.
- (*a*) to estimate the quantity of work to be done to a tank every year,
- (*b*) to supervise and execute the work according to the estimate approved, and
- (*c*) to help otherwise the Panchayetdars in determining the share of the poorer, hence defaulting raiyats.

(2) The rate at so much per rupee of assessment should cover the charges of the above establishment and also the cost of the work to be carried out in any particular year. If the accounting should cost extra, it must also be included in the levy.

(3) But the rate so fixed should not provoke any opposition, as in the case of tanks with a small revenue; this additional cess will be a real hardship on the raiyats.

(4) Any exception proposed to be made in the case of poorer raiyats is likely to detract from the efficient automatic working of the scheme.

(5) In what respects the Tank Panchayet Regulation requires to be amended suitably to answer the above needs should be considered.

8. With the necessary safeguards, the system proposed for introduction should work automatically to a very great extent.

9. A list of irrigation works for which the levy of an acreage cess has been sanctioned by Government is appended for information, as the one given in paragraph 2 of the note is incomplete.

ANNEXURE No. II.

Letter No. C. 4595—Gl. of 16-17, dated 7th June 1917, from K. Doraswami Iyer, Esq., Revenue Commissioner in Mysore.

In reply to your letter No. R. 11523-32—L. R. 493-16-5, dated 22nd May 1917, regarding the levy of a cess in lieu of the liability of raiyats to do the annual maintenance of tanks and channels, I have the honor to state that the payment of a cess may be made compulsory in the case of large irrigation works serving many villages. A good portion of the lands under such irrigation works will be held by owners residing elsewhere.

2. The cess may be made compulsory also in the case of smaller works where the majority of the owners under them agree to it.

3. In other cases the existing rules may remain.

ANNEXURE No. III.

Note of Mr. K. R. Srinivasa Iyengar, dated 20th May 1919.

There is no doubt that the maintenance and upkeep of the restored tanks, both Minor and Major, have, as observed in the draft order, been very much neglected all over the State and that many of the tanks have been allowed to so badly deteriorate as to require through restoration again at considerable expense. This is chiefly due, I am sorry to say, not so much to the defects in our Tank Maintenance Rules which are quite simple and easy to work, but to the apathy and indifference of our Revenue Officers who have failed to give as much attention to this matter as its importance deserves. The visits of the Taluk and District Officers have, of late been mostly confined to the roadside villages: and the irrigation works and other matters of importance in the interior have received very little attention at their hands. This having come to the notice of Government, they have recently issued orders that every village in the taluk should be inspected by the Amildar at least twice in a year; and it may be hoped that the strict enforcement of this rule will result in more attention being given to the Inspection of tanks and other works all over the taluk.

I have found in my experience that the Shekdars generally have not been made to realise their responsibility for the maintenance of the tanks in their charges, many of them being led to think that this is the business of the Tank Inspector and not theirs. The first thing to be done for giving effect to the Maintenance Rules in respect of a tank or other irrigation work is the preparation of hanchigipattis and the fixing up of hanchigi stones, showing the work to be done by each individual; but, even this preliminary step has not been carried out with regard to most of the tanks.

2. The remedy proposed by certain persons, of Government undertaking the annual maintenance of irrigation works themselves, recovering for this purpose an adequate cess from the raiyats in commutation of their liability for this work, is quite impracticable, as it will be impossible, as pointed out in the draft order, for any establishment, however large, maintained by Government to effectively deal with all the tanks in the State, exceeding 26,000 in number. I, therefore, fully agree with the views expressed in the order that the levy of a cess in commutation of the raiyat's liability for maintenance work should be confined only to exceptional cases, as detailed in para 7 of the draft.

3. With a view to encourage the raiyats in the discharge of their liabilities in this respect and to bring pressure to bear upon such as fail to do their share of the work, it is proposed in the draft order.

(1) to remit ¼ of the irrigation cess in cases wherein the raiyats concerned carry out their share of the work satisfactorily,

(2) to recover double the cost of the work as a penalty from persons who fail to do their share,

and (3) to entrust Tank Maintenance work to the Village Improvement Committee where one exists; or to a Tank Panchayet if one can be formed, ¼ of the irrigation cess being made over to the committee or panchayet so long as they maintain the tank in proper order.

4. I agree generally with the principles embodied in these proposals, but beg leave to make the following suggestions in respect of them.

Firstly, with regard to the proposal to remit ¼ of the irrigation cess, I have, in a letter submitted by me to the Government sometime back on the prayer of the Representative Assembly Members for the abolition of the irrigation cess, recommended the abolition of the cess on the ground that it was originally intended as the raiyats' contribution for the maintenance and upkeep of tanks, and that where such work is attended to by themselves, there is not much justification for the recovery of the cess. If this view is accepted by the Government, I would recommend that in all cases where in the raiyats maintain the tanks in proper order, the whole of the irrigation cess, instead of only one-fourth as now proposed, may be remitted. If, however, the Government are not prepared to go to this extent, I would, with a view to hold out sufficient inducement to the raiyats in this respect, suggest that at least half the irrigation cess may be remitted in cases in which they attend to the maintenance work satisfactorily.

5. The proposal to recover double the cost of maintenance work by way of penalty in the case of persons who do not do their share of the work will have a wholesome and salutary effect on the recalcitrant individuals among them. This rule cannot, however, be given effect to until hanchigipattis are prepared and hanchigi stones put up for all tanks. As I have already observed, this has not been done in respect of most of the tanks; and the Revenue Officers must be therefore directed to immediately give attention to this work. I shall separately submit a draft circular in this respect for the approval of Government.

6. The Tank Panchayet Scheme has not so far met with much success, chiefly because, while entrusting the Panchayets with certain duties and responsibilities, very little of privileges or benefits have been conferred upon them. I had, on more than one occasion, brought to the notice of the Government that, if the Tank Panchayets are to take a real interest in their work, they should be invested with power to restrict wet cultivation under the tank and grant remission under Section 15 of the Tank Panchayet Regulation. But, so far this power has not been conferred in respect of any of tanks. In the case of villages for which Village Committees will be formed, it is proposed to treat them as Tank Panchayets under the Tank Panchayet Regulation. There is one objection to this proposal and that is that the landholders under the tank may not be sufficiently represented on the Village Committee and they may not like the Committee to be entrusted with the maintenance of the tank and the distribution of water-supply from it. Where, however, the majority of the occupants of lands under a tank agree to have the Village Committee invested with the powers of a Tank Panchayet in respect of the tank, this may be allowed; and in other cases, either a separate panchayet may be constituted under the Tank Panchayet Regulation for looking after the work, or the patel may continue to look after it as hitherto. The Village Committee or Tank Panchayet as the case may be, may, as proposed, be allowed to enjoy a portion of the irrigition cess, so long as the tank is maintained in proper order. The benefit of this remission will go to individual holders in respect of persons who do their share of the work properly, and in the case of others with regard to whom the panchayet or committee has to get the work done, the amount of cess remitted will go to its funds.

7. As regards the registers to be maintained and the action to be taken for a strict observance of the rules for the periodical inspection of tanks by the several Revenue Officers, I shall take necessary action as required in para 10 (4) of the draft order and submit a separate report to Government.

Decentralization of work in the Revenue Department.

No. R. 5310-8—L. R. 192-19-2, DATED 7TH NOVEMBER 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

READ—

Para 3, clause (iii) (*e*) of Government Order No. R. 6185-233 — L. R. 641-13-4, dated the 16th December 1916, issuing orders delegating certain higher powers to Revenue Officers in connection with the decentralization of work in the Revenue Department.

2. Correspondence ending with letter No. C. 2466— G1., dated the 14th August 1919, from the Revenue Commissioner in Mysore, seeking instructions as to whether the existing practice of the Revenue Commissioner sanctioning the appointment of Taluk Sheristedars on Rs. 50 may continue till the Land Revenue Rules are amended in the light of the amended Section 20 of the Land Revenue Code, and suggesting for the consideration of Government the question of divesting Deputy Commissioners of the power of appointing Taluk Sheristedars or of the desirability of keeping in the hands of the Revenue Commissioner only the power of promoting these officials to Rs. 60 and 70.

Order No. R. 5310-8—L. R 192-19-2, dated 7th November 1919.

The question having been raised in February 1919, the Revenue Commissioner (Mr. K. R. Srinivasiengar) considered that the appointment of 3rd grade Taluk Sheristedars by the Deputy Commissioners and 1st and 2nd grade Sheristedars by the Revenue Commissioner would necessarily lead to complications and that the existing practice of appointing and transfering Taluk Sheristedars of all grades might be continued to be left in the hands of the Revenue Commissioner, as these officers may sometimes have to be transferred from one district to another in the interests of public service, which the Deputy Commissioner is not competent to do himself. Government agree in the above view and direct that the words "with the exception of Taluk Sheristedars" be added to Clause (iii) (*e*) in paragraph 3 of the Government Order of 16th December 1916.

The clause will then read as follows:-

(e) "To appoint and transfer all officials for the district and subordinate offices drawing pay not exceeding Rs. 50 per mensem, with the exception of Taluk Sheristedars."

Separate order will issue notifying the amendment of Rule 7 of the Rules under the Land Revenue Code, in conformity with the Government Order of 16th December 1916 read above, as modified by this order.

GENERAL AND REVENUE DEPARTMENTS.

Order No R. 5322-30—L. R. 48-19-6, dated 7th November 1919.

As there are reasons to believe that long neglect in writing up barabaluti registers is general in Taluk Offices, the Government desire to point out that this is very unsatisfactory and should not be allowed. The supervising officers of the Department should take particular care to see that this work is not allowed to fall into arrears. The Revenue Commissioner is requested to issue necessary instructions in the matter and to satisfy himself during his inspection of Taluk Offices that the work is properly attended to.

Amendment of Rule 7 of the Land Revenue Code and that of the Revenue Manual.

No. R. 6125-85—L. R. 243-19-1, DATED 26TH NOVEMBER 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Government Order No. R. 6185-233—L. R. 641-13-14, dated 16th December 1916, issuing orders delegating higher powers to the Revenue Officers, regarding the appointment, suspension, etc., of ministerial officials and menial servants in the Revenue Department in connection with the decentralisation of work in that department.

2. Government Order No. R. 5310-8—L. R. 192-19-2, dated 7th November 1919, passing orders regarding the competency of Deputy Commissioners to appoint and transfer Taluk Sheristadars in their district.

Order No. R. 6125-85—L. R. 243-19-1, dated 26th November 1919.

In the statement of objects and reasons to Regulation VII of 1919, amending the Mysore Land Revenue Code, it is observed that the question of the powers of the Deputy Commissioner in regard to the appointment of subordinate officials in the Revenue Department should come properly within the scope of the Rules framed under the Code and that the second proviso to Section 20 should be repealed. Rule 7 of the Rules under the Land Revenue Code, therefore requires amendment, and the Government are pleased to direct that the same be amended in conformity with the Government Orders, dated 16th December 1916 and 7th July 1919 read above. The following will be added as clause 3 to Rule 7 :—

"Every Deputy Commissioner may appoint all officials in the district and subordinate offices drawing pay not exceeding Rs. 50 per mensem with the exception of Taluk Sheristadars."

2. They also direct that the following be inserted at page 19 of the Revenue Manual as para 4 and the existing paragraphs 4, 5 and 6 be re-numbered as paragraphs 5, 6 and 7 respectively :—

"Deputy Commissioners may transfer all officials in the district and subordinate offices drawing pay not exceeding Rs. 50 per mensem with the exception of Taluk Sheristadars."

3. The above amendments and additions will be separately notified in the Gazette.

4. The Revenue Commissioner is requested to expedite submission of drafts of the amendments of the Land Revenue Rules and the Standing Orders with reference to paragraph 3 of Government Order No. R. 6030-81—L. R. 193-17-3, dated 18th November 1918 and Government Order No. R. 3810-9—L. R. 75-16-6, dated 11th October 1917.

Repopulation of Bechirak Hosahalli Village.

No. R. 6263-7—L. R. 198-19-2, dated 26th November 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Letter No. C. Pet. 803, dated 22nd August 1919, from the Revenue Commissioner in Mysore, recommending sanction to the proposal of the Deputy Commissioner, Chitaldrug District, to grant certain concessions to raiyats with a view to the repopulation of the Bechirak Hosahalli village in the Challakere Taluk.

Order No. R. 6263-7—L. R. 198-19-2, dated 26th November 1919.

The Revenue Commissioner reports that about 100 persons belonging to various communities have now come forward to build houses and settle down in Hosahalli village which became de-populated several years ago and that the idea of reviving the village being well-conceived it is desirable to afford facilities to intending settlers in view of the large extent of land not availed of for cultivation. He accordingly recommends sanction to the following proposals of the Deputy Commissioner :—

1. To add on to Hosahalli village 646 acres, 13 guntas comprised in Government Hulbanni Kharab lands—Survey Nos. 62, 63, 66 and 67 of Rangavvanahalli and Survey Nos. 136 and 140 of Doddavullarthi villages, so as to provide an adequate extent of land for wet and dry cultivation by the settlers.

2. Grant of wet lands at an upset price of Rs. 5 per acre on Shraya tenure for two years, half and full assessment being charged in the 1st and 2nd year respectively.

3. Grant of dry lands on payment of only the malki thereon and on Shraya tenure for four years, one-fourth, one-half and three-fourths assessment being charged during the 1st, 2nd and 3rd years respectively and full assessment from the fourth year.

4. Free grant of building materials from the Neralgunta Amrut Mahal Kaval.

5. Free grant of building sites.

6. Sinking of a drinking water well at the cost of Government.

7. Repairing the Ranikere channel running through the village.

8. Repairing a breached katte near the village, one-third of the cost of the repairs being recovered from the raiyats.

2. Of the above proposals the recommendation for making available the lands of Rangavvanahalli and Doddavullarthi referred to for the purpose of grant to the settlers is approved but the proposal to add the said lands to Hosahalli village itself does not commend itself to Government as it is likely to affect the potgi amounts of the patels and shanbhogs of the villages concerned and as it is immaterial to the settlers to what village the lands belong so long as they get the lands and the concessions asked for.

3. The other recommendations of the Revenue Commissioner are also sanctioned, subject to the following modifications and conditions:—

(*a*) In case there are two or more applicants for the same survey number the same should be disposed of by auction.

(*b*) The grant of building materials free of cost may be made from a District Forest, in case the Amrut Mahal Superintendent has any objection to removal of the same from the Neeriagunta Kaval.

(*c*) The Ranikere channel is to be repaired as soon as all the lands under it are taken up.

(*d*) The entire cost of repairing the breached katte should be met by the villagers them

No. R. 6263-7—L. R. 198-19-2, DATED 26TH NOVEMBER 1919.

4. The President of the District Board is requested to take needful action to provide a drinking water well at the cost of District Funds after a fairly good number of families settle themselves in the new village.

5. Government direct that in disposing of the lands care must be taken by the Local Authorities to see that only local *bona fide* cultivators get the lands and not speculators and that preference should be given to landless classes in the proposed settlement.

6. It is also reported by the Deputy Commissioner that the new village is proposed to be called by the name of "Visveswarapura" and this proposal is also approved.

Report on the Working of the Revenue Survey Department.

No. R. 5770-9—L. S. 20-19-3, dated 18th November 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

Read—

The Administration Report of the Mysore Revenue Survey Department for the year ending 30th June 1919, received with letter No. 75, dated the 27th September 1919, from the Superintendent of Revenue Survey and Settlements in Mysore.

(Printed as an accompaniment.)

Order No. R. 5770-9—L. S. 20-19-3, dated 18th November 1919.

Recorded.

2. This is the first Report of the working of the department framed for the official year ending with June, submitted in accordance with para 9 of Government Order No. R. 13532-5—L. S. 29-18-2, dated 24th April 1919, the previous reports being for the survey year ending with October. The present report consequently overlaps the previous one in respect of the work done during the four months from 1st July to 31st October 1918.

3. *Personnel.*—Mr. C. Rajagopalachar, Deputy Superintendent, retired from service on the 20th August 1918 and Mr. K. G. Shamanna was confirmed, in his place, from the same date. The two Survey Probationers, Messrs. P. N. Krishnaswami and B. Venkatswami, were confirmed as Sub-Assistant Superintendents from 7th November 1918. Towards the close of the year under report, the re-organization of the department at an aggregate cost of Rs. 1,45,000 on the subordinate staff, was sanctioned by Government in their Order No. R. 15688-89—L. S. 6-18-11, dated 6th June 1919, and proposals for giving effect to the same are now under the consideration of Government.

4. *Re-survey.*—Owing to the prevalence of Influenza throughout the State, the commencement of the Field Work had to be put off till the 1st December 1918, *i.e.*, for 15 days beyond the usual date. Five measuring establishments were at work as against four in the previous year. In addition to the detail survey of one Inam village in the Malvalli Taluk and measurement for miscellaneous sub-division work in 119 villages, re-survey of 80,085 fields measuring 6,64,217 acres in 747 villages distributed over an area of 1,038 miles was completed during the year as against 56,990 fields measuring 720,384 acres in 745 villages distributed over an area of 1,126 miles, during the previous year. The number of fields dealt within the year under review was more than that in the previous year, but there was a large decrease in the area (56,167 acres) resurveyed.

5. *Boundary inspection.*—The number of bandhs and stones missing was 43,131 and 101,331 respectively as against 46,889 and 52,698 in the previous year. The replacement of the missing boundary marks entailed much additional work on the Field Establishment and a large number of working days was devoted to extra work on this account. It is a matter for regret that the Deputy Commissioners of Districts have not, in spite of repeated observations of Government, from year to year, taken steps for the efficient inspection and maintenance of boundary marks, according to the rules laid down in Government Order No. R 3971-81—L. R. 399-14-8, dated 2nd November 1916.

6. *Classification.*—Only one classing establishment worked during the year as against two in the previous year. Original classification was effected in respect of 590 fields with an area of 2,299 acres in nine Inam villages as against 315 fields with an area of 1,572 acres in two Inam villages during the previous year. Reclassification of 36,813 fields with an area of 131,656 acres in 749 villages was carried out during the year as against 44,511 fields over an area of 104,376 acres in 987 villages during the previous year. The Survey Superintendent reports that the decrease in the reclassification work is due to the reduction of one establishment during the year. As a large number of re-surveyed taluks is awaiting reclassification.

Government consider that the increase in the number of measuring establishments should not have been effected by the abolition of a classing establishment.

7. *Resettlement.*—Revised rates were introduced during the year in the Nelamangala and Chiknayakanhalli Taluks, resulting in an increase of Rs. 9,747 or 8·25 per cent and Rs. 7,201 or 6·28 per cent, respectively, over the original collections. Proposals for the revision settlement of the Magadi and Goribidnur Taluks were received during the year and are before Government. In their Order No. R. 603-53—L. S. 7-18-5, dated 11th July 1919, Government have directed that the general principles of resettlement in a taluk should in future be notified in each of the villages concerned, so as to enable the raiyats to prefer beforehand, any reasonable objections they may have in the matter. The question of taking necessary measures for reducing the heavy arrears of resettlement work in the State has recently been referred to a Special Committee and their recommendations are awaited.

8. The net expenditure of the department for the year 1918-19 was Rs. 1,84,750 as against Rs. 1,70,643 or about Rs. 14,100 more than in the previous year, the increase being mainly due to the temporary promotions and allowances granted to certain officials of the Department during the year. The average cost per acre dealt with by the department during the year was Re. 0-3-10 as against Re. 0-3-5 in the past year, the increase being apparently due to the decrease in the total outturn of resurvey work.

No. R. 5791-800—L. S. 7-18-11. DATED 18TH NOVEMBER 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Government Order No. R. 603-53 -L. S. 7 18-5, dated 11th July 1919, directing that the general principles of resettlement in a taluk, should in future be notified for the information of the public in the taluks and villages concerned.

2. Correspondence ending with letter No. 77, dated 1st October 1919 from the Superintendent of Revenue Survey and Settlements in Mysore, forwarding for approval a form of the notification for publishing the information referred to in the order read above.

Order No. R. 5791-800-- L. S 7-18-11, dated 18th November 1919.

Government are pleased to approve of the form of the notification appended to this order.

2. The following procedure will be observed in connection with the resettlement of the taluks to be effected in future:—

(*a*) As soon as the proposals for the resettlement of a taluk are ready the Survey Superintendent will forward a notification in Kannada in the form approved above to the Deputy Commissioner of the District or Districts in which the taluk or any part of it is situated.

(*b*) The Deputy Commissioner on receiving the notification, will cause it to be published without delay by pasting the same in the *chavadi* or other conspicuous place in the village, copies thereof being also kept in the taluk offices concerned for public reference.

(*c*) All objections preferred by individual raiyats or by a body of raiyats holding lands under one common source of irrigation or under the same group within the period mentioned in notification will be received by the Deputy Commissioner who will forward them with his opinion to the Survey Superintendent through the Revenue Commissioner. The Survey Superintendent will then submit the same for the orders of Government with his final remarks on the said objections.

No. R. 5791-800—L. S. 7-18-11, DATED 18TH NOVEMBER 1919.

PRELIMINARY NOTIFICATION OF SETTLEMENT TO BE PUT UP IN THE VILLAGE.

It is hereby made known to the people of the undermentioned..... village of taluk .....District.....that the revision of the Survey Assessment of the lands of the said village is about to be effected and that it is proposed to divide the said village into the following groups, the existing and proposed maximum rates being as shown in the following list:—

Number	Name of village	Number of group	By former settlement			By revision settlement		
			Maximum rates			Maximum rates		
			Dry Crop	Rice	Garden	Dry Crop	Rice	Garden
1	2	3	4	5	6	7	8	9
		Group I Group II Group III						

2. The result so far as the village of.....is concerned is that the rates in the village are approximately $\frac{\text{raised}}{\text{lowered}}$ by annas in the rupee.

NOTE.—1. Reasons for alteration in the rates.

2. Reasons for alteration in the grouping.

3. For a period of two months from the date of the publication of this notification the Deputy Commissioner.....District will be prepared to receive objections made and presented in writing either by individual raiyats or by a body of raiyats holding lands under one common source of irrigation or in villages under the same group, to the grouping of their village or villages, and the maximum rate or rates thereof.

GENERAL AND REVENUE DEPARTMENTS

READ—

Government Order No. R. 5042-80—L. R. 199-06-2, dated 5th November 1906, passing orders regarding the submission of certain returns to the Revenue Commissioner.

2. Explanatory memo* furnished by the Special Officer Mr. S. Chakrapani Iyengar *re* curtailment and abolition of certain statistical returns.

3. Government Order No. 19111-70—G. M. 174-18-1, dated 3rd March 1919, directing the submission of certain returns to the Residency direct by the Director of Statistics.

4. Government Order No. 10174-219—I. & C. 247-18-5, dated 15th April 1919, directing the transmission of certain returns relating to Trade and Commerce to the Deputy Director of Commerce instead of to the Revenue Commissioner as hitherto.

5. Government Order No. 374-6—I. & C. 247-18, dated 9th July 1919, directing that the returns noted in the margin be compiled and submitted to the Residency through this office by the Deputy Director of Commerce.

Special Officers No. in list	Period	Description	From whom
8	Fortnightly	Prices current of certain food grains (wholesale), Bangalore and Mysore Towns only.	
10	Do ..	Do (Retail) ...	
13	Annual ..	Statement of cotton mills in existence.	Deputy Commissioners of Districts.
14	Do ..	Statement of woollen mills in existence.	Do

6. Un-official opinion furnished by the Director of Statistics and the Revenue Commissioner in Mysore *re* the curtailment and abolition of certain statistical forms.

*(Printed as an accompaniment.)

Order No. R. 5063-5112—R. M. 17-19-2, dated 3rd November 1919.

These proposals relate to statistical returns, though others not strictly coming under that category are also included. As explained in the concluding summary of the special officer's explanatory memo, 63 returns have been dealt with, of which 14 are recommended to be abolished exclusive of Revenue Form No. 71 of Serial 20 which has also been proposed to be done away with. Minor modifications have also been proposed in respect of some of the forms.

2. The proposals seem on the whole suitable and are approved.

3. Further the following returns are also considered unnecessary and are hereby abolished.—

Serial No. 2 .. Monthly rainfall statement.
" 11 .. Half-yearly return of prices current of food grains.
" 30 .. Ahaval return.
" 31 .. Return of rayaitwari revenue.

A consolidated statement of the returns thus abolished is appended to this order as Appendix "A".

4. Samples of these forms should be incorporated in the respective Manuals.

5. Orders *re* the form of Agricultural Statistics will issue in due course.

No. R. 5063-5112—R. M. 17-19-2, DATED 3RD NOVEMBER 1919.

6. The Superintendent, Government Printing is requested to print and supply on indent, these forms, samples of which are enclosed to this order.

44	Return of revenue from pasture lands	
51	Return of labour	
52	Return of emigration and immigration	
11	Half-yearly return of prices current of different food grains ..	
30	Ahaval return of (Revenue 28)	
31	Return of Raiyatwari Revenue (Revenue 20)	
20	Revenue Form 71—showing the standard yield per acre of fair average crops	

C.—EXPLANATORY MEMO.

... dealing with the revision of returns and reports of the Revenue Department, I have stated in connection with the D. C. B. returns that the list as revised in Government Order No. R. 5042-80—L. R. 199-06-2, dated 15th November 1906, pages 56-58 of the Revenue Manual will be taken as the starting point. From the list of returns shown in Appendix A, B, C and D of the above order, the returns that do not pertain to the Revenue Department and those that are abolished by the later orders of Government have been prepared and appended to this note. This list is marked A. The remaining returns with those that have been subsequently prescribed have been classified under the following groups :—

1. Statistical returns.
2. Returns dealing with Land Administration, such as darkhasts, maintenance of boundary marks, etc.
3. Returns relating to tanks and other irrigation works.
4. Returns pertaining to estates under Government management.
5. Returns* dealing with collection of Revenue.
6. Financial returns, such as those relating to contingencies, imprests, etc.
7. Returns relating to special schemes and connected with Economic Conference.

* Separately dealt with already.

8. Muzrai.
9. Returns relating to records, itineration of officers and office business.
10. Returns relating to recruitment, promotions, etc.
11. Other miscellaneous returns.

To save time in correspondence I have informally consulted both the Director of Statistics and the Revenue Commissioner and the following proposals regarding revision of statistical returns are herewith submitted for approval or other orders.

Group 1.—Current Returns (Statistical).

This group contains 62 returns as shown in list B appended. The first 7 returns relate to rainfall and season reports.

Serial No. 1.—(Rev. 47)—Rainfall Statement (Weekly).

This is due to Government from Deputy Commissioners *vide* Government Order No. R. 5042-80—L. R. 199-06-2, dated 15th November 1906, Appendix D, page 58, Revenue Manual.

It furnishes weekly rainfall figures for all the stations in a taluk. At present, it is not being submitted to Government separately since the rainfall figures are embodied in the season report weekly (Serial No. 7 *infra*) Revenue 47 A revised, though it is for Headquarter Stations only. In view of the submission of the weekly season report and the monthly rainfall statement (*vide* Serial No. 2 *infra*) both of which are published in the Gazette, Serial No. 1, *viz.*, weekly rainfall to Government may be abolished.

Serial No. 2—(Rev. 51)—Rainfall Statement (Monthly).

This is due to Revenue Commissioner from Deputy Commissioners. It is *published in the "Mysore Gazette" every month* by the Revenue Commissioner and copies sent by him to the Meteorological Reporter to the Government of India. Hence this is necessary and should be retained. The form which is far too much breadthwise is reduced to foolscap folio size and submitted herewith ; otherwise the headings need no alteration.

Note.—The forms of the several returns being of all shapes and sizes, they will be reduced to a uniform sizes as far as practicable.

Serial No. 3—(Rev. nil)—Rainfall statement in the catchment areas of rivers.

This is a statement (monthly) relating to certain rain-gauge stations only, submitted by Deputy Commissioners direct to Government and is due to Residency *vide* Government Order No. R. 1280-9—Agri. 14-15-148, dated 29th July 1916. This is necessary and the form needs no change. A form relating to Kadur District is submitted. Raingauge stations pertaining to each district should be printed.

Serial No 4 (Rev. 56)—Rainfall Statement (Annual).

This statement is received in the Revenue Commissioner's Office for the Calendar year and the figures are published in the Gazette and forwarded to the Director-General of Observatories, Calcutta and also utilised for the Revenue Administration Report. The seasonal conditions noticed in the Administration Report can be reviewed from these figures and from the rainfall statements received from January to June. Part IV of the Season and Crop report containing rainfall figures for the official year is compiled from the monthly returns published in the *Mysore Gazette*.

A small change in the heading of the form is suggested. The words 'and reading to thermometer' after the word 'return' are deleted and the words 'calendar year ending 31st December 1919' after the word 'for' have been inserted.

Serial No. 5 (Rev. 64)—Return of Climate and Rainfall.

This statement due to Revenue Commissioner seems to be unnecessary in view of separate rainfall statements referred to above. Moreover particulars *re* 'average temperature in the shade', and 'cloud proportion' cannot be furnished by the Revenue Department. The statement may be abolished. The Revenue Commissioner agrees.

Serial No. 6 (Rev. 47A revised, Season Report (weekly).

This is submitted under Section 14C of the Famine Code to Government and a copy submitted to Revenue Commissioner is consolidated and published by him in the Gazette every week. It is to be retained and no change in the form seems necessary. Only a note is added that the figures in column 2 should be given *date war* in the return submitted by taluk. The form is also made into a foolscap size.

Serial No. 7 (Rev. 49A)—Season Report (Monthly).

This is submitted under Section 15 of the Famine Code, *vide* also G. O. No. 6258-66—Agri. 159-06-09, dated 26th March 1908. It is also published in the *Mysore Gazette* every month by the Revenue Commissioner. No material change in the form seems necessary; only in Section 1 of the statement particulars in columns 7 and 10 may be shown

No. R. 5063-5112—R. M. 17-19-2, dated 3rd November 1919.

under columns 6 and 9 respectively those in 6 and 9 being brought under columns 7 and 10, *i.e.*, number of tanks supplied with water for *over* 6 months may be shown first and those for 6 months and *under*, may be shown next. The change is indicated in the form.

The next batch of 5 returns, Serial Nos. 8, 9A and B, 10 and 11 deals with current prices of different foodgrains, etc., fortnightly and half-yearly.

Serial No. 8—Prices current (wholesale) of Foodgrains, etc, for Bangalore and Mysore Towns only.

Serial No. 8 (Revenue No. 48) is the statement (A) of prices current (wholesale of 24 articles of foodgrains at the *Bangalore and Mysore towns only*, due for transmission to the Government of India. *Vide* G. O. No. R. 4115-24—R. M. 712-04-21, dated 25th October 1906 pages 162-164 of the Manual of important orders Serial No. 2 Agricultural Department and G. O. No. R. 9888-96—Agri. 127-08-13, dated 25th May 1909. To the list of articles has been added 'Bengal coal' in accordance with G. O. No. R. 5747-55—Agri. 10-13-63, dated 30th January 1914. It is presumed that the price to be quoted for this article should be per maund of 827 lbs. as the Government Order is silent on the point. No material change is needed in the form, only the articles 'Bhusa,' 'Bran' and 'Oats' which are sold per maund of 82$\frac{2}{7}$ lbs. will be brought after columns 37 relating to Jawar Stalks, sold in the same manner, and the column for 'Bengal coal' may be inserted after it. The revised form is enclosed.

Serial No. 9 (A).

Serial No. 9 (A) (Revenue 48A) is the Statement (B) of prices current (wholesale) of 33 articles of foodgrains, etc., in the several districts. The form needs no change.

Serial No. 9 (B).

Serial No. 9 (B) (Revenue 48B) is the Statement C of prices current (retail of the 33 articles in the several districts. The form needs no change.

Note.—Serial Numbers 9(A) and 9(B) are published in the Gazette fortnightly by the Revenue Commissioner.

Serial No. 10.

Serial No. 10 (Statement D) is only *an extract from Statement C* above (*retail prices*) relating to 13 articles only as mentioned in para 5 of G. O. No. R. 4115-24—R. M. 712-04-21, dated 25th October 1906, in respect of Bangalore and Mysore Districts only to be forwarded by the Revenue Commissioner to Government for *transmission to the Government of India*.

Serial No. 11.—Half-yearly return of prices current of different Foodgrains (Revenue 53).

The submission of the half-yearly return is prescribed in G. O. No. R. 9717-26—R. M. 264-06-4, dated 3rd May 1907 in lieu of the monthly return that was formerly prescribed. This statement deals with more articles than are dealt with in the fortnightly and the prices are published in the Gazette by the Revenue Commissioner. The return has to continue. A small change in the heading is suggested. The article 'Coriander seed' shown under column 38 of the existing printed form should be brought under column 31 next to 30, *viz.*, 'Poppy seeds' as 'Coriander' is sold by measure of 80 tolas. In that case, ghee and other articles should be brought under column 32 and so on.

Again in respect of ghee and other articles, since these are sold by weight by the ordinary seer of 24 tolas, the heading 'quantities by the ordinary seer of 24 tolas sold by weight' will be substituted for quanties per rupee by the standard weight of 80 tolas in the existing printed form. At present the needful changes are effected in the Revenue Commissioner's Office. The changes have been indicated in the form.

Serial Nos. 12(a), 12(b), 12(c), and 13 and 14.

Of these the first three are the *monthly* returns to Government relating to cotton goods and are submitted to Government by the Deputy Commissioner, Bangalore District, copy of the same being sent to Revenue Commissioner. The other two are *annual* returns relating to *cotton and woollen mills* respectively and are submitted by Deputy Commissioners of all the Districts direct to Government. All these five returns are *due to the Residency*.

The forms of the first two returns, *viz.*, 12(*a*) and 12(*b*) have been revised in G. O. No. R. 7394-4-03—Agri. 6-16-17, dated 15th January 1917 in accordance with the instructions received from the Residency. The abolished and the new forms are put for reference. The old form relating to Serial No. 12(*c*) is retained by the Government Order. As the forms are not properly indicated in the Revenue indent and as the indent is proposed to be now revised, they will be shown therein correctly. The Revenue Commissioner is of opinion that copy of 12(*a*), 12(*b*) and 12(*c*) need not be sent to him by the Deputy Commissioner but may be sent instead to the Director of Industries and Commerce.

No. R. 5063-5112—R. M. 17-19-2, dated 3rd November 1919.

Serial No. 13—Statement of Cotton Mills in existence.

This return is due in the form prescribed in G. O. No. R. 1768-76—R. M. 9-06-07, dated 9th August 1906, on or before the 1st May of every year for the number of cotton mills in existence on the 31st March preceding.

As information in regard to the existence of the mill in any district will be available only from this return, Deputy Commissioners of all districts, whether any cotton mill exists there or not, have to send a nil return or otherwise as the case may be in accordance with the Government Order. As the form does not appear to be printed and not shown in the Revenue indent, a typed copy is appended for information and this will be embodied in the revised revenue indent.

Serial No. 14—Statement of Woollen Mills in existence.

This is due for the Calendar year from all Deputy Commissioners and the revised form for adoption has been prescribed by the Residency. *Vide* G. O. No. R. 9727-35—Agri. 80-14-2, dated 7th May 1915.

The form is not shown in the Revenue indent and a typed copy is therefore appended for reference and this will be embodied in the revised revenue indent.

Forecast returns, Serial Nos. 15 to 19.

Of these Serial Nos. 15 and 16 pertain to the forecasts of cotton and wheat and are submitted four times a year in accordance with the Government orders cited in list B appended. *These returns are due in the Residency.* The prescribed forms are appended in Part II, Mysore Village Manual. They need no change except that the following note be added at the foot of the forecast return relating to cotton.—

(1) The date on which the sowing began and whether it was early, normal or late should be shown. Government Order No. 5003-5011—Agri. 43-05-23, dated 25th October 1905.

(2) The area and outturn according to the description of cotton grown in each district should be separately shown. Government Order No. 6048-58—Agri. 1-15-6, dated 21st December 1915.

(3) The date on which harvesting began should be given in the final forecast of cotton crop. Government Order No. 5851-9—Agri. 12-10-11, dated 20th April 1911.

The Revised Forms are enclosed, Serial Nos. 17 to 19.

These three statements relating to final estimate of ragi, paddy and sugar-cane are due to Government through the Revenue Commissioner, in accordance with the Government orders cited in the list B appended. The classified abstract of work General and Revenue Secretariat 1917 (see page 23) shows that the *final* forecasts of the three returns are due to the Residency.

As a matter of fact it is learnt (from the Statistical Branch, and the perusal of the connected files) that the final forecasts of paddy and sugar-cane alone are forwarded to the Residency and not the ragi forecast.

In a note submitted by Mr. N. Madhava Rao and approved by the special committee (appended to Government Order No. R. 246-63—Agri. 2-16-3, dated 6th July 1916) he has suggested, among other things, the discontinuance of the ragi forecasts. The Government while approving the recommendations of the Committee made some observations with regard to the Agricultural Statistics and Season and Crop report The Government order do not, however, specifically state that the ragi forecast should be abolished and as a matter of fact the final forecast of ragi is also included in the list of returns to be dealt with in the Statistical Branch of the Secretariat *vide* Government Order No. G. 1508-58—G. M. 635-17-1, dated 17th May 1918.

The fact that the season and crop report which is published in the Gazette gives the area and actual outturn of select crops such as paddy, sugar-cane, etc., coupled with the submission of the enclosure to the Pahani Fakta (Rev. 72) Serial No. 20, might perhaps justify the discontinuance of the three forecast returns in question, were it not that the final forecasts of paddy and sugar-cane are required by the Residency. This being so, there is no reason for discontinuing the submission of ragi forecast only, ragi being the staple crop of the State.

Accordingly, it is suggested that the final forecasts of paddy, sugar-cane and also ragi, may be continued to be submitted to Government by the Revenue Commissioner, who will, however, receive as usual from the districts both preliminary and final forecasts. The Revenue Commissioner approves of this suggestion but does not think it would be worthwhile to publish them in the Gazette as suggested in Mr. Madhava Rao's note appended to the Government Order of 6th July 1906 referred to above.

Note.—It may perhaps be desirable to arrange for this early publication.

No. R. 5063-5112—R. M. 17-19-2, dated 3rd November 1919.

Serial No. 20 (Rev. 72)— Enclosure to Pahani Takta.

This is an annual return giving information of the outturn of crops standing as well as harvested, the submission of which by Deputy Commissioners was ordered in Government Order No. 7866-74—R. F. 130-94, dated 10th March 1897. Instructions for recording proper information in regard to the estimated and actual outturn of crops are given in Government Order No. R. 5003-12—L. R. 356-06-5, dated 12th February 1908 whereby the village account form No. 3 has been revised. This return is submirted to Revenue Commissioner yearly and is used for the preparation of Part II of Season and Crop Report *re* area and yield of principal crops. The form has been revised so as to be more suitable for this purpose, and brief revised instructions have been given in the form which is submitted herewith. The information is now required to be given for five select crops mentioned in the Season and Crop Report. The heading of the form has also been suitably changed.

Rev. Form 71 which gives only the standard yield per acre of fair average crop is unnecessary as it is proposed to embody the information contained in it, on the 1st page of the register to be maintained in the taluk, named 'Register showing the estimates and outturns of various crops.'

Serial Nos. 21 and 22 (Rev. 54)—Quarterly and Annual statement of Cattle Mortality.

These are prescribed in the Government Order of 15th November 1906 referred to already (see also pages 56 and 57, Revenue Manual). These are important returns affording information to the Revenue Commissioner and Government regarding the loss of cattle which are the most important asset of a raiyat. The annual return will be a check on the quarterly and hence both are necessary. On account of the important nature of the return it will not do to make it half-yearly since information of the actual loss sustained cannot be obtained from the weekly or monthly season report.

The same form is used both for quarterly and annual. It needs no material change except that in the heading 'died by accidents and other causes' the word 'accident' may be omitted as obviously unnecessary, since the figures are intended to be included in 'other causes.'

Serial No. 23 (Rev. 45)—Return of Rewards paid for the Destruction of Wild Animals.

This is an annual return prescribed in the Government order of 15th November 1906, referred to already *vide* Appendix B, page 57 of Revenue Manual. The return is necessary but the form is too long with unnecessary headings. It has been curtailed in accordance with the Revenue Commissioner's suggestion and a revised form is submitted for approval.

Serial No. 24 (Rev. 55)—Return of wages (Half-yearly).

This is prescribed in the Govenment Order of the 15th November 1906, *vide* Appendix page 56 of Revenue Manual and is *due to Residency*. Its continuance is necessary. The existing form has been slightly changed (1) by bringing the cases shown under the column of remarks in regular columns and (2) by providing in the remarks column for *daily* wages of skilled and unskilled labour and the cart hire per day. This latter arrangement will obviate the necessity of submitting a separate return of labour *vide* serial No. 51 *infra*. The present and revised forms are appended.

Serial Nos. 25 and 26 (Rev. 63A—63B and 63C)—Returns of Manufactures and Industries.

These returns are now submitted in accordance with Government orders cited in the list B, as they are the only source of information regarding manufactures and industries in the State. The forms for these returns have been finally revised in Government Order No. R. 3198-238—Agri. 46-09-6, dated 23rd October 1909. The returns relating to private factories and State factories (Form 63A and 63B) are due from Deputy Commissioners to Revenue Commissioner.

The return 63C relating to production of minerals referred to in serial No. 26 has to be forwarded by Deputy Commissioner to the Director of Mines and Geology who will submit the same to the Statistical branch of the Secretariat in accordance with Government Order No. 15508-58—G. M. 635-17-1, dated 17th May 1918. The forms require no alteration except that a note has been added in the forms 63A and 63B as follows:—

> 'Information for the return may be obtained from Municipal authorities in the larger towns.'

This note is in accordance with the suggestion of Mr. N. Madhava Rao approved by the Special Committee and the Government *vide* note appended to Government Order No. R. 246-63—Agri. 3-16-3, dated 6th July 1916 *re* agricultural statistics.

No. R. 5063-5112—R. M. 17-19-2, dated 3rd November 1919.

Serial No. 27 (Rev. 65)—Trade Returns.

This is also an annual return prescribed in the Government order of 15th November 1906 cited already and submitted by Deputy Commissioner to the Revenue Commissioner. While the return of manufactures (Serial No. 25) gives information regarding the quantity and value of the outturn in the different *factories*, and that in serial No. 26, gives similar information in regard to *mineral productions*, the present return gives information generally about the quantity and approximate value of the manufacture and produce of the district and of the exports and imports. The particulars are required for Part III (*a*) of Season and Crop Report and for a section in the General Administration Report.

The Revenue Commissioner is of opinion that in view of para 3(*b*) of Government Order No. 8413-63—I. & C. 48-17-14, dated 22nd February 1918 and Government order of 23rd March 1918, requiring Director of Industries and Commerce to make arrangements for the collection of information regarding manufactures, arts and industries, the returns relating to private and State factories (Serial No. 25, Form 63A) and Serial No. 26 (Form 63B) and Trade returns (Serial No. 27) may be transferred for being dealt with in that department to which the Deputy Commissioner may forward the returns instead of to him. The Revenue Commissioner and the Director of Statistics can obtain needful information for the report from the Industries and Commerce Department.

Note.—It is understood that it is under contemplation to revise the existing form of the trade returns (Rev. 65), etc., in the Departments of Industries and Commerce as the work is transferred to that department.

Serial No. 28 (Revenue 90)—Tables of Agricultural Statistics.

The form of the return *re* tables of agricultural statistics was recently revised in Government Order No. R. 246-63—Agri. 3-16-3, dated 6th July 1916, in accordance with the suggestions of the Special Committee appointed for the purpose. It appears that the form has not been fully revised and some further changes are required as explained below:—

1. The instructions for compilation contained in Appendix 3 of the Government order of 1916, above referred to are old and apply only to the old Season and Crop Report. The revised instructions based on the Government order are contained in the latest Season and Crop Report of the year 1916-17 but as the columns, etc., referred to therein apply to the Season and Crop Report and not to those of the revised form (No. 90), it will be desirable to append the following note in the form for guidance thus:—'See the explanatory memorandum and the general instructions contained in the latest Mysore Season and Crop Report for the preparation of this return Table A to E. Care should be taken in applying the instructions, as the columns mentioned in the Season and Crop Report differ from this return.'

2. Table A2 of the revised form, *viz.* (No. 90).

i. In accordance with the Government Order No. R. 2025-37—Agri. 10-17-2, dated 3rd August 1917, the word 'deduct' is inserted before the words 'current fallow.'

ii. This table gives only area and classification of area. Hence the *number* of aided and unaided private tanks 'd' and 'f' in column 9 are out of place and are omitted.

3. *Table A.*—i. According to para 5 of the Committee's recommendation and the Government Order thereon 'Bengal gram' and 'horse gram' have to be shown separately in Table A. In the printed form, however, though 'horse gram' is shown separately, 'Bengal gram' is not separately shown but included in item 8 'gram pulse.' Hence '8 Bengal gram' should be substituted for '8 gram pulse.'

ii. The Committee had recommended the omission of barley, linseed and opium and certain other articles. As opium is not grown in Mysore it might as well be omitted.

iii. It is well to give information separately for cardamom crop in Table A3 under condiments and spices. In that case separate return *re* cardamom cultivation can also be done away with, *vide* Serial No. 35.

iv. Aracanut will be substituted under 40 (1) for other orchard and garden produce in accordance with the Government Order of the 3rd August 1917 above cited.

v. Miscellaneous crops may be:—

(*a*) Food.
(*b*) Non-food:—
1. Mulbery.
2. Others.

4. Tables B1 and B2 appear to be unnecessary as they are not made use of in the Revenue Commissioner's Office for the compilation of Part III (*b*) wholesale prices of the season and crop report, the information being obtained from the fortnightly prices of food grains which are quoted for the entire year in accordance with the Government Order.

No. R. 5063-5112—R. M. 17-19-2, DATED 3RD NOVEMBER 1919.

5. *Table C.*—Does not contain proper instructions and the indications of columns are also clearly erroneous and misleading in some respects. Hence the form of Table C is suitably revised.

6. *Table D.*—As the form stands at present there are no separate cages for entering the names of taluks or districts, as the case may be, to facilitate compilation. Moreover the Government in para 6 of their Order No. R. 11836-85—Agri. 44-17-5, dated 6th June 1918 reviewing the Mysore Season and Crop Report for the year 1916-17 have stated that a column be added to D(*a*) to show the percentage of the holdings and the Revenue Commissioner is requested to give effect to these suggestions in future report. I venture to suggest that the additional column might advantageously be applied to D(*b*) showing the number of holders classified according to the amount of revenue paid by them. In view of the above considerations the form is suitably revised.

7. *Table E.*—In this, the nature of tenure, *viz.*, fully revenue paying and wholly or partially revenue free being shown in column one under taluk, it is inconvenient to enter the figures talukwar in respect of these two heads. This defect is also remedied in the form now proposed.

8. Again under the head 'total area transferred' information as to the number of transfers and the area transferred in regard to mortage transactions has to the embodied. This information has to be obtained from the Registration Department and it appears that they cannot furnish figures for the *area covered* by *mortgage transactions* in the absence of a provision for opening a column for recording this information in their returns. This defect has to be remedied by issue of necessary instructions to that Department. For instance from the latest return of the Bangalore Taluk for 1917-18 it is found that no information whatever has been given regarding mortage transactions, a defect due apparently to the above reason. In fact in the latest season and crop report to hand, the information has not been given by practically all the districts. Similarly, some difficulty is felt as to obtaining information as to the number of transfers of Civil Court sales and the area involved. This subject is under correspondence between the Director of Statistics and the Revenue Commissioner.

9. Appendix printed in pages No. 22 and 23 *re* changes made in the Taluk boundaries during the year.

i. Under area transferred one column for cultivated and the next column total are obviously incorrect. As the object is to know the area transferred it is enough to show only the area.

ii. Next to the column Taluk to which transferred there ought to be corresponding columns to show the area and land revenue thereof.

iii. The column numbers should serially begin afresh in page 23.

A revised form noting the foregoing changes is submitted.

SERIAL NO. 29.—THE SEASON AND CROP REPORT.

The latest having been compiled in accordance with the recent Government Order based chiefly on the facts of the agricultural statistics and a few other statistical returns. No remarks are called for.

SERIAL NO. 30. (REV. 28)—AHAVAL RETURN.

It is seen from Government Order No. R. 246-63—Agri. 3-16-3, dated 6th July 1916, already referred to, that this return has been retained and that the other returns, *viz.*, Forms 28A, 28B and 28C have been abolished and a suggestion is made that all useful information contained in Form 28 should be extracted and published in the season and crop report. Accordingly Form No. 28 which gives statistical information of villages, population, source of irrigation, and other resources in the village has to be retained. The form however may be revised as suggested below.

1. *Column 12, Tanks.*—Sub-columns for Government Kodagi and Inam to be provided for since subsidiary 28A is abolished.

2. *Column 15, Wells for drinking purposes.*—As this is shown under source of irrigation and as some wells are used both for purposes of drinking and irrigation, it is better to show under a separate column wells used solely for drinking purposes.

3. In accordance with the Revenue Commissioner's suggestion, the words Agriculturists and non-agriculturists have been substituted for cultivating and non-cultivating mentioned in the several columns 24 to 52 of the return; and again in lieu of other taluks and other countries occurring in columns 28, 29, 34 and 35 'other places in the State' and 'other places outside in State' have been substituted. Columns are also provided for embodying information relating to temporary or permanent migration of people in search of labor and so as to do among with a separate return for this purpose (*vide* Serial No. 52 *infra*).

NO. R. 5063-5112—R. M. 17-19-2, DATED 3RD NOVEMBER 1919.

4. Columns 54 to 69 relating to ploughs, looms, oil and sugar-cane mills particulars of which are also given in the consolidated return of the village statistics under the Village Improvement Scheme which is submitted to Revenue Commissioner may be omitted as they are superfluous. The form as revised is appended.

SERIAL NO. 31.—(REV. 20)—RETURN OF RAIYATWARI REVENUE (NAGADIYAT) APPENDIX PAGE 57, REV. MANUAL.

This is an important Annual return giving particulars of lands irrigated by various sources and of different kinds of cultivation, etc., with the Revenue derived therefrom, for the purpose of arriving at the figures for Jamabandi.

The present form of the return consists of a number of unnecessary headings and is susceptible of considerable reduction. The revision is effected thus:—

1. Column 1, portions settled or unsettled is omitted as all the taluks have been settled.

2. Columns 4 to 47 of the present form give particulars of the extent, rate per acre, and amount of the wet lands irrigated not only by the four main sources, *viz.*, tank, river, well and rain but also by the subsidiary sources such as buckets, lever, springs, etc. Now the basis for the above is the Pahani account (village Form 3) abstract thereof shows only the four main sources. Moreover, as the subsidiary sources fall under one or other of the main sources, it is difficult to obtain anything like correct figures for the subsidiary sources, save by laborious calculation from Pahani, which after all serve no useful purpose. Accordingly the return has been simplified by providing columns in respect of the four main sources only.

3. Similar reasons apply to the columns 54-105 in the present form of the return relating to garden cultivation. The return purports to embody information of the extent, rate per acre and amount of the various kinds of garden cultivation, such as arecanut, cocoanut, betel leaf, plantains, tadifasal, (chillies, tobacco, etc.), sugar-cane, coffee, mulberry, etc.

It may be stated here that information as regards the area of each of the above crops is available from the return of agricultural statistics (Table A. 3) based on the Pahani account. As regards however *the rate per acre*, it is obvious that no separate rate of assessment has been fixed for arecanut, cocoanut, etc., apart from that fixed for the classification of lands wet, dry or garden on which the several crops in question may be standing. As such it is no wonder that correct figures are said to be not furnished now. Accordingly the more proper classification of garden cultivation with reference to the four main sources of irrigation mentioned above has been adopted and thereby the return has been simplified.

4. Columns 124 and 125 of the present form "deserted lands sold on account of arrears of Kandayam" have been omitted as they are apparently not items of increase to the revenue. For the same reason columns 126 and 127 have been also omitted.

5. Columns 134, 135, 161 and 162. Other items under increase and decrease. At present, transfers of lands effected between the parties (including Court sales) are being brought both under increase and decrease in some districts. As this is obviously unnecessary in this return specific instructions have been given to that effect.

6. There are no headings in the return to show the deduction on account of remission of—

1. Quarterly assessment of Chowthayi.

2. Half-assessment under breached Government tanks.

3. Coffee and garden-lands given on shraya tenure, etc. These have been newly inserted with a blank column for any other item that may arise.

The revised and present forms are herewith submitted.

SERIAL NO. 32. RETURN OF TRANSFERS OF LAND FROM AGRICULTURISTS TO AGRICULTURISTS, ETC.

This annual return to Revenue Commissioner is prescribed in Appendix B, page 57, Revenue Manual. A typed copy of the form is appended for information. The particulars contained in the statement are embodied every year in the District Revenue Administration report; but the Revenue Commissioner is of opinion that a separate statement in the present form may also be sent up to him with the Administration Report. As in any case, the taluk has to send the return, it should continue as heretofore.

It may be useful to append a note at the foot of the return defining the term 'agriculturist' thus:—

'An agriculturist is a person owning ploughs and bullocks for the purpose of cultivation or whose chief occupation is agriculture.'

No. R. 5063-5112—R. M. 17-19-2, dated 3rd November 1919.

In the absence of a note it is feared that mistakes are likely to be committed in giving the figures.

Serial No. 33. Return of particulars of increase and decrease in the Nagadiyat. Appendix B, page 57, Revenue Manual.

This annual return is now sent in manuscript as supplement to the abovementioned return of raiyatwari revenue. As particulars of increase and decrease contained in the return are mere repetitions of those in columns 114 to 138 and 141 to 145, of Nagadiyat (Serial No. 31 *supra*) they are superfluous and may be abolished. Its discontinuance is also recommended by the Deputy Commissioner, Mysore District and the Revenue Commissioner is also agreeable to it.

Serial No. 34. Return of irrigation cess merged in the wet and garden assessment of Government lands.

A separate return for this is unnecessary and may be abolished. The headings in this statement which is now sent up in a manuscript form attached for reference may be brought under the heading 'merged amount deducted from' in Revenue Form No. 34, Serial No. 46 *infra*, *viz.* Return of demand under local and irrigation cess. The Revenue Commissioner also agrees.

Serial No. 35. Return of garden lands resigned. Vide Appendix B, page 57, Revenue Manual.

This is sent in manuscript form as a supplement to the Nagadiyat return. As information is available in columns 145 and 146 of the said return, the supplemental return is unnecessary and may be abolished. The Revenue Commissioner also agrees.

Serial No. 36. Return of Cardamom cultivation.

This return finds a place in the stock list of periodicals of the Revenue Commissioner's Office and appears to be submitted to the Revenue Commissioner by the Deputy Commissioners of malnad districts. The authority for its submission is not traceable. A manuscript form obtained from the District Office, Kadur is appended for information.

The submission of a separate return is unnecessary and may be discontinued as in the case of the statement of cinchona and coffee cultivation. The information which only pertains to the area of the cardamom crop may be embodied in table A3 of the Agricultural Statistics under 'condiments and spices' *vide* Serial No. 28 *supra*. The Revenue Commissioner is also agreeable to this proposal.

Serial No. 37. Area and assessment of lands given out for mining purposes (Vide appendix B, page 57, Revenue Manual).

This is sent in manuscript form, a copy of which is appended for information. A separate return is unnecessary and may be abolished. The Revenue Commissioner is also agreeable to this. It seems enough to give due intimation in such cases to village shahbhogs for making a note in the Khetwar.

Serial No. 38. Statement of Civil Divisions. Vide Appendix B, page 57, Revenue Manual.

This is an annual return sent up in a manuscript form, copy of which is appended for information. It gives information regarding the chief towns with their population in the Taluk, Civil, Revenue and Magisterial Courts, etc. This return is unnecessary and may be abolished. The Revenue Commissioner agrees.

Serial No. 39 (Revenue 29). Return of area. Vide Appendix B, page 57, Revenue Manual.

This return is important and may be continued as it furnishes information regarding the assessed occupied and unoccupied area including alienated villages, and so on. The return is required for reference as well as for the compilation of table A1 of the Agricultural Statistics and other accounts. The form is slightly revised by the omission of the word 'coffee', shown in columns 5, 11, 17 and 23 of the present Revenue Form 29, and providing only one column for the total Phut Karab after column 44 in lieu of the same in columns 6, 12, 18 and 24 as no useful purpose is served by the information regarding extent of Phut Karab separately in assessed occupied and unoccupied Government lands and in minor Inam lands. It may be remarked that it is difficult to obtain figures under the above detailed items as Village Form No. 9 only gives the total Phut Karab for the village and it does not appear worthwhile to know the details under Phut Karab.

No. R. 5063-5112—R. M. 17-19-2, dated 3rd November 1919.

Serial No. 40 (Revenue 39). Return of mines and quarries, vide Appendix B page 57, Revenue Manual.

This seems to be superfluous and may be abolished inasmuch as information regarding the outturn and value of the mines, etc., to be given in the return is available from the statement of productions of minerals referred to in Serial No. 26 [Form 63 (*a*)] *supra* to be submitted by Deputy Commissioner to the Director of Mines and Geology. The particulars in that statement have necessarily to be verified by the Geological Department The Revenue Commissioner agrees.

Serial No. 41 (Revenue 40). Return of Land Revenue, vide Appendix B, page 57, Revenue Manual.

This return is unnecessary and may be abolished for the following reasons;—

i. Revenue assessed and realized and balance for the year of report and the proceeding year shown under columns 2 to 5 and 7 and 8 of the return appear in the annual demand, collection and balance statement.

ii. The number of sales for the arrears of revenue and the amount realized therefrom are available from the 'return of Land Revenue realized by coercive processes.' *Vide* Serial No. 48 *infra*.

iii. Information regarding *cost of collection* given in column 6 may be advantageously given in the review regarding D.C.B. in the Revenue Administration Report. The Revenue Commissioner also agrees to the abolition of this return.

Serial No. 42 (Revenue 24) Return of Mohatarfa.

This is an annual return prescribed in Appendix C, page 57 of the Revenue Manual. Although Mohatarfa revenue is assigned to the District Board, still the particulars contained in the return relating to the various kinds of houses, etc., and the revenue realized therefrom are of much statistical importance. The headings however, may be curtailed thus:—

1. Columns 14, 15, 18, 19, 22, 23, 26, 27, 38, 39, 43, 44, 48, 49, 53, 54, 65, 66, 70, 71 and 72 containing maximum and minimum rates of taxation in respect of houses, shops, etc., may be eliminated as the rates are known and no useful purpose is served in the return for purposes of check.

2. The carts taxed may be classified into single bullock, double bullock and wadder cart in accordance with the revised form of the village Khanishmari Account No. 12. A revised form is appended after noting the above and a few other minor alterations.

Serial No. 43 (Revenue 23). Return of Salt Revenue.

The Revenue Commissioner considers that information regarding Salt Revenue is essential and suggested certain headings which have been embodied in columns 20-25 of the return of Land Revenue Miscellaneous including XIII Miscellaneous (Serial No. 45. *infra*) so that the separate submission of this return is unnecessary and may be abolished.

Serial No. 44 (Revenue 27). Return of revenue from pasture lands.

This is unnecessary and may be abolished. The information relating to the revenue from pasture can be had from the return of Land Revenue Miscellaneous, including XIII Miscellaneous (Serial No. 45). The Revenue Commissioner agrees.

Serial No. 45 (Revenue 30). Return of Land Revenue Miscellaneous. Vide Appendix C, page 58, Revenue Manual.

This return has to be retained for the reason that the monthly and annual Demand, Collection and Balance Returns to Revenue Commissioner give only the total figures in respect of the minor heads of Revenue. The form is revised by omitting the column relating to Batayi crops, and providing columns for 'XIII Miscellaneous' which will comprise 'Sale of building sites', 'acreage contribution' and 'Salt Revenue'. The name of the return will be 'Return of Land Revenue Miscellaneous including XIII Miscellaneous.'

Serial No. 46 (Rev. 34.)—Particulars of demand under Local and Irrigation Cess.

This annual return is prescribed in Appendix C, page 58, Revenue Manual and its continuance is necessary as this is the basis for arriving at correct figures of Demand under Local and Irrigation Cess. The form has been revised by omitting the columns relating to Batayi, forest, heads under Abkari, and providing columns for supari cess and Railway cess and making certain other necessary alterations. Column for giving information as to the merged amount of wet and garden lands in regard to taluks in which the re-survey and settlement has not been introduced is given in a clear manner and hence Serial No. 34, *supra* which is separate return for this purpose is unnecessary. The *revised form* of the return is appended.

Serial No. 47 (Rev. 36)—Statement of Revenue under Minor Inams.

Serial No. 48 (Rev. 37.)—Statement of Revenue under whole Inam Villages.

These annual returns to Revenue Commissioner are prescribed in Appendix C, page 58, Revenue Manual. Their continuance seems to be necessary as they are the only returns that

No. R. 5063-5112—R. M. 17-19-2, dated 3rd November 1919.

furnish particulars of Revenue relating to minor inams and whole inam villages. No material alteration in the headings of either return seems to be called for. The few minor changes suggested are :—

i. A note is added to indicate the variations in Inams in the year under report as compared with the preceding year in the column of remarks.
ii. The columns in both returns should be serially numbered.
iii. A column for remarks is opened in Revenue Form 36.
iv. In Revenue Form 37 (Statement of particulars of Jodi and Sarvamanya villages, a sub-column after column 4 for noting the area of such villages, is opened as suggested by the Revenue Commissioner. In lieu of 'Sayer', Supari Cess is inserted in accordance with G. O. No. R. 8324-33—L. R. 295-07-3, dated 18th June 1908. *Vide* page 565, Revenue Manual. Both the revised and the existing forms are herewith submitted.

Serial No. 49.—Return of Land Revenue realized by coercive Process.

This is prescribed as an annual return due to Revenue Commissioner from districts *vide* Appendix B, page 57, Revenue Manual. The form of the return was last revised in G. O. No. R. 1458-66—L. R. 467-11-5, dated 12th September 1912. The particulars contained in this statement are embodied in the District Administration Report. The Taluk however, will submit the usual annual return to the District Office. The Revenue Commissioner is of opinion that the Deputy Commissioner should send his return with the Administration Report.

The form itself needs few changes. It may be stated that under Section 159, Land Revenue Code, some amount may be recovered by mere forfeiture of occupancy or alienated holding which is one of the processes before resorting to actual sale of property. But as forfeiture is a step taken to enable the sale of property, and the notifications of forefeiture and sale are practically simultaneous, the amount recovered before sale, if any, and the number of cases will be shown under this column only.

In column 13 relating to distraints and sale of movable property, it is stated that the number of cases of distraint and sale should be shown separately. It is better to provide sub-columns for this purpose ; otherwise, the tendency is to give only the total number of cases as is apparent from Revenue Administration Report for the year 1916-17. Hence the sub-columns have been opened ; likewise for column 16 *re* amount of arrears realised.

Serial No. 50.—Return of lands held by public servants.

This was prescribed as an annual return, Appendix 13, page 57, Revenue Manual and the same has been modified by G. O. No. G. 9439-90—G. M. 218-15-2, dated 6th January 1916, page 71, Manual of General Circulars and Standing Orders, Part I, according to which an extract of the register of all lands held by Revenue Officers has to be submitted with the annual Revenue Administration Report. The form is contained in Appendix 21 of the Manual of General Circular and Standing Orders, Part II, which needs no change. The Amildar, however, will have to send the annual return and the Sub-Division Officer and Deputy Commissioner should send their returns with the Admininstration Reports.

Serial No. 51 (Rev. 59.)—Return of Labour.

The authority for prescribing this as a separate annual return cannot be traced. The existing form is herewith submitted. At present the information regarding *wages per diem* for *skilled* and *unskilled labour*, and the rate of cart hire per day, are all that are given in the Revenue Administration Report. Information relating to rate of hire of camel, donkey and boat per day contained in columns, 5, 6 and 7 of the form are not furnished in the report, camel and boat service not being in vogue in the State.

In the half-yearly return of wages Serial No. 24 *supra*, information is furnished for monthly wages of skilled and unskilled labour, and if in addition information *re* (1) daily wages of skilled and unskilled labour and (2) cart hire per day, be also furnished in the remarks column of the statement the same may easily be embodied in the Administration Report, and the necessity for a separate return will be obviated. The change is accordingly proposed in the half-yearly return of wages (Serial No. 24). Hence Serial No. 51 (Rev. 59) may be abolished. The Revenue Commissioner agrees to this proposal.

Serial No. 52.—Return of Emigration and Immigration.

The authority prescribing this return is not traceable. In page 22 of the classified abstract of the General and Revenue Secretariat (1917) mention is made against Serial No. 23, of the report of emigration and immigration being due from Deputy Commissioners fortnightly, but the authority for this is not mentioned.

No. R. 5063-5112—R. M. 17-19-2, dated 3rd November 1919.

It appears that this return either as fortnightly or annual is not being received in the Secretariat. In the list of periodical returns received from the Kadur District, this is merely mentioned as an annual return to the Revenue Commissioner, but in the stock list of periodicals maintained in the Revenue Commissioner's office, it does not find a place; nor is any prescribed form available. A short paragraph regarding the subject 'Emigration and immigration of people in search of labour' is devoted in the annual Revenue Administration Report. In order to furnish this information whether the emigration or immigration is a permanent one by agriculturists or others or whether it is the usual emigration of people at particular seasons in the year in search of labour, it will be necessary to provide for the addition of an explanatory note either in the remarks column (or preferably as a foot-note) with reference to columns 4 to 7 and 23 to 25 of the Khanishmari statement as revised. This will be the basis for the preparation of the Ahaval return Serial No. 30 *supra*. (Revenue Form No. 28) for columns 28, 29, and 34 and 35 regarding increase and decrease of people. The Ahawal return is so revised as to contain the above information so that the submission of a separate return to the taluk is rendered unnecessary. The District Office can obtain needful information from the Ahaval return for the Administration Report.

Serial No. 53—Return of details of Area and Assessment of land in European and Native Coffee Plantations.

This is prescribed in Appendix B, page 57, Revenue Manual, as being due to Revenue Commissioner. The return does not find a place in the stock list of periodicals maintained in the Revenue Commissioner's Office but it does in the periodical list of returns of some districts. A manuscript form of the statement received from the Deputy Commissioner, Mysore, is appended to this for information. The Revenue Commissioner is of opinion that this return may be sent to him from coffee district in the form herewith appended.

Serial No. 54.—Programme of Famine Relief Works.

Under Sections 29 and 30 of the Mysore Famine Code, 1909, the programmes of village and Public Works are prepared in the Office of Deputy Commissioner and Executive Engineer, respectively in the prescribed forms 1 and 2 given in pages 131 and 132 of the Famine Code and are sent up to Revenue Commissioner through the Superintending Engineer. Copies of programme of both works so prepared should be kept in the Deputy Commissioner's Office as revised every year. Instructions for the preparation are contained in the form themselves, which need no change.

Serial No. 55—Statement of Local Defence Scheme of the Bangalore Brigade area.

In accordance with Chief Secretary's D.O. letter Nos. 7322-9—G. M. 287-10-3, dated 15th June 1911 and G. 7942-9—G. M. 101-12-6, dated 11th June 1913, statements with particulars in the forms appended are submitted by Deputy Commissioners to the Chief Secretary to Government, as being required by the Military authorities in connection with the revision of the scheme for the Bangalore Brigade area. No suggestions are necessary with regard to the forms which are appended. (It is understood that these forms should not be brought in Part II of the Taluk Manual as Appendices, as the returns are semi-confidential, the authority being contained in the D. O. letters of the Chief Secretary cited above. The name of the return in general will, however, be indicated.)

Serial No. 56—Consolidated return of Village Statistics under the Village Improvement Scheme.

This is being submitted to Revenue Commissioner annually by Deputy Commissioners in accordance with G. O. No. R. 6058-6107—L. R. 430-13-1, dated 6th February 1914, in the prescribed form appended for reference. The return has also got to be printed for each District by Deputy Commissioners in accordance with G. O. No. R. 618-27—L. R. 15-15-227, dated 12th July 1916. It has been stated against Serial No. 30 (Ahwal return) that a few columns relating to ploughs, mills, etc., may be eliminated from that return as they are practically repeated in this return.

Now as regards ploughs, the distinction as to ploughs drawn by '8 bullocks' '4 bullocks' and so on mentioned in columns 54 to 56 of the Ahwal return Serial No. 30 is unnecessary as it serves no purpose and they need not be brought in this return. It seems quite sufficient to classify them as 'ordinary' and 'improved' as given in the printed form of the consolidated return of village statistics. A few minor changes in this form are however suggested for approval.

1. Ploughs may be printed as the common heading for columns 91 and 92.

2. Oilmills may be classified and shown in 2 sub-columns as 'ordinary including stone and wooden' and 'improved'.

No. R. 5063-5112—R. M. 17-19-2, dated 3rd November 1919.

3. Likewise sugar-cane mills may be classified and shown in 2 sub-columns 'wooden and iron' and 'other mills of improved pattern'. The form noting the changes is appended.

It may be mentioned here that according to G O. No. R. 6058-6107—L. R. 430-13-1, dated 6th February 1914, the Revenue Commissioner has to submit the Annual return to Government in the Department of Education and Agriculture by the end of September, *vide* page 30, Village Improvement Manual Synopsis. It is apparently modified by G. O. No. G. 15508-58—G. M. 635-17-1. dated 17th May 1918, constituting the Statistical Branch of the Secretariat according to which the return is due from Revenue Commissioner to the Statistical Branch where it has to be dealt with.

Serial No. 57—Statement of works of public utility by private individuals.

This is a half-yearly return submitted by Deputy Commissioners to Government and dealt with in the Statistical Branch of the Secretariat in accordance with G. O. No. G. 15508-58—G. M. 635-17-1, dated 17th May 1918. The form of the return is prescribed in G. O. No. G. 10762-810—G. M. 360-14-1, dated 8th April 1915, *vide* paras 772-776 Manual of General Circulars and Standing Orders, Part I and needs no change. Only the information required to be noted in the remarks column of the statement in regard to the certificate of merit *vide* para 770 of the Manual of General Circulars, Part I, may well be printed as a footnote to the statement thus: —

In the remarks column note the certificate of merit, if any, awarded and any other useful information.

Serial No. 58—Statement of Private and indigenous schools.

This annual statement is forwarded by Deputy Commissioners to the Inspector-General of Education in the form appended (123 new) in accordance with G. O. No. 7750-7—237 of March 1892. It gives information of boys and girls above the age of ten, etc., with particulars of castes and communities receiving instruction in the several private schools of the District. The above information is generally collected by the Revenue agency and hence this annual statement is forwarded by Deputy Commissioners. The columns in the statement may be numbered.

Serial No. 59—Statement of Newspapers and periodicals.

To the list of Statistical returns may be added this statement, which is however submitted by the District Magistrate. The form of the statement is contained in Part II of the Manual of General Circulars and Standing Orders as Appendix 50.

Concluding summary.

The total number of returns under this group including the Sub-Serial Numbers are 63. Of these, Serial Nos. 1, 5, Revenue Form 71 of Serial No. 20, 33, 34. 35. 36, 37, 38, 40, 41, 43, 44, 51, and 52 or 14 returns are proposed to be abolished. The forms have been revised in respect of Serial Nos. 8, 11, 20, 23, 24, 28, 30, 31, 39, 42, 45, 46, 47, 48 and 56 besides minor alterations in other returns. The remaining returns may be roughly classified under —

i. Rainfall and Season Reports.
ii. Prices of food grains.
iii. Returns connected with cotton and woollen mills.
iv. Manufactures and Trade.
v. Forecasts of crops.
vi. Agricultural Statistics.
vii. Miscellaneous Statistics.

Some of them are due to Residency and are also published in the Gazette. The others are required by the Revenue Commissioner for information, or for the Administration Report. Hence it does not seem possible to attempt a further reduction in the list.

It may also be stated here that sources of information for the several returns have been briefly indicated in them and wherever necessary mnemonic symbols are also given. With a view to facilitate the preparation and submission of certain important and somewhat difficult returns such as tables of agricultural statistics, Ahaval return, Nagadiyat return and so on, forms of certain new registers have been proposed for the Taluk Office in which needful instructions will be given for the purpose of compiling them.

Fuel Supply to Iron Works.

No. R. 4819-24—Ft. 94-19-1, dated 30th October—4th November 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

Read—

Letter No. R. 5996—Ft. 71-18-3, dated the 16th November 1918, directing the Conservator of Forests, to resubmit his proposals for the division of the Kadur District into two Forest Divisions after the lapse of a year.

2. Para 7 (iv) of Government Order No. 1226-7—I. & C. 294-18-2, dated the 24th June 1919, passing orders regarding the supply of fuel for the Mysore Iron Works at Benkipur and requesting the Conservator of Forests, to submit in consultation with the Agent, Mysore Railways, and the Special Officer, Iron Works, a detailed statement showing the areas of Forests to be worked during the next five years, the quantities of wood to be drawn from each particular area, together with a comprehensive plan of operations with details of staff, etc.

3. Letter No. 70—H, dated the 18th July 1919, from the Conservator of Forests in Mysore, submitting a detailed note together with the required statements, etc., regarding the supply of fuel to the Iron Works.

(Printed as an accompaniment omitting sketches.)

Order No. R. 4819-24—Ft. 94-19-1, dated 30th October—4th November 1919.

The Conservator of Forests has, in his proposals referred to above, dealt comprehensively with the arrangements to be made to facilitate the supply of fuel to the Iron Scheme under the following heads:—

1. Quantity for which arrangements have to be made.
2. Means of transport.
   Tram lines required for conveying fuel to the Iron Works at Benkipur.
3. Forests from which it is proposed to exploit the fuel required, allocation of coupes, etc.
4. Alterations necessitated in the sanctioned working plans.
5. Watch and ward of firewood.
6. Miscellaneous.
7. Staff required.

2. Government have carefully scrutinized these proposals, and are pleased to direct as follows:—

Tram lines.—Government have already sanctioned the construction of tram lines for 61 miles. Every attempt should be made to complete the lines within the prescribed dates. As there is great difficulty at present in securing rails, etc., for additional lines, the Conservator is requested to revise his proposals in this respect in consultation with the Agent, Mysore Railways, and to apply for only such lines as are absolutely necessary. The Special Officer, Mysore Iron Works, is also requested to favour Government at a very early date with suggestions of the Iron Scheme Committee with regard to the utilisation of the Workington Iron and Steel Co., lines, so that the question of the additional forest tram lines to be undertaken may be definitely decided.

(ii) *Forests from which it is proposed to exploit and alterations in working plans, etc.*

During the first two years in which advance fellings have to be undertaken, the Conservator proposes to exploit 7,360 acres of District Forests, in addition to the State Forests, and states that this will not affect the interests of the neighbouring villages and that every effort will be made to meet their requirements. Government consider it necessary however, that before the District Forests are worked, satisfactory arrangements should be made to ensure that the interests of the raiyats are not affected. The Conservator is therefore requested to obtain the concurrence of the Deputy Commissioners concerned, to the proposed plan of operations in the District Forests in

each case. The Conservator should, as far as possible, accept the suggestions made by the Deputy Commissioners to safeguard the interests of the raiyats, and if, in any instance, he does not find it possible to comply with these suggestions, the matter should be referred for the orders of Government. The proposals of the Conservator regarding the alterations to be made in the working plans of the State Forests, etc., are approved.

(iii) *Agency for working; Watch and Ward of firewood, etc.*

Government approve of the proposals of the Conservator regarding the Agency for the felling and removal of firewood and the arrangement for the watch and ward of the firewood collected in the forests, till it is handed over to the Company.

(iv) *Staff.*

(*a*) The formation of two additional divisions, as proposed by the Conservator is sanctioned as a temporary measure. Government are, however, of opinion that it is not necessary to have the headquarters of both the divisions at Benkipur and are pleased to direct that Benkipur be the headquarters of the division comprising Benkipur among other ranges, and that Tarikere be made the headquarters of the other division. The senior of the two officers may be located at Benkipur. He will be in charge of the arrangements at Benkipur for the supply of fuel to the Iron Works and delivery of the required quantities to the officers of the Company. Each of these District Forest Officers will be given a local allowance of Rs. 50 per mensem.

(*b*) The Conservator proposes to entertain 16 Rangers, + of whom will replace the Sub-Assistants in charge of Ranges. Government consider that such a large staff of Rangers is not necessary and direct that the number be reduced to 12. With regard to the establishment proposed for the Conservator's Office, Government direct that 4 hands as noted in the margin be entertained.

1 on Rs. 80
1 „ „ 60
1 „ „ 45
1 „ „ 35

They do not consider it necessary to sanction any increase of pay to the ministerial head of the Account Branch of the Conservator's Office. With the foregoing modifications, the proposals of the Conservator in this respect, are sanctioned, on a temporary basis, for a period of two years to begin with. The staff will also be responsible for all necessary sylvicultural operations to ensure a continuous and permanent supply of fuel required for the works, including the formation of special fuel plantations to supplement the quantities available from the existing forests. After the fuel supply is properly organised, the Conservator will examine the situation and report what reduction of staff is feasible.

(v) *Apportionment of charges, etc.*—The bifurcation of the Kadur District into two forest divisions was being urged by the Conservator of Forests independently of the Iron Scheme ; and the construction of tramways and other facilities provided on account of the Iron Scheme, will enable the Forest Department to exploit the timber resources of the forests to a greater extent in the future. According to the agreement entered into in connection with the Iron Scheme, the Forest Department will get credit for all fuel supplied by it to the Iron Works at the rate of Rs. 2½ per ton. Government consider therefore, that the cost involved in the arrangements referred to in clauses (iii) and (iv) above should be borne entirely by the Forest Department. But as it is desirable that the charges incurred on account of the Forest Department proper and the fuel collection charges, should be kept distinct, Government direct that ⅓rd of the cost of the additional staff referred to in clause (iv) above be for the present debited to the Forest Department proper and the remaining ⅔rds to a separate head, to be opened in the Forest Department accounts and known as 'Fuel Collection Charges'. The cost of the special staff which is proposed in clause (iii) above to be entertained for the first two years to attend to the watch and ward of the firewood collected in the forests will be debited entirely to the fuel collection charges. Separate accounts should be maintained by the Forest Department of the expenditure incurred on the operations for the supply of fuel, including the proportionate establishment charges debited to this item as directed above, and of the amounts received from the Company for the fuel supplied to them, etc., so that the net gain or loss, to the Department by the supply of fuel at the rate fixed in the Agreement may be readily ascertained at any time.

No. R. 4819-24—Ft. 94-19-1, dated 30th October—4th November 1919.

3. The Conservator is requested to make arrangements for meeting ⅓rd of the cost referred to above which has to be debited to the Forest Department proper by re-appropriation from the provision made for the Forest Department in the current year's budget. The items of expenditure to be debited to the fuel collection charges, will be met from the advance of one lakh of rupees ordered to be placed at the disposal of the Forest Department in the Government Order referred to above.

4. The Conservator is requested to prepare and submit for the information of Government a half-yearly statement showing the result of the operations at the end of December and June every year, the total cost incurred, the amount to be debited to the Forest Department proper, and that to be debited to the Fuel Collection charges, the realization from the value of fuel supplied to the Company and the net gain or loss to the Department, a copy of the statement being also sent to the Comptroller at the same time.

5. Separate orders will issue with regard to the establishment of a Saw Mill after consulting the Managing Agents on the points raised.

B. RAMASWAMAIYA,
Secretary to Government, Revenue Department.

To—The Conservator of Forests in Mysore with certain encls.
The Special Officer, Iron Works.
The Comptroller to Government, thro' Financial Secretariat.
The Agent, Mysore Railways.
The Deputy Commissioner, Shimoga District.
The Deputy Commissioner, Kadur District.

Exd.—G.W.B.

No. 70—H. of 18-19, Enc. 9, and 1 packet maps, dated 18—20th July 1919, From M. G. Rama Rao, Esq., B.A., Conservator of Forests in Mysore, Bangalore, to P. G. D'Souza, Esq., B.A., B.L., Secretary to the Government of His Highness the Maharaja of Mysore, Departments of Education and Agriculture.

With reference to para 7 (iv) of G. O. No. 12260-7—I. and C. 294-18-2, dated 24th June last, I have the honor to submit herewith, for early orders, a detailed note on the question of Fuel Supply to the Iron Works together with the accompaniments noted below as required by the Orders of Government.

1. Minutes of Meeting held at the Conservator's Office on 10th July 1919.
2. Statements 'A and B.'
3. Maps of the several forests showing the allocation of coupes.
4. Topo sheet showing the location of Tramways in relation to the Forests to be worked.
5. Sketch map showing the several Divisions and Ranges comprising them.
6. Statement showing the areas of each Division and Range and the extent of State Forests.

FIREWOOD SUPPLY FOR THE BENKIPUR IRON WORKS.

1. *Quantity required.*—The Iron works are estimated to consume about 72,000 tons of firewood annually to obtain 18,000 tons of charcoal for the manufacture of Pig Iron, the yield of charcoal being taken at 25 per cent. Sample plot fellings having disclosed that the actual yield of firewood from the several forests was slightly higher than the original estimates, the belt of forests 340 square miles in extent, lying mostly on the right bank of the Tunga River, would practically suffice to supply the requisite quantity of firewood.

2. *Tram lines.*—In the first two years, however, it is not possible to conduct fellings in all these areas, mainly, on account of the difficulty experienced by the Railway construction Department to obtain all the permanent way materials and the rolling stock required to construct immediately, all the tram lines originally proposed for working the several forests round about Benkipur. From the minutes, herein enclosed, of a meeting held in the Conservator's Office on the 10th instant at which the Agent was present, it will be seen that he has undertaken to have the following lines completed by the dates noted against each, provided the permanent way materials and the rolling stock required are delivered to him by the 1st November 1919 :—

(1) Rangenhalli-Benkipur Section of the Ore line by the end of May 1920,
(2) Rangenhalli-Tigada, the balance of the Ore line and the
(3) Benkipur-Umblebyle-Agasanhadlu line by December 1920.

The Hebbe-Siragola line, even if possible, cannot be ready up to December 1920, and the Hebbe-Talbidrahalla line can only be completed in about 18 months after commencing work. To add to our inconveniences, the Workington Iron and Steel Co., are not willing to undertake the transport of material from forests, through which, their lines pass at reasonable rates. It will thus be clear that for the first two years of working, the Forest Department will only have the Hebbe-Thadasa-Lakvalli-Rangenahalli-Benkipur line and a small section between Thadasa and Narsimharajapura for transport of firewood by 1st May 1920, provided the requisite rolling stock is supplied in time. These lines can only help the transport of produce from about 9,692 acres, while the yield from the remaining area will have to wait till December 1920.

For the 3rd, 4th and 5th years, the requirements of this Department would be about 62 miles of tram lines as detailed below:—

No.	Name of Forest	Name of line	Total length of line	Length required at the end of 2nd year	Area of annual coupe
			Miles	Miles	Sq. Miles
1	Muthodi Extension and Muthodi Forest ...	Hipla-Karwani-Muthodi loop ...	12	3½	1
2	Lakkavalli ...	Save-Kowlapurmatti ...	6	5	2
3	do ..	Kowlapur-Kowlapurmatti	2½	1½	
4	Aramballi ...	Nelogodda-Burz ..	10	5	1
5	Chornedehalli ...	Umblebyle-Chornedehalli.	5	4½	1
6	Umblebyle ..	Umblebyle-Umblebyle Ft	2	2	½
7	Antergange				
8	Kukwada-Ubrani ...	Benkipur-Joldhal ...	20	16½	3
9	Do				
10	Hadikere, East ...	Gangur-Hadikere East ...	12	3	2
11	Kuskal				
12	Megarmakki ...	Narasimharajpur-Chikagrahar ...	15	15	2
13	Tegurgudda				
14	Gangegiri ...	Hebbe-Sirogola, etc. ...	12	6	2
15	Kodi District Forest				
		Total....		62 Miles	

To ensure the supply of firewood, during this period, the above lines are required to be in working order by October 1921, and the Agent promises to have them ready by then, provided he is given the staff for the formation of another division and the permanent way materials, etc., are handed over to him by 1st November 1920.

3. *Forests from which it is proposed to exploit the fuel, allocation of coupes, etc.*— In order to get over the difficulty occasioned by the inadequacy of transport facilities and to concentrate work as much as possible in close proximity to the available tram lines, it is proposed to execute advance fellings in some of the forests and to work also some of the adjoining District Forests. From the areas proposed to be thus worked in the first two years, an annual yield of 87,174 tons of firewood and 2,71,800 c. ft. of timber is estimated. From the third year onwards, the annual yield would be 72,307 tons of firewood and 2,82,000 c. ft. of timber. Statements A and B furnishing details of areas proposed to be worked in the first two and the next three years as well as maps showing the working coupes in the first five years are attached hereto. To facilitate reference, a topo sheet showing the location of the permanent and portable tramways in relation to the forest areas proposed to be worked is also appended.

It will be clear from Statement A, that in the State Forests there will be an advance felling over an area of 9,185 acres and that 7,360 acres of District Forests are also proposed to be worked. The excess felling in the State Forests does not materially affect their future working, since the excess will be made good by spreading it over 25 years as will be seen from paragraph 6 *infra*. The fellings in the District Forests will affect chiefly the unsound stock now choking the forest to the detriment of the more valuable portion. This will not, of course, affect the interests of the neighbouring villages and every effort will be made to meet their requirements.

4. The subjoined statement exhibits the quantities of firewood, timber and other produce that may be expected to be removed over each section of the tram line.

No. R. 4819-24—Ft. 94-19-1, dated 30th October—4th November 1919.

Quantities of timber and firewood that are to be carried over the several lines during the first two years after the commencement of firewood supply to Benkipur Iron Works.

Name of line	Timber and poles in cubic feet	Firewood in tons	Remarks
Sirgola-Hebbe line ...	17,500	2,500	
Talbidre-Hebbe ..	13,250	2,000	
Hebbe-Tadasa ...	30,300	7,200	
Tadasa-Rangenhalli ...	21,808	9,780	Goes to Benkipur *via* Ore line.
Ore-line	49,650	23,994	
Tadasa-Benkipur ...	1,07,316	28,240	
Total ...	2,39,824	73,714	
Madras & Southern Mahratta Railway.	32,000	13,460	
Grand Total ...	2,71,824	87,174	

5. *Means of Transport.*—For the present, the mode of transport of firewood to the rail heads would be through ordinary carts. In order to minimize carting, the Railway Department should give temporary sidings at places along the line where the firewood is stacked in fair quantities. It would be better to have 3 or 4 miles of portable lines at the disposal of the department, so that they may be used to connect the main lines with the interior of the forests to reduce the length traversed by carts. The trucks on these lines may be handled by men or animals.

Some portions of the coupes are, more or less, on steep slopes. The method of bringing firewood down these slopes will have to be considered as exploitation extends to such areas. Dry shoots or dry sledging will probably have to be resorted to.

6. *Alterations necessitated in the sanctioned working plans.*—The existing Working plans have been drawn up chiefly with reference to the extraction of timber and the working has been prescribed with a view to get small annual felling areas and several points of attack. But to make full use of the tram lines, it is necessary to concentrate fellings to the locality through which they pass.

In the case of forests worked on an area basis there will be not much trouble, nor will there be any dislocation in the yield, except in so far, as any advance fellings are necessary owing to the available tram lines. But in the case of timber where possibility has been fixed by number of trees on a quality basis, the existing working plans require modifications as noted hereunder.—

A.—Lakvalli State Forest.—Neither a change of rotation nor of the method of working is proposed.

(1) *A and B types.*—The A and B types will be treated as one working circle, and the working will proceed as the tram lines extend. The possibility will be fixed by area, but within the area, no enumeration is necessary and the estimated quantities given in Appendix I of the Working Plan may be taken for guidance by the marking officer. The timber possibility in the A type compartments will be, all the exploitable stock of teak, both sound and unsound, and for the other species, $\frac{3}{4}$ of the exploitable stock of sound trees. In the B type areas, the fellings will be restricted to $\frac{3}{4}$ of the sound stock for all species. All the unsound stock will also be removed, unless the retention of any tree is necessary for Sylvicultural reasons. The exploitable girths in the two types will be the same as those given in the Working Plan Report.

(2) *C Type.*—During the first two years, the whole of the Hosalli block of the C type will be worked over and the fellings will not be repeated until after 15th year. The Kundur Block will be worked in accordance with the provisions of the Working Plan.

Tyagadabagi State Forest.—The two felling series will be clubbed together and the whole area treated under "Coppice with Standards." The annual coupe will be 216 acres. The area prescribed for felling in the first two years is 1,000 acres. An area of 568 acres will be excess felled. To compensate for the advance fellings, the extent of the coupe will be reduced to 196 acres from the third year onwards.

C.—Umblebyle, Chornedehalli, Kakanhosudi and Aldhara State Forests.—In A and B types, the rotation will be raised from 20 to 25 years. The timber possibility will be by area with the following provisions:—

(1) *A and B types.*—In the A type coupes, it will be restricted to (1) for teak to the whole of the exploitable stock; (2) for Honne, Matti, Beete, Nandi, Hunal and

Yethega at $\frac{2}{3}$ of the stock; and (3) for the other species. to the whole of the exploitable stock. For the B type, it will be for teak $\frac{1}{4}$ of the exploitable stock and for the other species as in type A. The estimated growing stock of the compartments given in Appendix I of the Working Plan Report will be taken for guidance by the marking Officer.

(2) *C. Type.*—The C type Felling Series in Chornedehalli, Kakanhosudi and Umblebyle Forests will be amalgamated and taken up as one unit, for working, and treated under "Coppice with Standards" with a rotation of 25 years. The area of this block will be 10,171 acres which gives an annual coupe of 407 acres. An area of 2,032 acres will be worked over in the first two years. The coupes from the 3rd year onwards will only be 353 acres in extent.

The Aldhara C type is 3,870 acres. With a rotation of 25 years, the annual coupe will be 155 acres, but an area of 1,330 acres will be worked over in the first two years. To make up for this, the coupe from the 3rd year onwards will be limited to 110 acres.

(1) *D. Alterations in Muthodi and Tegurgudda Working Plan Reports.*—The improvement felling working circles of the Muthodi State Forest is not affected and the prescriptions of the Working Plans will be adhered to in this Working Circle.

(2) In the Mailgiri Working Circle, fellings will start in compartment 1, instead of compartment 5 and proceed through compartments 2, 3, 4, etc., in serial order. The results of enumeration embodied in Appendix 1 will be taken and the $\frac{2}{3}$ of the exploitable stock worked out for the area will be felled.

(3) In the Hipla Working Circle, fellings will begin in compartment 12 and proceed through 11, 10, etc., and $\frac{2}{3}$ of the exploitable stock found in the area will be felled.

(4) In the Muthodi Working Circle, fellings will start in compartment 18 and proceed through compartment 19, etc. In the case of teak, the number of trees to be felled will be in the proportion the possibility has, to the actual stock, as the area operated upon bears to the average annual area of the coupe in the case of other species, $\frac{2}{3}$ of the exploitable stock will be felled.

(5) In the Tegur Felling Series of Tegurgudda, the fellings will start in compartment 1 and proceed through 2, 3, etc., serially, the yield being modified as above.

(6) In the Waddahatti Felling Series, the fellings will start in compartment 9, the yield being modified as above.

E.—Kuskal.—The three felling series will be clubbed together and the whole area will be treated as one Working Circle. A rotation of 25 years will be adopted. The method of treatment will be unaltered. $\frac{1}{25}$ of the area of the whole forest will form the annual coupe and the fellings will begin from the north-west corner near the Balehonnur road, the coupes succeeding each other on the ground.

Agency of working.—The easiest and best method of arranging for felling and removal of firewood to the rail-heads is through contractors at rates fixed by tender. The same contractor, engaged for firewood collection, may also be asked to collect and prepare timber available within the areas allotted to him. The timber preparation will be attended to, in the first instance, and a rear party will handle firewood.

Until such suitable contractors are forthcoming, there is no alternative, but to take up the work departmentally on piece-work system.

6. *Watch and Ward of Firewood.*—The portion of the work allotted to the Forest Department in the general business of the manufacture of Pig Iron at Benkipur is the delivery of firewood from the forest on rails at Railway centres. Their further conversion into billets of even sizes, is the work of the Agents. At Benkipur, the Department has only to take note of each consignment as it enters the works.

The Government order contemplates that felling operations should commence from October 1919. A portion of the Tram lines will be ready for working in May 1920, while the remaining portion will be completed only by December 1920. This necessitates the stacking of firewood in the forest for more than a year, and the arrangement arising as it does, out of necessity, places the Forest Department in a difficult situation. Firstly, there is the heavy responsibility on the department of arranging for the watch and ward of this large quantity of firewood for a comparatively long period of over a year, a portion which will be trying fire season. The second, and perhaps, the more serious difficulty will be the question of payment to the contractors and the adjustment of charges. The contractors will have to be paid immediately, while there are no facilities in the forests to arrange for the weighment of such large quantities of firewood. It will also involve the unloading and reloading of the material in forests, entailing wastage and contributing, in no small measure, towards an enhanced rate of production. This difficulty would have been obviated, if it were possible, to remove the fuel as soon as it was collected as it would

have been, if the Tram lines were ready, and the payment to contractors could then have been made on actual weights obtained at the factory. It may not be out of place here to mention that the department has thus to face a double risk in taking up the work of collection before the tramways are ready.

In the 31 units of working prescribed for the first two years, firewood will be collected, in at least, 80 different places to minimize the cost of transport. This will give about 1,000 tons of firewood at each place in addition to a considerable quantity of timber.

At each of such temporary Depots, two temporary fire watchers will have to be employed. The cost of this extra establishment may be estimated at about Rs. 10,000 per annum and the charge unforeseen, as it is, would seriously affect the financial side of the collection charges.

7. *Miscellaneous.*—In para 7 of Mr. Perin's Report, it is proposed to install a Saw Mill to cut the fuel supplied to the factory into suitable retort lengths.

It is also recommended that the Managing Agent may take over all forest materials at the unloading Station at Benkipur for the manufacture of both charcoal and sawn timber.

There is no objection to the handing over of the timbers for conversion in their Saw Mill, provided the disposal of the sawn material vests absolutely with the department. It is also necessary that the Managing Agents should be bound to undertake the sawing of timbers to any particular order which the department may place. They will, of course, be paid the actual cost of conversion incurred by them and any reasonable commission for their trouble as may be agreed upon by them.

Such portion of the out-turn from the Mill which cannot be disposed of as timber will be made over to the Iron Works for charging the ovens, towards the quantity of firewood which the Government is bound to supply.

It should be pointed out that there is considerable demand for timber in log, of all kinds, and all such logs will be retained by the department, and only such of the timber as cannot be profitably disposed of in log, will be transferred to the Saw Mill for conversion. The total quantity of timber that may have to be handled by the Saw Mill, may roughly be taken at 2,00,000 c. ft. annually. The Saw Mill to be located at Benkipur would therefore be able to cope with this quantity.

These points deserve to be carefully weighed when any agreement is entered into with the Managing Agents.

8. *Staff.*—The provision of adequate staff is a very important factor, as on it, will depend the efficient discharge of the departmental obligations, both with regard to the scientific treatment of the forests subjected to intensive fellings and to the satisfactory supply of fuel to the Iron Works. As a result of a careful study of the question, I find that in order barely to satisfy the need gauged on a scale, erring if at all, on the side of economy, the following establishment is indispensably required.

(*a*) Two Assistant Conservators of Forests.
(*b*) Four Sub-Assistant Conservators of Forests.
(*c*) Sixteen Rangers.
(*d*) Eight Foresters.
(*e*) Sixty Guards.
(*f*) Seventeen Clerks and Accountants.
(*g*) Twenty-four Peons and Orderlies.

Assistant Conservators.—The efficient management of the works demands the formation of two additional Divisions. As it is, the Kadur District is too unwieldy to be administered efficiently by one officer and on the proposals submitted for its bifurcation, Government have in their Proceedings No. R. 5996—Ft. 71-18-3, dated 16th November 1918, passed orders that the question should lie over for one year. With due deference, it is to be stated that as operations to meet the demand of fuel to the Iron Works have got to be started in October next, it is imperative that the Kadur District should not only be split up into two Divisions immediately, but a new division should also be formed to attend almost entirely to the works connected with the fuel supply. A statement showing the Ranges to be allotted to each division together with a map is enclosed for perusal. Two Assistant Conservators are therefore necessary for the charge of the new divisions to be formed. The headquarters of the new divisions may, with advantage, be fixed at Benkipur, as with the increased facilities in the way of communications, no inconvenience will be felt by them. To compensate for the arduous and heavy nature of the works which these officers will be required to do continuously in unhealthy regions, it is proposed that they may be given a local allowance of Rs. 100 each per month.

Sub-Assistant Conservators.—The appointment of four Sub-Assistant Conservators as an addition to the existing cadre would, appreciably increase the cost of establishment. It would be advantageous financially, if the four Sub-Assistant Conservators who are now

placed in charges of Ranges in the districts of Shimoga and Kadur are withdrawn and attached to the new divisions, two each, for supervising the marking of fellings which is a very important item of work and the collection of firewood and timber as well, one of them being placed also in charge of the timber portion of the Saw Mill work and the Timber Depot at Benkipur. As the proposed reduction in the territorial jurisdiction of Divisional charges will make the divisions compact and the facilities for travelling created by the introduction of Tramways in the areas, will render inspections more frequent and effective, there is apparently no need now to place Gazetted Officers in charge of Ranges in these areas. To replace the Sub-Assistant Conservators, four Rangers will therefore do and the cost will thus be considerably reduced. I therefore recommend that the above proposal be kindly approved.

Rangers.—A perusal of the 'statement of fellings' will show that there are 31 units of felling in the first two years and 19 units in the next three years, all these being distributed over the existing sixteen Ranges. The area to be worked over each year comes to about 16 square miles and, considering the nature and the extent of the operations, it would, indeed, be too much to expect one Ranger to do full justice to the extra duties that would devolve on him, without a helping hand. It would be nothing short of false economy if assistance is denied to them, and a modest estimate of the actual requirement in this connection points to the necessity of entertaining 12 additional Rangers for sharing the work of the existing hands in the working areas. Including the four Rangers required for replacing the Sub-Assistant Conservators who are, at present, in charge of Ranges, the total number of Rangers to be newly enlisted would be 16. To state briefly, their work will be marking for fellings, checking of measurements of firewood and timber and supervision over the transport, all this in addition to the care and attention they have got to bestow on important cultural operations and on the protection of the working areas, on the success of which alone, will depend the well-being of the forest areas and the continuity of supply.

Foresters.—To assist the Rangers in measuring timber and firewood, the services of eight additional Foresters are essentially required.

Guards.—The existing staff of Guards requires sufficient strengthening. For each square mile of the area under operation, at least four Guards are wanted and the extra number required would therefore come to 60.

Clerks and Accountants.—The following is the additional Clerical establishment required:—

	Clerks and Accountants
(*a*) For the two new Divisions at the rate of six hands each ..	12
(*b*) For the Sub-Assistant in charge of fuel weighment duty ..	1
(*c*) For strengthening the Conservator's Office Staff ..	4

As regards (*a*), it is to be stated that the provision of six hands for each Division Office, represents the allotment approved of by Government for a minor Divisional office. The offices to be newly created cannot be classed as 'minor' and the establishment ought to consist of seven hands at least. But with a view to keep the expenditure comparatively low, it is intended to start the office with six hands as an experimental measure.

To keep accounts of the weighments, etc., an Accountant to help the Sub-Assistant Conservator is essential.

The creation of two Divisional charges and the undertaking of fuel supply will throw heavy account and correspondence work on the existing staff of the Conservator's Office which finds it hard to cope with the present work which is steadily growing in volume—one hand for each division for auditing accounts and, one each for dealing with correspondence relating to fuel supply in general, are indispensably required.

Peons and Orderlies.—At the rate of four peons for each Divisional Officer and one for each Sub-Assistant Conservator and Ranger, the number of peons and orderlies required will be 24.

Pay and Grading.—The proposed Assistant Conservators will, of course, grade with officers of similar class in the regular cadre of the Department. Their pay will therefore be Rs. 250—$\frac{50}{8}$—450.

The pay of the new Rangers should be in proportion to the arduous nature of the duties devolving upon them. I would have very much liked to fix the pay very liberally, but with a view to restrict the cost all round, I have distributed the sixteen Rangers in the existing 70 and 50 rupee Grades in equal numbers.

The Forester's pay corresponds with the existing sanctioned scale and the number in each grade is fixed as follows to facilitate an easy flow of promotion to deserving men—

One on	Rs. 45.
One on	„ 40.
Two on	„ 35.
Two on	„ 30.
Two on	„ 25.

NO. R. 4819-24—FT. 94-19-1, DATED 30TH OCTOBER—4TH NOVEMBER 1919.

The pay of the special Guards is uniformly fixed at Rs. 12 as it is necessary to recruit literate men and to hold sufficient inducement for them to stick on to their work in these heavy Malnad areas.

The pay of the Clerks and Accountants has been fixed on a modest scale. It is within the daily experience of all, that a satisfactory office hand, it would be extremely difficult to procure, unless the pay is made sufficiently attractive, and provision exists for further advancement by easy flow of promotion to higher grades. The pay of the Divisional Office Establishment corresponds with the scale sanctioned for a minor Divisional charge.

As regards the Accountant to be entertained in connection with the receipt and issue of fuel by weighment, a responsible official would be necessary. His pay should therefore, at least, be on a par with that of the last grade Accountant, *viz*, Rs. 50.

Of the four hands required for the Conservator's Office, the pay of two of them is fixed at Rs. 80, the remaining two getting Rs. 45 each considering the important nature of the work to be entrusted to them, the proposed scale is very modest.

The formation of the proposed two new Divisions and the undertaking of this enterprise would enormously increase the work of supervision on the part of the Ministerial head of the Account Branch. A small addition of Rs. 25 to his present pay is indispensable.

The total cost on account of the extra establishment proposed comes to Rs. 43,080 as detailed in the accompanying Proposition Statement. In view of the fact that irrespective of the Iron Scheme, the bifurcation of Kadur was a necessity, I have no objection to allow the extra cost of one Division and of the additional clerical establishment proposed for the Conservator's Office to be debited to the Forest Budget proper. Exclusive of the cost of this permanent Division, Rs. 32,724 will represent the cost of the establishment specially required in connection with the Iron Scheme. The latter establishment may, in the first instance, be placed on a temporary footing, the question of making it permanent being deferred till sufficient experience is gained. No provision has been made for a technical Assistant to the Conservator of Forests, the necessity for whose appointment has been badly felt of late, on account of a steady development of work in all directions. The creation of the Research Division and the establishment of the Iron Industry has again brought this question to the forefront and proposals in this direction, will be formulated and sent separately to Government, as the appointment would affect the strength of the permanent cadre of the Department. The disposal of the matters dealt with in this note, need not be deferred, in my opinion, on this account.

In conclusion, I have once again to impress upon the notice of Government, that carefully weighed as the proposals are, they may kindly be sanctioned *in toto*. Any curtailment of cost, would, I am afraid, seriously impair the efficiency of work and its supervision a state of things not very desirable, especially, when definite obligations have to be fulfilled and responsibilities discharged.

M. G. RAMA RAO,
Conservator of Forests.

PROCEEDINGS OF A MEETING HELD AT THE CONSERVATOR'S OFFICE ON 10TH JULY 1919.

PRESENT.

M. G. Rama Rao, Esq.
D. G. Dani, Esq.
T. G. Lakshmana Rao, Esq.

I.—Definition of terms:—

1. *Tramways.*—The Ore line or other permanent lines such as Tarikere-Narasimharajpur and Tadasa-Hebbe worked by engine power with 50 to 100 ton train loads open for all traffic.
2. *Forest Tramways.*—Worked by engine power but with steeper Grades less than 1 in 50, sharper curves and lighter loads.
3. *Portable Tramways.*—Short lengths acting as feeders to the above two kinds, shiftable as the area is exploited. Worked by engine or animal power, whichever possible.

II—RANGENHALLI-BENKIPUR SECTION OF THE ORE LINE.

The Agent promises to have this line ready by the end of May 1920, provided he is supplied 2 engines and 20 trucks and 20 miles of permanent way by 1st November 1919 as the first consignment of the requisitions already submitted.

No. R. 4819-24—Ft. 94-19-1, dated 30th October—4th November 1919.

III—Rangenhalli-Tigada and Benkipur-Umblebyle-Agasanhadlu Lines.

The balance of the Ore line (Rangenhalli-Tigada) and Benkipur-Umblebyle-Agasanhadlu line will be ready by December 1920, provided the balance of the permanent way and rolling stock is handed over immediately after the consignment referred to in para II.

IV.—With this arrangement by 1st May 1920, the Conservator will have for Forest working, Hebbe-Tadasa-Lakkavalli-Rangenhalli-Benkipur line, and also the little section between Tadasa-Narasimharajpur, provided the balance of the rolling stock as indicated in Para II is handed over by 1st May 1920.

V—Hebbe-Sheragola Line.

The Agent reports that the preliminary investigation shows that only the first 3½ miles from Hebbe is suitable for a Forest Tramway of the same type as Tadasa-Hebbe. The other country up to Sheragola does not appear suitable for a Tramway of the above type. But a Tramway with Steeper Gradient and sharper curves is possible and will carry only half train loads and will be costly. He therefore suggests that to begin with, a portable Tramway may be laid, the haulage being done by buffaloes. The first section of the 3½ miles has yet to be finally located and construction can only begin on 1st January 1920, provided material is given to him. Its continuation, if of a portable nature, can be got ready by December 1920. But if it should be a permanent line, it cannot be ready for some time longer.

VI—Hebbe-Talbidre Halla Line.

This is the first section of Hibbe-Hippla-Muthodi line. The final location of the whole length is ready and work can be started on the first section of six miles, *viz.*, Hebbe-Talbidre in November 1919 and it will take 18 months to complete it.

VII.—Work on any extensions of the existing Tramways or any additional permanent Tramways and portable Tramways can only begin in October 1920.

VIII.—The following lines are stated to be required for the third year's working, *i. e.* by October 1921, as per statement attached.—

1. 7½ miles of portable line.
2. 21 miles of Forest Tramway.
3. 31 miles of Tramways.

The Agent promises to have them ready, provided.—

(*a*) the staff for another Division is sanctioned immediately, for which proposals will be submitted if ordered.

(*b*) the additional rolling stock and permanent way required for these are handed over to him by 1st November 1920, for which details will be furnished by him.

This will require modification if the released 41¼ lbs. material of the Madras and Southern Mahratta Railway is secured.

M. G. RAMA RAO,
Conservator of Forests.
D. G. DANI,
Agent, Mysore State Railways.
T. G. LAKSHMANA RAO,
Special Officer, Benkipur Iron Works.

No. R. 4819-24—Ft. 94-19-1, dated 30th October—4th November 1919.

GENERAL AND REVENUE DEPARTMENTS

READ—

Government Notification No. R. 21—Ft. 204-16-2, dated 4th July 1917, issued under Section 4 of the Forest Regulation in the matter of the proposed constitution of the Udri Forest Block in the Sorab Taluk.

2. Letter No. 2537, dated 3rd January 1919, from the Revenue Commissioner in Mysore, forwarding the Forest Settlement Officer's letter No. *353, dated 25th November 1918, reporting on the conclusion of the settlement of the block.

3. Letter No. 45, dated 24th April 1919, from the Conservator of Forests, stating that the exclusion of areas made by the Forest Settlement Officer in respect of the Guddekoppa and Udri villages are unwarranted and may be included in the State Forest.

4. Letter No. 2537, dated 1st November 1919, from the Revenue Commissioner, stating that any further reservation will bring the demarcation line close to the Guddekoppa village and that in the interests of the villages concerned the exclusions made by the Forest Settlement Officer are necessary.

*Printed with B and C register as accompaniments.

Order No. R. 5700-3—Ft. 121-18-6, dated 15th November 1919.

The settlement effected by the Forest Settlement Officer is approved. The Notification under Section 17 of the Forest Regulation constituting the block a State Forest with effect from 1st January 1920 will be published in the Gazette.

2. The Deputy Commissioner, Shimoga District, is requested to duly promulgate the boundaries of the block in the villages concerned.

B. RAMASWAMAIYA,
Secretary to Govt., Rev. Dept

To—The Revenue Commissioner in Mysore.
The Conservator of Forests in Mysore.
The Superintendent of Revenue Survey and Settlement in Mysore.
The Deputy Commissioner, Shimoga District, with map and registers.

No. R. 5700-3—Ft. 121-18-6, dated 15th November 1919.

NOTIFICATION.

No. R. 5704—Ft. 121-18, dated 15th November 1919.

The Government of His Highness the Maharaja of Mysore are pleased to declare, under the provisions of Section 17 of the Mysore Forest Regulation (XI of 1900) that from 1st January 1920, the area, the boundaries of which are set forth in the schedule annexed to this Notification, shall be deemed to be a "State Forest" subject to the exercise of rights specified at foot thereof :—

Schedule.

District	Taluk	Approximate area	Name of block	Boundaries
Shimoga	Sorab . .	A. G. 1003 2 or 1·55 Square miles	Udri Block	*North.*—Starting from a point on the common boundary between Udri and Guddekoppa about 7 chains south-east from the southernmost corner of Survey No. 125 of Guddekoppa, the boundary line runs north-east for about 5 chains through Survey No. 123 to a point about 5 chains south-east from the south-east corner of Survey No.125; then slightly north-east for about 8 chains to a point about 5 chains slightly from the south-east from the easternmost corner of Survey No. 125 ; then north for about 10 chains to a point about 7 chains south-east from the south-west corner of Survey No. 133 ; then north-east for about 7 chains to a point about 7 chains south-west from the south-east corner of Survey No. 133; then south-east for about 10 chains to a point about 5 chains south-west from the south-west corner of Survey No. 122 ; then south-east for about 10 chains to a point about 5 chains south from the southernmost corner of Survey No. 122 ; then north-east for about 9 chains to the southernmost corner of Survey No. 121 ; then south-east for about 15 chains to a point about 6 chains west from the south-west corner of Survey No. 118 ; then south-east for about 9 chains through Survey No. 103 of Udri to a point about 7 chains south-west from the southernmost corner of Survey No. 118 of Guddekoppa ; then north-east for about 17 chains through Survey No. 103 of Udri to a point about 7 chains south-east from the south-east corner of Survey No. 118 of Guddekoppa ; then north for about 33 chains through Survey Nos. 103 of Udri and 112 of Guddekoppa to the south-east corner of Survey No. 113 of the latter village ; then along the east sides of Survey Nos. 113 and 89 to the easternmost corner of the latter survey number ; then south-east for about 53 chains through Survey Nos. 112, 111 and again 112 to the pentangular junction bandhs of Chikkathur, Kabbur, Udri, Guddekoppa and Gudaginakoppa villages ; then along the left bank of a jungle stream for about 23 chains to a point about 10 chains north-west from the north-west corner of Survey No. 95 of Gudaginakoppa. *East.*—Then the line passes south for about 71 chains through Survey No. 40 of Gudaginakoppa to a point about 7 chains west from the south-west corner of Survey No. 77 ; then south-east for about 20 chains to the south-west corner of Survey No. 124 ; then along the common boundary between Gudaginakoppa and Udri villages to the trijunction bandhs of Gudaginakoppa, Haragi and Udri villages. *South.*—Then the line passes along the common boundary between Udri and Haragi villages to a point about 18 chains south-east from the south-east corner of Survey No. 231 of Udri ; then north-west for about 48 chains through Survey No. 164 of Udri to the north-east corner of Survey No. 224 (tank). *West.*—Then the line continues north-west for about 16 chains through Survey No. 164 of Udri to a point about 9 chairs north-west from the north-west corner of the tank, Survey No. 224 ; then again north-west for about 122 chains through Survey Nos. 164 and and 103 to meet the starting point.

Remarks.

The following rights of way are admitted within the block for use by men, cattle and carts in case of cart-tracks which are 12 feet in width, and by men and cattle in case of foot-paths which are 6 feet in width throughout the year.

I. *Cart-track from Udri to Kaboor.*—It enters the forest in the western boundary of the block at a point about 28 chains north-east from the easternmost corner of Survey No. 104 of Udri and runs north-east for about 80 chains through Survey Nos. 103 of Udri and 40 of Gudaginakoppa and quits the forest at a point about 6 chains west from the westernmost corner of Survey No. 95 of the latter village.

No. R. 5700-3—Ft. 121-18-6, dated 15th November 1919.

II. *Cart-track from Udri to Gudaginakoppa.*—It enters the forest in the western boundary of the block at a point about 23 chains north-east from the north-east corner of Survey No. 201 of Udri and runs north-east for about 37 chains through Survey No. 164 of Udri and 40 of Gudaginakoppa and quits the forest at a point about 7 chains west from the south-west corner of Survey No. 77 of the latter village.

III. *Foot-path leading from Gudaginakoppa to Guddekoppa and on to Kuppagadi.*—It enters the forest in the eastern boundary of the block at a point about 6 chains north-west from the north-west corner of Survey No. 95 of Gudaginakoppa and passes north-west for about 64 chains through Survey Nos. 40 of Gudaginakoppa, 103 of Udri and 112 of Guddekoppa and quits the forest at a point about a chain south from the south-east corner of Survey No. 113 of Guddekoppa.

By Order,
B. RAMASWAMAIYA,
Secy. to Govt., Rev. Dept.

Letter No. 353, dated 25th November 1918, from the Forest Settlement Officer in Mysore, to the Revenue Commissioner in Mysore, through the Deputy Commissioner, Shimoga District.

I have the honour to report on the conclusion of the settlement of Udri Block in Sorab Taluk, Shimoga District.

2. The initial notification under Section 4 of the Forest Regulation, proposing to constitute the area into a State Forest appeared on pages 539 to 540 of the English issue of the *Mysore Gazette*, Part I, dated 12th July 1917 and the proclamation under Section 5 of the said Regulation was issued on 18th July 1917 and the same published on pages 869 to 871 of the Kannada issue of the *Gazette*, Part II, dated 21st August 1917. The spare copies of the notification were got served on the villagers concerned through the Amildar, Sorab.

3. The locality was inspected and the line perambulated by me with the Range Officer, village officials and the villagers concerned on 25th April 1918.

4. Only three claims were preferred to me during the enquiry and I have allowed all of them partly. Besides this, I have granted permission to use the important cart-tracks and foot-paths found out during my inspection to be necessary for the villagers.

5. There is an only gomal Survey No. 112 in the village of Guddekoppa. The whole area of this number was proposed to be included in the block but I have taken only 92 acres and left the remaining area for the use of the villagers. To compensate this loss of gomal, I recommend that an area of 92 acres in the western portion of Survey No. 123 (a kharab land) may be converted into gomal for the benefit of the villagers.

6. The Deputy Commissioner in his docket No. Mis. C. 150—Rev. 18-19, dated 5th August 1918, says that no appeals have been preferred to him against my decision.

7. The following records are herewith submitted.

(i) "B" Register
(ii) "C" Register
(iii) Boundary Notification
(iv) Sketch map
(v) Topo tracing.

8. The date from which the reservation is to take effect may kindly be inserted in the draft boundary notification.

No. R. 5700-3—Ft. 121-18-6, dated 15th November 1919.

B.—Register of claims to lands, rights to forest produce or easements in the proposed Udri State Forest.

No.	Names of claimants	Date of presentation of claims	Nature and extent of claims preferred	Brief summary of the evidence adduced in support of claims	*Brief summary of the* Forest Officer's arguments and evidence produced by him	*Brief abstract of decision and* final disposal of the claims by the Forest Settlement Officer	Brief abstract of decision, if any, of Court of Final Appeal and settlement
1	2	3	4	5	6	7	8
1	Ganesa Rao *alias* Krishna Rao representative chosen by the people of Udri village on their behalf.	25-4-18	Prays for the exclusion of Survey Nos. 91, 103, and 164 from the block on the ground that the raiyats will be put to very great inconvenience in getting their requirements such as agricultural implements, firewood and pasture.	...	These survey numbers contain valuable timber trees and so it is highly desirable to reserve these in the interests of Government. As for meeting the village requirements, the area that will be left by allowing cultivation margin is nearly 250 acres in addition to about 246 acres of assessed waste and about 29 acres of gomal at the disposal of the village. This is quite ample.	This is a big village with a population of 1,51. containing 388 houses. This village has only 23 acres and 8 guntas of gomal for the use of 1,597 cattle. They depend on the three kharab lands that have been proposed for the block for all their requirements. This proposal certainly entails great hardship on the villagers. I have therefore decided to let off whole of Survey No. 91 (253 acres and 5 guntas) about 175 acres of Survey No. 103 and about 305 acres of Survey No. 164. The assessed waste area of about 246 acres should always be available for any expansion of cultivation in such a populous village as this. So, the area now left with the gomal and assessed waste in the village will be enough to meet all the requirements. A cultivation margin of 5 chains is allowed for Survey No. 118 of Guddekoppa.	
	Forest Settlement Officer.	...	.....	...	.. ..	A cart track 12 feet wide from this village to Kabbur *via* Gudaginakoppa is allowed through Survey No. 103 for use by men, cattle and carts throughout the year.	
2	Kamanna, Patel gumastha of Guddekoppa on behalf of the villagers	24-4-18	Begs for the exclusion of Survey Nos. 123 and 112 which have been proposed for the block as they have no kharab or gomal in the village and they have to get fuel, pasture and other necessaries from these numbers.	...	The cultivation margin that will be allowed comes to about 125 acres. This together with the area of assessed waste 94 acres and 6 guntas in the village will be more than ample to meet all the requirements of the village.	The whole of Survey No. 123, area 307 acres and 16 guntas and Survey No. 112, area 140 acres and 27 guntas are proposed for the block. This would be a great disadvantage to the village, there being no other gomal or kharab. So I have decided to take only about 45 acres in Survey No. 123 and about 92 acres in Survey No. 112. As about 93 acres of gomal has been taken from the village, a recommendation will be sent up to Government to convert about 92 acres in the western portion of Survey No 123 into gomal for the benefit of the village. Cultivation margin is allowed for Survey Nos. 118, 122, 125, 139 and 117. The area now available in the village about 404 acres is enough to meet all the requirements of the village.	
	Forest Settlement Officer.	..	.. ...	...	.....	A foot path 6 feet wide from this village to Udri passing through Survey No. 112 is allowed for use by men and cattle throughout the year.	
3	Mallikarjunappa, Patel gumastha of Gudaginakoppa, on behalf of the villagers.	24-4-18	States that they have no other kharab or gomal in their village except Survey Nos. 124 and 40 which have been proposed for the block. The villagers will be very much inconvenienced if these numbers are taken away and so should be excluded.	...	There is an assessed waste area of 177 acres 26 guntas and the portion left of from Survey Nos. 40 and 124 is nearly 49 acres 8 guntas in addition to this, the area that will be released by allowing cultivation margin will be about 15 acres. All these put together will be ample provision for the village.	Survey No. 39 of this village has already been taken for the Togarsi State Forest and the remaining kharab and gomal have been now proposed for this block. This will seriously inconvenience the raiyats of the village. I have therefore decided to let go the gomal land fully and about 120 acres of Survey No. 40 to the villagers. The village has only 39 houses, 93 people and 105 cattle. The area now remaining for the raiyats is ample to supply all their requirements.	
	Forest Settlement Officer.	...	.....	...	.....	Two cart tracks each 12 feet wide one from Udri to Kabbur and the second from Udri to Gudaginakuppa are allowed for use by men, cattle and carts throughout the year. A foot path 6 feet wide from this village to Kuppagadi is also allowed for use by men and cattle throughout the year.	

R. BASAVARADHAYA,

Forest Settlement Officer in Mysore.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Letter No. Dt. C. 162-18, dated 2nd June 1919, from the Excise Commissioner, forwarding with his opinion, records relating to the claim of the Inamdar of Nelaguli and Choodahalli, Kankanhalli Taluk, to the Excise Revenue from toddy of the villages.

Order No. R. 5248-9—Ex. 112-18-2, dated 5th November 1919.

This is a case in which the holder of the alienation village is not entitled to the toddy revenue either under the sannad or under the inam settlement. But evidence has been adduced that the inamdar has long been in enjoyment of it. Such enjoyment has been evidently unauthorised as no satisfactory documentary evidence has been adduced by the inamdar in support of the claim. In view however of the long enjoyment of the toddy revenue by the inamdar and on a careful consideration of all the circumstances of the case, Government are pleased to order that the claim of the inamdar to the Excise revenue from toddy be treated as falling under Rule 20 of the Rules of 1901, and that the toddy revenue of the village be conceded in full to the present inamdar during his lifetime and in one moiety for his successor in title to the inam villages in question, after which it shall lapse to Government.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read the following Government Orders—

1. No. Camp 2259—65, dated 30th March 1889, constituting a Committee called the "Bangalore City Improvement Committee" to report upon all improvements which they may regard as necessary and to carry out all such improvements as may be sanctioned by Government upon such reports.

2. No. 8165-72—L. F. 82-92, dated 10th December 1892, reconstituting the Bangalore City Improvement Committee.

3. No. 3720-22-26-97, dated 16th September 1898, forming a Special Improvement Division for effecting the necessary improvements in the city proper.

4. No. 1289-90—Ml. 347-06-4, dated 4th August 1908, appointing a Committee to draw up a comprehensive scheme of improvements for the old city.

5. No. 6340-9—Ml. 330-12-3, dated 20th December 1913, reconstituting the Committee for the preparation of a scheme for the improvement of the Bangalore City and defining the business to be transacted by the Committee.

6. No. 1297-347—Ml. 112-14-13, dated 13th August 1915, sanctioning the recommendations of the Bangalore City Improvement Committee for improvements to the City of Bangalore.

7. No. 2747-50—Ml. 111-15-32, dated 3rd November 1916, laying down the programme of the Bangalore City Improvement Works.

8. No. 6317-20—Ml. 87-17-32, dated 9th May 1918, passing orders in the matter of the revised programme of Bangalore City Improvement Works and arrangements for financing the said works.

9. No. 1986-8—Ml. 91-17-15, dated 3rd August 1918, sanctioning the formation of a special division for the execution and supervision of certain City Improvement Works of the Bangalore City.

Order No. 5682-7—Ml. 1-19-2, dated 14th November 1919.

Government have had under their consideration for sometime past the question of reorganizing the Bangalore City Improvement Scheme in order to place it on a more efficient basis with a view to ensure a steady and prompt progress in its working. New problems have arisen with the advent of new conditions consequent on the growth of the city in size, population and importance. The city requires further improvement early not only from the point of view of sanitation and convenience, but also of its architectural beauty; the increased demands on its water-supply necessitate the renewal of the pumping machinery and distribution mains which are getting old and incapable to meet present requirements; the need for a comprehensive drainage and sewerage project for the whole city has long been felt and is overdue and the problem of housing the poor is pressing with greater insistence than ever and all these questions call for a detailed examination and a very early solution. Government, therefore, deem this a fitting opportunity to review the entire situation and formulate their proposals in regard to all these questions and are accordingly pleased to observe as follows:—

2. The Bangalore City Improvement Work has been in operation since 1889 when the late Sir K. Sheshadri Iyer organized a Committee " with a view to report and to carry out all improvements that may be sanctioned by Government upon such report. Since then, extensions and improvements to the old city have been carried out at a cost of Rs. 15,42,784 up to 1917-18, and clean drinking water has been provided from the Chamarajendra Reservoir at a cost of Rs. 27,23,469, while Rs. 2,90,859 have been spent on drainage and Rs. 7,06,162 on lighting the city with electricity generated at Sivasamudram. Though this is a satisfactory record of progress, particularly in regard

to formation of New Extensions on a large scale to the North, south and west of the old City and the provision of water-supply and electric lighting which have undoubtedly contributed to the health and comfort of the population, yet, it cannot be denied that the improvements effected in other directions have been rather slow considering that a long time has elapsed since their inception. Even in recent years things have not improved and the same delay is perceptible in the carrying out of sanctioned works. In December 1913, Government, in their Order No. 6340-9—Ml. 330-12-3, reconstituted the Bangalore City Improvement Committee and assigned to them the work of preparing a comprehensive scheme for the improvement of the City including its drainage. The proposals of the Committee were received in July 1914 and orders were issued in August 1915, sanctioning the following works estimated to cost Rs. 8,84,889. A grant of Rs. 3 lakhs per annum was also promised for five years.

		Rs.
1.	Construction of a General Market	2,50,000
2.	Town Hall and Municipal Office	2,00,000
3.	Laying out of Market Square	1,66,674
4.	Improvement of Yelahanka Gate Square	10,237
5.	New extension to east of Fort Centre Road ..	1,57,708
6.	Continuing Kitchetty Chattram Road to City Railway Station	44,070
7.	Girdle Road through Sunnakal Farm	24,000
8.	Shifting of Bamboo Bazaar	15,900
9.	Minor Improvements	16,300

3. But much progress was not possible in respect of these works, until Government definitely laid down the lines on which the details of the schemes should be worked out and directed in their Order No. 2747-50—Ml. 111-15-2, dated the 3rd November 1916, that out of the above nine items, the following six works which were estimated to cost Rs. 7,57,000 might be taken up and completed within the next two years :—

1. Construction of a General Market.
2. Town Hall and Municipal Office.
3. Laying out of Market Square.
4. Shifting the Bamboo Bazaar.
5. Extension to the east of Fort Centre Road.
6. Extension of Kitchetty Chattram Road to the City Railway Station.

4. Owing to the increased estimated cost of some of the Improvement schemes after working out details, principally the New Market and the Town Hall and the Municipal Offices, the programme of works originally taken up had to be revised, to be within the total money limit sanctioned by Government Order of August 1915 and the Honorary President submitted on 3rd April 1918 a revised programme consisting of all the above works together with the following additional works as being either subsidiary to the works already proposed, or other specially urgent works of improvement:—

7. Improving main drain in Avenue Road.
8. Removing slums of Ammachowdri Palya.
9. Improving main drain in Lal-Bagh Road.
0. Improvements of Dobbspet and Palace Upparahalli.
11. Laying out of Hoskote Road into a Shop Street.

all estimated to cost Rs. 18·20 lakhs. Of these, items 5 and 11, costing Rs. 5·13 lakhs, were expected to be self-supporting not requiring a contribution from Government. This programme was finally approved of by Government in their Order No. 6317-20—Ml. 87-17-32, dated 9th May 1918, to be worked out in five years.

5. The progress of the different works undertaken will be seen from the following:—

(1) Construction of the General Market has been commenced, and is in progress.

(2) Orders have issued recently selecting suitable sites for the Town Hall and Municipal Office buildings and arrangements are under consideration for the construction of these buildings at an early date.

(3) The opinion of the Municipal Council is awaited on the remarks of the Chief Engineer on the improvement of the main drain in Avenue Road.

(4) The detailed estimates for the improvement of Dobbspet and Palace Upparahalli, received from the Honorary President have been sanctioned.

(5) Proposals for the acquisition of properties for the laying out of the Hoskote Road into Shop Sites have been sanctioned.

(6) Detailed estimates and plans for shifting the Bamboo Bazaar have been sanctioned and properties have been acquired but construction work has not yet begun.

(7) The original scheme of extending the Kitchetty Chattram Road to the City Railway Station has been revised so as to include lowering of the bund and the revised estimate is under the consideration of Government.

(8) How the scheme of removing the slums of Ammachowdri Palyam has been worked out in detail may be reported to Government.

(9) Sites in the new extension to the east of Fort Centre Road are being auctioned.

(10) Minor improvements to the main drain in Lal-Bagh Road are being completed.

6. The accompanying Memorandum deals briefly with the progress of City Improvement Works in Bangalore from the beginning and indicates the stages of their development. Government have taken a forward policy in regard to these improvements and are anxious that the eleven works noted above should be vigorously pushed through and completed without further delay. These works are estimated to cost Rs. 13·07 lakhs, with the exception of the new extension and Hoskote Road Shop Centre, which are expected to be self-supporting. Government have guaranteed the payment of Rs. 3 lakhs per annum for outlay on this account. A sum of Rs. 2,85,565 is stated to have been already spent up to 1917-18 and the Honorary President proposes in his letter No. 454, dated 17th May 1919, an expenditure of Rs. 11,89,469 to be spread over three years, *viz.*, 1918-19 to 1920-21. Separate orders will issue on this.

7. *Finance and Accounts.*—The accounts of the old Bangalore City Improvement Works were apparently not kept in a satisfactory condition. Up to date information as to the total amounts of grant sanctioned by Government from time to time on improvement works, total amount spent for improvement of the old city and the laying out of the extensions, amount realised by sale of sites and amount due to Government is not readily forthcoming. From the papers available, it is however seen that a sum of Rs. 15,42,784 has been spent on the improvements up to 1917-18 and a sum of Rs. 5,87,892 has been realised by the sale of sites. There has therefore been a net cost of Rs. 9,54,892 to State revenue on account of the improvements effected. A sum of Rs. 37,463 out of the realisations from the sale of sites are still due to be remitted to the Treasury. Satisfactory explanation as to the adjustment of these amounts should be furnished to Government at a very early date. An annual grant of Rs. 1 lakh for five years was granted by Government in Government Order No. 4706-10—L. F. 43-98, dated 4th June 1904.

8. A grant of Rs. 3 lakhs per annum having been sanctioned from State Funds in Government Order No. 1297-347—Ml. 112-14-13, dated 13th August 1915, details as to the drawing of these grants and particulars of expenditure relating to the same should be furnished.

9. A statement of receipts and expenditure of the two self supporting schemes, *viz.*, 1. New Extension, East of Fort Centre Road and 2. Hoskote Road Shop Centre, may be separately submitted under different heads detailed in para below.

10. The accounts of the impovement work should be maintained separately and a new chapter added in the Municipal Administration Report detailing the progress made in respect of each item of work. A tabular statement showing the grants drawn from Government, the money contributed by the Municipal Council, the amount realised from the sale of sites, the expenditure incurred on acquisition, drainage, water-supply, electric lighting, opening of roads, etc., the arrears to be recovered and

the total amounts credited to the Treasury in respect of these improvements should be appended to the report annually, so as to give a clear and concise idea of the accounts relating to each item of improvement work. The accounts should also be subjected to half-yearly audit by the Comptroller in future.

11. *Drainage.*—A complete scheme of drainage for the old city was originally prepared by the Sanitary Engineer involving an expenditure of Rs. 10 lakhs and Government in their Order No. 1297-347—Ml. 112-14-13, dated 13th August 1915, promised to contribute one-half of this cost if the Municipal Council arranged to bear the remainder. But the detailed scheme subsequently prepared by Mr. D'Cruz is estimated to cost Rs. 18½ lakhs and consists of eight drainage areas that admit of being taken up in parts. This scheme has been scrutinised by the Chief Engineer who is of opinion that it is complete and may be sanctioned but that it would be sufficient to take up only the portion pertaining to the City proper and Fort costing Rs. 12,04,494. As regards the financing of the scheme, the Municipal Council want the entire cost to be borne by Government while Government are of opinion that their offer to bear half the cost conveyed in their Order of August 1915, is a liberal concession. Before passing final orders on the subject, the Government desire that the Municipal Council will reconsider their decision and suggest a more practical solution of the question of financing the Drainage scheme of the old City, so that the scheme may be worked out in sections. The normal income and expenditure of the Municipal Council according to the sanctioned budget estimates for 1918-19, are respectively Rs. 3,94,015 and Rs. 3,57,012, and by suitable adjustment of expenditure they ought to be able to find unds for he scheme out of their growing revenues ; but if on any account they are unable to tcontribute their share of the cost, they may raise a loan for the purpose.

12. *Water-supply.*—Owing to the increase in the consumption of water in the City, the pumping plant at Soldevanhalli is found to be incapable to pump the required quantity of water without causing bursts in the rising main. Attempts at improving the pumping have resulted in the frequency of these bursts and have not proved helpful to minimise the insufficiency of water pumped. Consequently, other makeshifts, such as diminishing the speed of the pumps, reducing the consumption in the City and purchasing water from the Civil and Military Station to supplement the deficiency have had to be resorted to. Even the electrification of the pumping plant is not expected to yield any better results. Complaints are also being received from residents in the several localities of the City that supply of water to their houses is not satisfactory and they are consequently put to great hardship.

13. To remedy this unsatisfactory state of affairs, proposals have been made to construct a new intermediate pumping station midway between Hessarghatta and Bangalore or to duplicate the rising main to the Banavar hill and also to overhaul and improve the water-supply distribution system in the City. The duplication is estimated to cost nearly 16 lakhs of rupees, while the construction of an intermediate pumping station and the overhauling of the distribution system are estimated at Rs. 1½ lakhs each. The pumps have been working for the past 25 years, so also the pipe line and the entire plant requires thorough overhauling and renovation.

14. In view, however, of the large cost and the technical questions involved in the scheme, Government deem it necessary to constitute a Committee with the Chief Engineer as President, the Honorary President of the Municipal Council, the Superintending Engineer, Sanitary Division, the Deputy Chief Engineer and two Councillors selected by the Municipal Council as Members and the Municipal Engineer as Secretary, to consider the question in all its details and submit their proposals to Government early for sanction.

15. *Maintenance charges.*—The annual maintenance charges of the Bangalore City Water-Supply which amounted to Rs. 74,447 in 1904-05 has increased to more than twice the sum in 1917-18 when it amounted to Rs. 1,66,956. Ordinarily these charges have to be borne by the Municipal Council themselves, but owing to representations made by the President, Government in their Order No. Fl. 4815-21—Ml. 88-04-4, dated 3rd February 1906, directed that the contribution by the Municipal Council towards meeting these charges be limited to Rs. 30,000, the balance being borne by Government. The Municipal Council were also permitted to utilise for their own purposes all excess over the Rs. 30,000 realised by the levy of water tax while the receipts on account of excess consumption of water in the City are credited to the Public Works Department.

16. The share borne by Government in meeting these charges after deducting these credits stands as follows for the past five years:—

	Rs.
1913-14	.. 40,497
1914-15	.. 55,596
1915-16	.. 28,203
1916-17	.. 31,415
1917-18	.. 81,791

It will be seen that the contribution by Government is increasing year by year ending in an abnormal inflation during 1917-18 and a revision of the existing agreement between the Government and the Municipal Council is therefore urgently called for. The Committee constituted above should take up this question also and submit their recommendations in this behalf.

17. *Housing of the poor.*—The question of housing the poor has become an important problem calling for immediate attention. The sale of sites in the extensions has resulted in such inflation of prices that the probabilities of the poor and the middle classes securing suitable sites for building their houses in accordance with their means are becomnig more remote than ever. On the proper solution of this housing question depends the health of the city and the comfort of the population. It is therefore desirable that a Committee should be constituted to investigate and report early on this question in all its bearings and to suggest practical measures, based on a self-supporting basis, for increasing the housing accommodation of the poor and the middle class population of the city. Proposals in this respect should be submitted for the early sanction of Government.

18. In concluding this general review, Government trust that with the enunciation of their policy as indicated above, the work of the City Improvement will proceed on right lines as expeditiously as possible and all the outstanding questions of importance settled in a satisfactory manner under a carefully conceived programme. All questions of financing should be fully considered and detailed proposals made with reference to schemes and projects after they have undergone proper scrutiny and examination.

PRESS TABLE.

Exd.—C. R.

MEMORANDUM ON THE BANGALORE CITY IMPROVEMENT SCHEME.

The scheme includes the following main items of work:—

(1) Improvements to the Old City.
(2) Laying out extensions on all sides of the City.
(3) Water-supply.
(4) Drainage.
(5) Electric lighting.

2. The progress made under each item from the time of its inception is summarised below:—

(1) IMPROVEMENT TO THE OLD CITY.

3. In January 1889, the Deputy Commissioner of the Bangalore District, Col. Macintire, in accordance with instructions given to him by the late Dewan Sir K. Seshadri Iyer submitted to Government, for approval of certain proposals "for the extension and improvement of the Bangalore Town". These proposals comprised the following items of work:—

(1) Extension of Guttahalli village estimated to cost Rs. 6,000.
(2) Opening a cross road in Fort from east to west removing 50 yards of wall on each side, Rs. 400.

(3) Improving and strengthening Fort Main Road, Rs. 500.
(4) Restoring Tippu Sultan's Palace in Fort so as to utilise it as a Town Hall and at the same time to make it one of the sights of Bangalore, Rs. 25,000.
(5) Repairing temple near the Old Palace, removing dwelling houses, etc., Rs. 3,000.
(6) Extension of the town on Gavipur side, Rs. 20,000.
(7) Forming a new grain bazaar on the Fort glacis and on part of present Military ground, Rs. 2,000.
(8) Removing Chuckler and Holeyar Palyas, Rs. 6,000.
(9) Removal of classes of Town High School from the existing building to the old barracks in Fort, Rs. 15,000.
(10) College Boarding House, Rs. 15,000.

4. To this list was added a clock tower in front of the Fort, extension of the Cubbon Park and gradual removal of houses from Upparahalli near which could be built a house suitable for the reception of His Highness the Maharaja's Guests and the adjacent land made into pleasure grounds.

5. The total cost of the proposals noted in para 1 was estimated at Rs. 84,000 of which Rs. 15,000, was expected to be recouped from the sale of lands for building purposes. The Deputy Commissioner suggested in conclusion that a Committee may be appointed with Col. Bowen, as President to carry out the improvements in a systematic manner without loss of time.

6. *City Improvement Committee.*—Accordingly a Committee was appointed in Government Order No. 2259-65, dated 30th March 1889, called "The Bangalore City Improvement Committee" with a view to "report and to carry out all such improvements as may be sanctioned by Government upon such report."

7. In July 1892, Mr. V. P. Madhava Rao, then Inspector-General of Police, submitted to Government in his previous capacity of Deputy Commissioner, Bangalore District, a memorandum giving a record of work done in the past and of work contemplated for the future. In passing orders on this memorandum, Government in their Government Order No. 8165-72—L. F. 82-92, dated 10th December 1892, reconstituted the Improvement Committee, entrusted it with the work of providing roads and wells in the western and northern extensions already opened by the previous Committee and empowered them to allot sites for reasonable prices subject to the conditions of the Regulations laid down for the construction of houses. The Committee was also given the help of Engineer Officers to advise it in all professional matters such as Engineering, Sanitary Improvements, etc.

8. In 1895, the question of the transfer of the northern and western extensions to the Municipal Board in view to their general conservancy came up for consideration before a meeting of the Bangalore City Improvement Committee and a resolution was adopted to dissolve the Committee and hand over charge of the new extensions to the Municipal Board. By this time the following works had been carried out in the old city by the Committee:—

(1) *Fort Improvement.*—(*a*) Albert Victor Road was provided with raised side walks and avenues.

(*b*) The Fort Main Road was straightened, widened and provided with avenues.

(*c*) The narrow gateway in the north was dismantled and widened to admit of a 30′ roadway.

(2) *Madigarapalya.*—The village consisting of 206 huts was removed beyond the extension along the Mysore Road after the payment of compensation and liberal assistance to the Madigars. In lieu of five old temples dismantled in this old Palyam, new ones were built. A fresh water well 6′ in diameter was sunk in the village, fair roads made and drains excavated and all arrangements for the comfort of the people and the conservancy of the village were duly provided.

9. *Special Improvement Division.*—As per Government Order No. 3720-22—26-97, dated 16th September 1898, a Special Improvement Division was formed with the object of effecting the necessary improvements in the city proper in the interests of the health of the city and as a precautionary measure against plague. The work to be done comprised the following items:—

(1) Repair and construction of open drains in lanes and laying out stoneware pipes in main roads.
(2) Substitution of daily conservancy privies instead of pit privies.
(3) Opening out of conservancy lanes.
(4) New extensions on all sides to prevent overcrowding in the city.

10. The Sanitary Department budgetted for Rs. 73,000 for carrying out the first three items and a special staff costing Rs. 3,528 per year was entertained to cope with the

additional work in Government Order No. 3177-78—L. F. 4-98, dated 6th September 1898 The actual expenditure on this account as finally reviewed in Government Order No. 4706-10—L. F. 43-98, dated 4th June 1904, was estimated to cost Rs. 1,25,000, the heavy outlay being due to the necessity of undertaking on a larger scale the opening out of roads and lanes in the congested parts owing to the prevalence and ravages of plague. Out of this amount, a sum of Rs. 86,711-3-1 was paid as compensation for properties demolished and Rs. 16,872-8-4, incurred on establishment and other charges, while Rs. 10,501 was spent by the Department of Public Works. Subsequently another sum of Rs. 23,947-12-11 was incurred on account of compensation and Rs. 3,840 for Public Works Department works so that the actual outlay on the improvements stands as follows:—

	Rs.	a.	p.
Compensation	110,659	0	0
Establishment and other charges ..	16,872	8	4
Public Works Department charges ..	14,341	0	0
Total ..	1,41,872	8	4

Government also granted a sum of one lakh of rupees per annum for the next five years commencing from 1903-04, to be utilised and spent for permanent improvement of the Bangalore City not falling within the legitimate scope of the obligations of the Municipality.

11. *The City Improvement Committee.*—The Old Improvement Committee was again revived in 1908, to draw up a comprehensive scheme of improvements for the old city but this work was not taken up by the Committee for want of expert assistance in town-planning and a city map based on a correct survey. Consequently, Government reconstituted the Committee in their Order No. 6340-9—Ml. 330-12-3, dated 20th December 1913, by appointing Engineer Officers on it to provide them with technical help. At the same time, the New Extension Committee appointed for the purpose of allotting sites in the Shankarpur Extension was abolished as there was no necessity for it in the altered circumstances of the city.

12. The work to be done by the City Improvement Committee was laid down as follows:—

(1) Preparation of a correct map of the city.

(2) Improvement of communications by short-circuiting existing roads so as to give easy access to all parts of the city.

(3) Provision for sites for open spaces and parks and children's play grounds.

(4) Improving drainage, particularly by removing all holes, hollows and uneven grounds in areas not built over so as not to allow water to stagnate anywhere within Municipal limits except in tanks and ponds recognised as such. Provision to be made for the maintenance of all open spaces in future free from undergrowth, rank vegetation and always in a sanitary condition.

(5) Allotment of sites for Markets, Municipal buildings, Schools, Boarding houses and other Public Institutions.

(6) Provision for future extensions of the City for the next ten and twenty-five years.

13. In compliance with this order the Committee submitted to Government their recommendations for the improvement of the city in July 1914. Their proposals consisted of the following improvements:—

A. Works to be taken up during the first three years.

No.	Name of improvement	Total cost	Net cost
		Rs.	Rs.
1	Construction of General Market	2,50,000	2,50,000
2	Town Hall and Municipal Office	2,00,000	2,00,000
3	Widening Avenue Road	19,56,944	7,13,500
4	Improvement and laying out of the Market Square.	1,66,674	1,66,674
5	Improvement of Yelahanka Gate Square ..	10,237	10,237

No. 5682-7—Ml. 1-19-2, dated 14th November 1919.

A. Works to be taken up during the first three years—*concld.*

No.	Name of improvement	Total cost	Net cost
		Rs.	Rs.
6	Setting back the Fort Buttress	4,500	4,500
7	New extension east of Fort Centre road ..	1,57,708	..
8	Acquisition of mango tope of M. Surappa ..	7,100	..
9	Acquisition of K. H. Ramaiya's land, etc., near Sheshadripuram	4,700	4,700
10	Shifting of Bamboo Bazaar	15,900	6,000
11	Continuing the Kitchetty Chattram Road to City Railway Station	44,070	44,070
12	Girdle Road, through Sunnakal Farm ..	24,000	24,000
	Total ..	28,41,833	14,23,681

B. Works proposed for ten years.

No.	Name of improvement	Estimate amount
1	New Diagonal Roads.—	Rs.
	(1) From the Market Square to the junction of Taluk Cutcherry road and Sunkalpet road ..	2,38,140
	(2) From the Market Square to the junction of Taluk Cutcherry road with Arcot Srinivasacharlu's street ..	1,00,134
	(3) From the junction of the Arcot Srinivasacharlu's street and Taluk Cutcherry road to the junction of Balepet and Hospital roads near Upparpet Police Station ..	1,51,998
	(4) From the junction of Mysore road and Arlepet road near Barr Lines to the junction of the Kengeri Bagal road and Arcot Srinivasacharlu's street ..	1,32,235
	(5) From the junction of the Taluk Cutcherry road and Arcot Srinivasacharlu's Street to the Yelhanka Gate ..	2,00,755
	(6) From the junction of the Taluk Cutcherry and Akkipet roads to the junction of Arlepet road and Railway road near Subbachetty Chattram	1,08,780
	(7) Continuation of Subbachetty Puranappa's lane to the District Office road	..
	(8) Producing the west road of Dharmambudhi tank northwards to meet the Sampige road of Malleswaram ..	..

II. Girdle or Circular roads.

(1) From south end of Kempambudi tank to the Bull Temple road going north of Gavipur and north of Sunkenahalli and from north end of the tank bund to join the 9th Cross road of Chamarajpet road.

(2) A road from the Residency Park to the Race Course road to meet it at the low level reservoir.

(3) A road from the eastern corner of the Lal-Bagh round the Lal-Bagh compound on the east, over the Lal-Bagh tank bund to join the north road of Basavangudi Extension,

III. Other roads—

(1) Continuing of Fort A Cross road opposite to Fort Police Station to join the Hosur Road near Kalasipalyam.

(2) From the Cenotaph to the East road of Basavangudi extension through Gangammacherry.

IV. (i) Windening of Chikpet road.

(ii) Arlepet road.

No. 5682-7—Ml. 1-19-2, dated 14th November 1919.

V. Provision of sites for open spaces Parks and children's play grounds.

(1) Converting northern half of Dharmambudi tank into a park.

(2) Converting the bed of Karanji tank into a park.

VI. Improvement of the area on either side of city main drain now occupied by Tiglars' gardens.

VII. Providing sites for factories.

VIII. Sites for hostels:—

(1) Sanskrit Hostel. (2) Mahratta Hostel.

IX. Construction of Septic tanks and opening a sewage farm below Jakarayankere for the combined sewage scheme of Malleswaram and Sheshadripuram.

X. (*a*) Providing Swimming bath in the Lal-Bagh tank.

(*b*) Swimming bath in the Kempambudi tank.

XI. Providing a bathing ghat at the Kempambudi tank.

XII. Improvement of the slaughterhouse.

14. In passing orders on these proposals Government in their Order No. 1297-347—Ml. 112-14-13, dated the 13th August 1915, deferred conveying sanction to the widening of the Avenue road as the project involved heavy outlay and approved generally the carrying out of the works noted in List A. They further promised to contribute two-thirds of the cost of the scheme, if the Municipal Council agreed to bear the remainder and sanctioned the expenditure of Rs. 3 lakhs per annum for the next five years. As regards the less urgent schemes outlined in List B, they were ordered to be further investigated and kept in view till the Municipal Council were financially in a position to carry them out.

15. In addition to the above works, Government also sanctioned in their Order No. 7200-2—Ml. 142-13-9, dated 27th March 1916, a scheme at an approximate cost of Rs. 74,000, for improvements to the Palace Upparahalli and Dobbspet Divisions promising a contribution of one-half of the outlay from the State Funds if the City Municipal Council agreed to bear the other half.

16. With a view to facilitate the commencement of work on the projects sanctioned, the Dewan inspected the city on the 31st July and the 16th August 1916 with the result that an understanding was arrived at that the following works which were estimated to cost Rs. 7,57,000 might be taken up and completed within the next two years.

1. Construction of a General Market.
2. Town Hall and Municipal Office including the diversion of the city main drain.
3. Improvement and laying out of Market Square.
4. Shifting the Bamboo Bazaar.
5. New extension to the east of Fort Centre road.
6. Extension of Kitchetty Chattram Road to the City Railway Station.

17. As regards provision of funds for the improvement works for which Government have promised a contribution of two-thirds cost, the Municipal Council were permitted to incur the necessary expenditure in 1916-17 from their own funds, while in subsequent years Government would make adequate contributions from their own funds, or allow the Municipal Council to borrow in the open market, the interest being guaranteed by Government.

18. In addition to the above six works ordered to be taken up, the question of the construction of hostels which the leaders of the Lingayet, the Mahratta and the Vaisya communities promised to build and the laying out of an industrial suburb for Bangalore were also ordered to be worked up with a view to their early completion.

19. A responsibility sheet enumerating specifically the works to be undertaken, the time within which each should be completed and the officers or other gentlemen responsible for the same was also issued and a quarterly statement of progress on each item of work included therein was ordered to be submitted to Government commencing from January 1917. (*Vide* Order No. 2747-50—Ml. 111-15-2, dated 3rd November 1916.)

20. But the Honorary President of the Bangalore City Municipal Council submitted to Government with his letter No. 375, dated 3rd April 1918, the following revised programme of the City Improvement Works with estimated cost as per designs since approved.

No. 5682-7—Ml. 1-19-2, dated 14th November 1919.

Programme of City Improvement Works for three years with their estimated cost.

Serial No.	Items			Estimated cost
				Rs.
1	Construction of General Market			4·5 lakhs
2	Town Hall and Municipal Office			5·5 ,,
3	Improving existing main drain near Avenue road			0·61 ,,
4	Laying out Market Square			0·5 ,,
5	Shifting Bamboo Bazaar			0·3 ,,
6	Removing slums of Ammachoudripalya			0·25 ,,
7	Extension of Kitchetty Chattram road to City Railway Station ...			0·57 ,,
8	Improvement to main drain on the Lal-Bagh road—			
	(*a*) Parapet wall over tunnel ... ... Rs	1,105		
	(*b*) Silt clearing ... ... ,,	2,056		
	(*c*) Reducing the vent-way of the tunnel ... ... ,,	1,490		
	(*d*) Slabbing the drain up to the culvert east of Lal-Bagh tunnel ... . ,,	8,000		
	Total ... ,,	12,651		
		Total ...		0·13 lakhs
9	Improvements of Dobbspet and Palace Upparhalli			0·71 lakhs
		Total ...		13·07 lakhs
10	New extension east of Fort Centre road			3·63
11	Laying out of Hoskote road, into a shop street			1 50

The works are those included in the scheme approved by Government and noted above with the Avenue road, Yelahanka Gate Square and the Girdle Road Scheme left out. The total cost of these nine improvement works was estimated at Rs. 13·07 lakhs.

21. Government sanctioned these revised proposals of the Honorary President in their Order No. 6317-20—Ml. 87-17-32, dated 9th May 1918, and approved of the payment of the Government contribution of two-thirds of the cost in respect of the works so long as no addition is demanded to the annual grant for five years promised by Government in their Order of the 13th August 1915. A sum of Rs. 2 lakhs was ordered to be provided for these improvements in the budget for 1918-19 and Rs. 4 lakhs for 1919-20. If funds were urgently needed, an additional lakh was ordered to be met by reappropriation or borrowed by the Municipal Council.

(2) EXTENSIONS.

New Tharagupet.

23. This was the first extension formed by the City Improvement Committee as a result of the policy of the extension of the Bangalore town proposed in 1889 with a view to relieve congestion in the old city and safeguard its sanitation and health.

(*a*) Nine main and cross roads varying in width from 50′ to 30′ were laid out, formed and provided with slab side drains for the greater portion of their length, and covered box drains at all junctions.

(*b*) The old petta road in front of the Municipal School was extended up to the glacis road in order to afford a direct line of communication between the old and new Taragupets.

(*c*) A large fresh water well 14′ in diameter was sunk for the water-supply of the place.

(*d*) Shop sites to the number of 97 measuring 150′ × 30′ each were marked out; of which 85 were sold.

(*e*) The removal of the Pioneercherry was taken in hand and some huts were acquired and dismantled.

(2) Western Extension (Chamarajpet).

23. This was opened in accordance with the programme laid down in Government Order No. 2259-65, dated 30th March 1899.

(*a*) In all 1,152 house sites measuring 30′ × 108′ were marked out. Of these 56 adjoining the glacis road were reserved for small bungalows. In addition to these, four large bungalow sites measuring from 1½ to 2½ acres and 13 smaller ones about ½ an acre

each were marked out. A narrow strip of land adjoining the Mysore road was also divided into five bungalow sites.

(*b*) Altogether 824 sites were sold, of these 134 were already built upon.

(*c*) There are five main roads all 30′ wide with 15′ margin for avenues. There are also nine cross roads 30′ wide with avenue margins for every alternate road, making a total of 12 miles including conservancy lanes.

(*d*) Culverts were built in the main and cross roads at such places where they were deemed necessary.

(*e*) A few wells were sunk in suitable sites in the various localities and water tapped.

(3) Northern Extension—(Seshadripuram).

24. This also formed part of the improvements contemplated in the Order of 1889 and comprised the following works :—

(*a*) The village of Mullenahalli consisting of 37 houses was removed to a site to the east of the Maharaja's Mills after the payment of compensation for lands and houses. Two wells were sunk in the new village and a good supply of water secured to the inhabitants The streets were also laid out and formed and earth drains, etc., excavated.

(*b*) On the other side of the new road to Guttahalli and to the east of new Mallenahalli, 109 sites were marked out. Of these 52 were sold by public auction.

(*c*) To the east of the old Butt's road, the site forming a portion of the old steeple chase course was acquired and divided into 13 large bungalow sites and sold to the higher officers of the Durbar.

(*d*) A new road, 30′ wide and provided with avenues, in the shape of a crescent was made to afford access to the various bungalows.

25. *Finances of the Committee.*—To effect the improvements noted above, Government advanced a sum of Rs. 46,649 to the Committee up to the end of March 1895. There was an additional income from the sale of lands both in the northern and western extensions amounting to Rs. 94,840-8-7. Out of this amount a sum of Rs. 1,33,749-7-8 was spent on the improvements. In addition to the above a sum of Rs. 34,930 for flood water drains and Rs. 20,000 for the completion of roads and streets were spent by the Public Works Department so that the total outlay on the extensions comes to Rs. 1,88,679-7-8.

26. *Dissolution of the Committee.*—In sanctioning the dissolution of the Committee and handing over the extensions to the care of the Municipal Board, Government in their Order No. 24999-25003—L. F. 82-92, dated 27th June 1895 recorded that the work of extension so far carried out was the largest work done for the city by the State in recent years. The city was suffering from the great evil of over-crowding and was occupying the same area as it did many years ago when its population was much smaller than what it was then. The extensions carried out have added largely to the health and comfort the citizens and the rapidity with which the western extension specially has filled proved the great popularity of the measure.

27. Additional expenditure of Rs. 2,210-7-0 for acquisition of land in New Taragupet should be added to the expenditure on Chamarajpet. (*Vide* G. O. No. 2248, dated 22nd August 1899.)

(4) Basavangudi and Malleswaram Extensions.

28. Owing to the prevalence of plague in 1898 and as a result of the policy already laid down under the City Improvement Scheme, it was found urgently necessary to relieve congestion in the city and open out two more new extensions towards the north-west and south-west of the city. Accordingly land to the extent of 484 acres and 30 guntas was notified in No. 4522—M. 1087, dated 20th September 1898, as being required for the Basavangudi extension. Subsequently, in 1902 additional land to the extent of 294 acres and 24 guntas was acquired to connect Chamrajpet with Basavangudi. Similarly land measuring 215 acres and 35 guntas was acquired and notified in No. 11705—Mis. 3455-56, dated 23rd April 1900, for laying out the Malleswaram extension.

29. In both the extensions, 2,624 sites were originally marked off and subsequently a similar number of sites were divided estimated to fetch Rs. 1,90,383 by sale. The actual amount realised up to date is stated to be Rs. 3,81,163.

30. The expenditure on the two extensions may be classified as follows :—

	Rs.	a.	p.
Compensation, establishment and conservancy items ..	1,78,283	13	7
Estimated cost for laying out roads, drains and metalling roads	2,26,280	0	0
Estimated cost for providing water-supply	72,850	0	0
Cost of laying pipes, constructing steps and grain bazaar ..	26,095	14	0
Total ..	5,03,523	11	7

No. 5682-7—Ml. 1-19-2, dated 14th November 1919.

(5) Shankarpur Extension.

31. The question of forming a new extension between Chamarajpet and Basavangudi was under contemplation from April 1903 as a result of a memorial submitted by certain residents and holders of sites in that locality. As it was found on enquiry that it would form a very attractive extension in close proximity to the city, with two main roads and half a dozen cross roads, the work of acquiring the lands and allotting them into suitable building sites was investigated in accordance with G. O. No. 2327-30—107-07-2, dated 9th September 1907. Government issued final orders in G. O. No. 10303-8—Ml. 107-07-13, dated 15th April 1908, approving of the land acquired being divided into sites and appointing a Committee for the purpose of fixing suitable upset prices on the sites and allotting them among the several applicants for sites in the locality.

New Extension Committee.

32. The total extent of land acquired for the extension is 77 acres which together with 10 acres of kharab land forms the entire area of the extension. About 20 acres of this land were reserved for the Sanskrit University and the remainder exclusive of the kharab land was apportioned into 8 bungalow sites, 58 cottage sites, 18 house sites of 1st quality and 34 of the second quality.

33. The outlay on the new extension was as follows :—

	Rs.
Cost of acquisition of lands	39,038
Cost of Matt road and other roads	91,129
Cost of construction of drains	29,224
Laying out pipes and opening fountains	9,808
Total ..	1,69,199

The proceeds from the sale of sites amounted to Rs. 53,429.

(6) Gavipur Extension.

34. A small extension to the south of the Sri Ramakrishna Matt at Basavangudi was formed in 1914-15. The area comprising the extension was divided into 16 cottage and 64 house sites which were sold by the Municipal Council. No Government grant was given to this extension as it was entirely initiated and financed by the Municipal Council. A sum of Rs. 43,460 is reported to have been realised by the sale of sites.

(7) Extension to the east of Fort Centre Road.

35. This extension was undertaken as a result of the provision made for future extensions in the scheme of improvements laid down in G. O. No. 6340-9—Ml. 330-12-3, dated 20th December 1913. The City Improvement Committee made a formal recommendation to Government for the formation of this extension and included it in the list of improvements proposed by them. They originally estimated the cost of laying it out at Rs. 1,57,708. The Government accepted the recommendation of the Committee and accorded administrative sanction to it in their Order No. 1297-347—Ml. 112-14-13, dated 13th August 1915. They also observed in their Order No. 6317-20—Ml. 87-17-32, dated 9th May 1918, that this extension would be a self-supporting one not requiring any contribution from Government.

36. The area of the extension covered by residential buildings is 119 acres. Provision is made for 350 sites comprising bungalow, cottage, middle class dwelling and poor class dwelling house sites. A revised estimate making due allowance for effective drainage architectural beauty and effective lay out and costing Rs. 3,63,640 has been sanctioned. This estimate provides for the following works :—

	Rs.
1. Laying out roads	38,200
2. Laying out culverts	22,500
3. Flood water drains	78,100
4. Laying water-supply mains ..	35,000
5. Compensation for lands	1,00,000
6. Underground drainage	57,200
7. Lighting connection	30,000
8. Planting avenues	2,640
Total ..	3,63,640

37. The entire scheme is expected to be a self-supporting one, the realisations from the sale of sites being estimated to yield Rs. 2,36,440.

38. The work of laying out the extension has been taken on hand with a view to providing employment for people in search of labour on account of the present abnormal seasonal conditions.

(7) Industrial Suburb.

39. This forms an extension to the city and recommendations for its formation were made by the Bangalore City Improvement Committee and approved in Government Order No. 1297-347—Ml. 112-14-13, dated 13th August 1915.

40. The site selected for the suburb measures an area of about 221 acres along the Bangalore-Magadi road. The object of laying out the suburb is to locate industrial concerns and concentrate them in one place so as to be self-contained in every respect.

41. The Honorary President of the Municipal Council submitted plans and estimates for Rs. 1,06,157 for acquiring lands, laying out roads, etc., and the same has been sanctioned in Government Order No. 7080-6—Ml. 213-16-7, dated 19th June 1919.

42. A scheme for the water-supply to the suburb has been ordered to be investigated and the Honorary President has submitted a subsidiary scheme for an independent water-supply to the suburb at an outlay of Rs. 30,000 with a recurring expenditure of Rs. 4,620 per annum for maintenance.

43. The Municipal Council have been asked to contribute the amount required for laying out roads, the amount required for payment of compensation not exceeding Rs. 74,557 being advanced to the Municipal Council by Government.

44. Government have also sanctioned the proposals of the President.—

(i) to formally acquire and confirm the areas in the occupation of certain industrial concerns to them;

(ii) to shift the Madigarapalya from its present position and locate it at the north-east corner of the suburb;

(iii) to locate an Industrial Bureau with Central Offices, Laboratory, etc., on the site of the existing Epidemic Diseases Hospital;

(iv) Basavanapalya to be realigned and

(v) to fix upset price at Rs. 1,000 for 2 acres factory sites and at 4 annas per square yard for residential sites.

The resolution of the Municipal Council to bear half the net cost of laying out the suburb is under consideration and the Chief Engineer's report on the water-supply scheme is awaited.

(3) WATER SUPPLY.

45. It was determined early in 1893 to set aside all other previously proposed schemes for the water-supply of Bangalore, whether for the Civil and Military Station or for the city and to undertake a joint scheme with the Hessarghatta tank on the Arkavati river as its source of supply which would afford an ample supply of water to the whole of Bangalore. This source was, after full investigation of all others available, found to be the only one which would ensure a full sufficiently pure supply to the whole population at a reasonable cost.

46. In December 1893, the settlement of compensation for the lands and villages taken up having been equitably adjusted, sanction of Rs. 79,197 was accorded therefor. This was followed up by the sanction of estimates piecemeal for the water-supply delivery channel and main storage tanks, filters, and other auxiliary works so that the amounts of the several estimates aggregated finally to Rs. 15,05,593. This estimate does not include the distribution to the city and the subsidiary high level system. Estimates for both these items were subsequently finally sanctioned in Government Order No. 159-66—1062-69, dated 22nd February 1898, and the entire cost of the project for water-supply to the City stands as follows: —

	Rs.
Cost of tank works	15,05,593
City distribution	2,45,304
High level system	1,31,810
Miscellaneous	68,124
Total ..	19,50,831

47. The analysis of the water in dry weather has shown it to be very pure, but when the reservoir receives a supply due to rainfall the water becomes turbid. There is nothing to show, however, but that apart from this turbidity, the water is wholesome. To eliminate the risks attendant upon this turbidity and to ensure a thoroughly wholesome supply

of water, the jewell system of filters was installed in Bangalore in 1909-10 to filter effectively the water pumped from the reservoir. The cost of these filters which are six in number amounts to Rs. 2,12,985 and they are able to filter three million gallons a day and thus ensure a supply of pure drinking water to the population. But latterly the consumption having increased owing to the expansion of the city, the installation of additional filters at an approximate cost of Rs. 45,380 has been sanctioned.

48. The water service was laid on to the city in 1896 to the fountains erected in the main streets and the question of affording private house connections was carefully considered and sanctioned in Government Order No. 330-1932, dated 10th May 1897. A water meter of proper size and pattern was ordered to be provided for each house for the accurate gauging of water consumed. The quantity of water which a householder should be entitled to draw by means of his house-connection was laid down and a scale of fee varying from Re. 1 to Rs. 4 for every 1,500 gallons consumed over and above the free allowance was fixed.

49. The annual maintenance of the water-supply which originally amounted to eighty thousand rupees was borne by the State till 1902-03 but it was ordered in Government Order No. 4720-23—L. F. 37-99, dated 4th June 1904, that from and after the year 1903-04 the entire annual proceeds of the revenue from water tax and tolls which then approximately came to Rs. 39,000 subject to a minimum contribution of Rs. 30,000 per annum was ordered to be assigned from Municipal Funds towards the annual maintenance charges of the water works, the balance required being borne by the State. The maintenance charge has since increased and for the year 1917-18 it amounted to Rs. 1,67,425. The whole scheme including all miscellaneous charges has cost Rs. 27,23,469 up to the year 1917-18.

(4) DRAINAGE.

50. The amount spent to construct V-shaped drains, culverts, flood-water drains in connection with the city improvements to the old city as well as for extensions is noted above under their respective items, and has cost Rs. 2,90,859 up to 1917-18. These were undertaken as part of the particular item of improvement whenever a new extension was opened and the old city was brought under a particular scheme of improvement. But a comprehensive project of an efficient drainage system for the entire city was partly attempted when a special project costing Rs. 1,24,000 was sanctioned for the drainage of the Chamarajpet extension in 1899. But latterly a complete scheme of drainage for the city involving an expenditure of Rs. 18,21,200 has been prepared by Mr. D'Cruz and is separately under consideration.

(5) ELECTRIC SUPPLY.

51. Government in their Order No. 552-5—3157-60, dated 30th May 1904, sanctioned a second installation at the Sivasamudram generating station for the purpose of supplying electric power and lights for Bangalore at an estimated cost of Rs. 7,99,665 and street lighting of the city with electricity commenced in 1905. There are at present 1,468 street lights in the city.

52. Connections to bungalows and dwelling houses were given in 1906 and 1908 as per Orders Nos. 685-4711 and 164-5-1214-5, dated 14th July 1906 and 18th February 1908, respectively. Extensions of this interior power and lighting are being carried out year after year since then and the average expenditure now on this account is about Rs. 33,000 per annum. The number of bungalows and other residences served with lights at the end of 1917-18 was 1,337.

53. The extension of street lights to the suburban villages of Bangalore was sanctioned in Government Order No. 1133-4—7725-6, dated 8th December 1908 at a cost of Rs. 59,101.

54. Besides street and house service, electric power is being supplied for industrial purposes also. The number of such installations is 67 at present.

S. R. Nanjundaiya's Hindu A.-V. School, Bangalore.

No. 3862-3—Edn. 91-19-6, dated 6th November 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Government Order No. 12357-8—Edn. 154-18-10, dated 27th June 1919, sanctioning the conversion of the S. R. Nanjundiah's Hindu A.-V. School, Bangalore, into a Government institution with effect from 1st July 1919.

2. Correspondence ending with letter No. A. C. 2806, dated 15th September 1919, submitting proposals for fixing the scale of establishment of the A.-V. School referred to in the Government Order read above and for allocating the present staff of the school in the new scales as per statements appended.

Order No. 3862-3—Edn. 91-19-6, dated 6th November 1919.

The Inspector-General of Education proposes to fix the scale of establishment of the school at an average cost of Rs. 1,027⅔ per mensem and the charges on account of house-rent and contingencies at Rs. 75 and Rs. 15 per mensem, respectively, so that the total cost to be incurred on the institution amounts to Rs. 1,167⅔ per mensem or Rs. 14,012 per annum inclusive of the honorarium of Rs. 50 to be paid to Mr. Nanjundayya. As against this expenditure, the income of the school at present inclusive of the grant of Rs. 175 per mensem is stated to be Rs. 12,488 per annum and it is further expected that consequent on the application of the rule that primary education should be free in all Government Institutions there will be a fall in the fee income to the extent of Rs. 1,067, the average fee income of the primary classes, so that the income of the institution may be taken at Rs. 11,421. The net additional cost to Government in fixing the scale of charges as proposed by the Inspector-General of Education comes therefore to Rs. 2,591 per annum. The actual amount that will, however, be immediately required in accordance with the allocations proposed is Rs. 1,003 per mensem or Rs. 12,036 per annum which exceeds the income of the institution by Rs. 615 per annum. The proposals of the Inspector-General of Education are sanctioned with effect from 1st July 1919, the extra cost being met by reappropriation of sanctioned grants.

2. Separate orders will issue as regards the proposal of the Inspector-General of Education to count the previous services of the staff towards pension.

P. G. D'SOUZA,
Secy. to Govt., Depts. of Edn. & Agri.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Letter No. Glc. 2510, dated 15th January 1919, from the Inspector-General of Education, recommending that, under the circumstances explained, the Panchama schools be transferred to departmental control and not left to the local authorities.

2. Correspondence ending with letter No. C. 2510, dated 22nd September 1919, from the same officer submitting certain information in regard to the Panchama schools in the cities of Bangalore and Mysore.

Order No. 4380-2—Edn. 233-18-10, dated 21st November 1919.

Pending orders of Government on the general question of the control of Panchama education in the whole State, Government are pleased to direct that the Panchama schools in the Mysore City be placed under the administrative control of the Education Department. The cost on account of these institutions, *viz.*, Rs. 81¾ per mensem (as per details noted in the margin) which is at present being incurred by the Municipal Council will hereafter be borne by the Government the grant to the Municipal Council for meeting the cost of Primary Education in the City sanctioned in Government Order No. 8580-2—Edn. 26-16-98, dated 26th February 1918, being reduced to this extent and the amount thus set free being utilised for the Panchama schools. The aided Panchama schools managed by the Depressed Classes Mission and similar agencies may continue to be managed by them as aided institutions, all the privileges and concessions open to Panchama pupils in Government institutions being as far as possible extended to them by the Education Department.

3. Government schools	53¾
4. Aided schools other than those under the depressed classes Mission ...	28
Total ...	81¾

Boards of Visitors for Hindustani Schools.

No. 4564—Edn. 84-19-11, dated 29th November 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Correspondence ending with letter No. 65—H. C., dated 1st November 1919, from the Inspector-General of Education, regarding the appointment of Boards of Visitors for Hindustani Schools.

Order No. 4564—Edn. 84-19-11, dated 29th November 1919.

With a view to improve the efficiency of Hindustani Schools, the Inspector-General of Education recommends that effect may be given to the resolution of the Mahomedan Educational Conference, that influential gentlemen and ladies may be appointed to constitute Boards of Visitors with supervisory powers on all Hindustani Schools excepting Anglo-Hindustani Schools in certain localities. He suggests that the functions of these Boards should be confined to mere general supervision over schools within their jurisdiction. They will report to the proper officers concerned gross irregularities coming to their notice, induce parents to send their children regularly, and collect funds for equipment under the Equipment Grant-in-aid Rules. It is also stated that if a sufficient number of reliable and enthusiastic persons is not coming forward one visitor will be appointed.

2. Government are pleased to approve generally of the proposals of the Inspector-General of Education and to direct that detailed proposals regarding the constitution and functions of the Boards may be submitted for approval. The work should be purely honorary and no travelling or other allowance permitted.

P. G. D'SOUZA,
Secy. to Govt., Depts. of Edn. & Agri.

Relieving Teachers for High Schools.

No. 4552-3—Edn. 18-19-93, dated 29th November 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Correspondence ending with letter No. 16—H. C., dated 15th September 1919, from the Inspector-General of Education, regarding the appointment of relieving teachers in the Education Departmant.

Order No. 4552-3—Edn. 18-19-93, dated 29th November 1919.

The Inspector-General of Education has brought to the notice of Government that much difficulty is being felt at present in finding substitutes for teachers of High Schools during their absence either on privilege leave or on leave on medical certificate with the result that their places have often to be left vacant, and has therefore recommended that six relieving teachers in grade Rs. 75-10-125, three for Science, two for English, and one for Mathematics may be appointed, attached to the four Collegiate High Schools, two for Bangalore, two for Mysore, one for Tumkur and one for Shimoga and kept as a reserve for being sent to the various High Schools in place of the teachers who may go on leave for short periods not exceeding three months at a time.

2. Government are pleased to sanction the recommendation of the Inspector-General with the modification that three of the appointments will be on Rs. 75-10-125 and the other three on Rs. 50-4-70. The cost during the current year will be met by reappropriation of sanctioned grants in the budget of the Education Department.

The reserve teachers should be employed in such a manner that they should be readily available to fill temporary vacancies when they occur. As the reserve is primarily meant for filling up leave vacancies the Inspector-General of Education will be requested to see that three leave vacancies on Rs. 75-10-125 and as many in the grade Rs. 50-4-70 are not filled up and that no acting arrangements are made in the said vacancies.

P. G. D'SOUZA,
Secy. to Govt., Depts. of Edn. & Agri.

Appointment of Mr. Morris.

No. 4042-7—I. & C. 53-19-27, DATED 12TH NOVEMBER 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Correspondence ending with letter No. 980, dated 14th October 1919, from Dr. Smeeth, Director of Mines and Geology on Special duty, requesting sanction to the appointment of Mr. A. E. C. Morris as Mining Superintendent in connection with the Mysore Iron Works and submitting proposals with regard to the establishment to be allowed to him, etc.

Order No. 4042-7—I. & C. 53-19-27, dated 12th November 1919.

The appointment of Mr. Morris as Mining Superintendent is sanctioned for a period of three years with effect from the 8th October 1919.

(1) He will draw a salary of Rs. 600 during the 1st year, Rs. 650 during the 2nd year and Rs. 700 during the 3rd year with a local allowance of Rs. 100 per mensem.

(2) He will be allowed suitable bungalow accommodation at Kemmangundi furnished in the same way as ordinary travellers' bungalows and until it is ready, he will be provided with tents and camp furniture required.

(3) He will be entitled to the usual travelling allowances according to the Mysore Service Regulations.

2. A sum of Rs. 5,000 will be placed at his dispsoal at the Tarikere Taluk Treasury for expenditure in connection with the mining operations, the amounts required being drawn on abstract contingent bills. The detailed contingent bills will be countersigned by Dr. Smeeth and sent to the Comptroller.

3. Mr. Morris will be allowed the services of the following staff for work in this connection.

(1) Mr. B. N. Venkataramaiya, Assistant Geologist, Assistant to the Mining Superintendent.

(2) One accountant and storekeeper on Rs. 70
(3) One clerk and timekeeper on Rs. 40
(4) One peon on Rs. 10 } To be attached
(5) One lascar on Rs. 10 } to the Superintendent.

4. The Sub-Assistant Surgeon at Santaveri will continue to pay weekly visits and be given a remuneration of Rs. 5 per visit.

5. The Chief Engineer is requested to place the survey party required by Dr. Smeeth at his disposal at a very early date and to intimate details to Government for issue of formal orders in the matter.

6. The cost will be met from the provision made for the purpose in the budget for the Iron Scheme.

Read—

Government Order No. Fl 100-149—G. F. 5-18-1, dated the 9th July 1918, sanctioning rules for the grant of grain compensation as per scale given in Article 72, Civil Account Code, Volume I, ragi being considered as the staple food grain and the taluk the unit.

2. Government Order No. Fl. 2047-96—G. F. 5-18-29, dated the 23rd October 1918, sanctioning rules for the grant of compensation for dearness irrespective of the price of any particular grain or commodity in the two Cities of Bangalore and Mysore.

Order No. Fl. 2988-3037—G. F. 5-19-8, dated 18th November 1919.

In accordance with the orders read above, the grant of grain compensation allowance is sanctioned for the month of November 1919, to the employees in the two cities of Bangalore and Mysore and all taluks and sub-taluks in the State as indicated below:—

(i) To those drawing a pay exceeding Rs. 16 but not exceeding Rs. 30 per mensem, Rs. 3 per mensem.

(ii) To those drawing a pay not exceeding Rs. 16 per mensem, Rs. 1-8-0.

(iii) When the pay is less than Rs. 5 per mensem, the extra allowance will be increased so as to bring up the aggregate pay and allowance to Rs. 6-8-0 per mensem.

Finance Accounts of the Public Works, Electrical and Railway Departments.

No. Fl. 2745-48—G. F. 254-18-5, dated 4th November 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Government Order No. Fl. 746-95—G. F. 232-17-1, dated 5th August 1918, issuing instructions for systematising the preparation of Capital and Revenue Accounts of Public Works, etc., and desiring the Comptroller to submit proposals for avoiding duplication of work in the preparation of annual accounts and returns.

2. Un-official Memo No. 2937—Bks., dated 10th April 1919, from the Comptroller, submitting his proposals in the matter.

(To be read in extenso. *Vide* Annexure).

3. Letter No. P. W.—M. 2, dated 2nd July 1919, from the Secretary, Public Works Department, agreeing to the proposals of the Comptroller regarding the discontinuance of the issue of separate Finance Accounts of the Public Works and Electrical Departments.

4. Letter No. 366, dated 26th August 1919, from the Secretary for Railways, agreeing to the proposal to discontinue the preparation of separate Finance Accounts for the Railway Department.

Order No. Fl. 2745-48—G. F. 254-18-5, dated 4th November 1919.

In his note read above, the Comptroller suggests the abolition of the preparation of separate Finance Accounts of the Public Works, Electrical and Railway Departments and solicits orders for incorporating the several statements and information now contained in them in their proper places in one or other of the following returns:—

(i) Audit and Appropriation Report.
(ii) Finance and Revenue Accounts and
(iii) Review of balances.

2. The proposals of the Comptroller in paper No. 2 read above which are calculated to reduce duplication of work in the Audit Office and which have been agreed to by the Public Works and Railway Departments in so far as their departmental accounts are concerned, commend themselves to Government and are accordingly approved.

3. The Review of balances is not being prepared every year and the discontinuance of the separate annual Finance Accounts for the Public Works, Electrical and Railway Departments assumes the submission of the annual review. The verification of balances is one of the most important duties of the Audit Department and Government direct that the Review prescribed in Article 1419, Civil Account Code, Vol. 2, should be prepared every year. The last review was for the period ending 30th June 1916 and the next should cover the period from 1st July 1916 to 30th June 1919 and be prepared as soon as the final accounts for 1918-19 are closed and submitted to Government.

M. N. KRISHNA RAO,
Offg. Secy. to Govt., Financial Dept.

ANNEXTURE.

Un-official Note No. 2937—Bks., dated 10th April 1919, from the Comptroller in Mysore to the Financial Secretary to Government.

I beg to submit in this note some proposals for systematising the work relating to the submission by this office of the annual reports on accounts and audit.

2. The following reports are now prepared annually for submission to Government and also for publication in some cases.

1. Audit and Appropriation Report.
2. Finance and Revenue Accounts.
3. Review of balances. (This is not being prepared every year now.)
4. Finance Accounts of the Public Works Department.
5. Do do Electrical Department.
6. Do do State and other Railways.

3. The statistical information and report included in Accounts Nos. 4, 5 and 6 appear, though in less detail, in report Nos. 1, 2 and 3. According to the present arrangement there is a great deal of overlapping matter between the first three and the last three reports. The conditions under which separate reports for the Public Works, Electrical and Railway Departments were compiled have changed completely. The arrangement under which separate annual accounts were compiled for these departments was, I think, due to there having been an Account Office for these departmental accounts separate from the department of Civil Accounts. We have now only one Account Department and the transactions relating to these three departments are accounted for in the same way as those of other departments except that the accounts kept of these departments follow the nature of the transactions conducted by them. The budget in its present form is complete in every respect and includes the detailed budgets of the three departments,—Public Works, Electrical and Railway Departments. The Authorisation Rolls and working estimates of open lines of Railway have not yet been included in the budget but their inclusion has been ordered by Government. So far as the submission of annual accounts is concerned, the most natural arrangement is to deal with work of the same nature relating to all the heads on the books of the Account Department together instead of scattering the same matter over several reports.

4. The Chief annual reports relating to accounts and audit to be submitted by the Account Department come under the following three broad divisions:—

(1) A Report on the results of audit. This is the Audit and Appropriation Report.
(2) A Report for furnishing statistical information relating to all the financial transactions of Government. This is the Finance and Revenue Account.
(3) A Review dealing with the assets and liabilities of Government and reporting if these rest on detailed accounts and on the agreements of debtors and creditors. This is the Review of balances.

5. There is no reason why matter pertaining to the Public Works, Electrical and Railway Departments and falling within the scope of these three reports should have a separate report for each of these Departments. The three reports should be comprehensive and include every information relating to all departments of the State. In this view, it seems to me that it is not necessary to prepare separate Finance Accounts for the three Departments at all.

6. I shall now note the matter included in these separate reports and how far it already appears in the first three reports noted above and where the rest of the matter which is not now included in the three reports and which, it is desirable to retain, should appear.

Finance Accounts of Public Works Department.

7. I request reference to para 1755 of the Public Works Code. The Finance Accounts consist of the following:—

(1) A report containing a comparison of the year's actuals with the budget of the year and the actuals of the previous year.
(2) A report on objectionable outlay.
(3) A review of suspense balances.
(4) Schedules of Revenue and Expenditure under State Funds.
(5) Do do under other than State Funds.

The place for reporting upon the suspense balances is the review of balances. This arrangement has been adopted in British India (*vide* para 1440 A to E Civil Account Code, Volume II.) The fit place for reporting upon (2) is the Appropriation Report. Outlay under objection in all these departments is even now included in the Appropriation

Report. It has also been ordered that a quarterly review of objectionable expenditure and other irregularities in the accounts of all departments should be separately submitted to Government, *vide* Government Order No. Fl. 1928-77—G. F. 101-18-1, dated the 5th October 1918. Repetition of the same matter in the Finance Accounts is an unnecessary duplication. The Audit and Appropriation Report in its present form contains a comparison of the actuals of the year with the budget of the year and the actuals of the previous year. The report to be appended to the Finance Accounts makes the same comparison though somewhat in greater detail. The comparison of the actuals with the modified grant now made in the Finance Accounts does not serve any useful purpose and important readjustments of grants in the course of the year can be noted, if necessary, in explaining the differences between the actuals and the budget. As in the case of other heads cases of excesses over or savings on grants have to be explained in regard to these departmental heads and also in the appropriation report.

8. The proper place for item No. 4 is the Finance and Revenue Accounts. As a matter of fact details of the revenue and expenditure of the Public Works Department by major, minor and detailed heads are now included in the Finance and Revenue Accounts. The tabular statements appended to the Finance Accounts show in juxtaposition the actuals, the budget of the year and the actuals of the previous year. This however is not necessary in detail of detailed heads. In detail of minor heads this comparison is made in the body of the Audit and Appropriation Report. Items 4 and 5 appear in the Departmental Administration Reports in the form of the schedules appended to Finance Accounts. It is not necessary to repeat them again in the same form in any other place. The year's transactions under State Funds are brought on the Finance and Revenue Accounts. An appendix of original works costing Rs. 20,000 and more is attached to the Finance Accounts and this may be made an addition to the Finance and Revenue Accounts.

Finance Accounts of the Electrical Department.

9. The matter special to these accounts is the following:—

(1) List of contribution works (Page 6 of Accounts for 1916-17.)
(2) Statement of capital authorised and expended (pages 12 to 18.)
(3) Revenue Account (page 22.)
(4) Statement of Revenue Expenditure charged to Depreciation Fund (page 23.)
(5) Depreciation Fund Account (page 24)
(6) General and sectional profit and loss accounts and balance sheets. (pages 25 to 33.)
(7) Financial results.
(8) Appendices A, B, and C about working results and power generated.

Number (7) is now included in the Finance and Revenue Accounts. The others may be added to the same accounts. The rest of the matter contained in these accounts may be dealt with as in the case of the similar matter of the Public Works Department.

Finance Accounts of State and other Railways.

10. The matter special to these accounts is the following:—

(1) Detailed accounts of gross receipts and working expenses (page 20 of the accounts for 1916-17.)
(2) Detailed account of expenditure on surveys (pages 21 to 26.)
(3) Current and up to date expenditure in detail of main heads of Capital on Railways worked by Madras and Southern Mahratta Railway Company.
(4) Year's and up to date expenditure in detail of main heads of Capital, on Railways constructed by Government.

Item No. (1) is already included in the Finance and Revenue Accounts. Item No. (2) may be added to the Finance and Revenue Accounts. Items Nos. 3 and 4 are included in the Finance and Revenue Accounts but not in detail of main and sub-heads of Capital Account. The account now included in the Finance and Revenue Accounts can be amplified in the form of that in the Finance Accounts, if necessary. The rest of the matter contained in these accounts can be dealt with as in the case of the similar matter of the Public Works Department.

11. In para 12 of Government Order No. Fl. 746-95— G. F. 232-17-1, dated the 5th August 1918, issuing instructions systematising the preparation of Capital and Revenue Accounts of Public Works, etc., I have been asked to avoid duplication of work as far as possible and submit to Government any changes in the form of the separate Capital and Revenue and Finance Accounts of works relating to Railway Irrigation, Public Works other than Irrigation and Hydro-Electric Power Works. The suggestions contained in the foregoing paragraphs are in accordance with this order

Letter No. G. A. D. 243, dated 31st October 1919, from the Officiating Comptroller to Government, to the Officiating Financial Secretary to Government.

I have the honour to submit the following report on the working of the Mysore State Provident Fund for the year 1918-19.

2. *No. of Subscribers.*—The number of subscribers at the commencement of the year was 2,530. During the year under report, 260 persons enrolled as members and 126 ceased to be as such, with the result that there were 2,664 members at the close of the year. Of these 50 are compulsory subscribers.

3. *Subscriptions.*—The amount subscribed during the year was Rs. 99,162-6-2 as against Rs. 89,463-9-11 in the year previous.

4. *Withdrawals.*—There were 126 withdrawals during the year, of which 55 were due to retirements, 46 to deaths, 12 to resignations, 7 to dismissals and 6 to the subscribers having contributed to the Second Indian War Loan. The amount of these withdrawals aggregated Rs. 17,988-6-9.

5. *Temporary Advances.*—There were 198 cases of temporary advances. The amount advanced in the year was Rs. 17,540-0-0, while that repaid during the year was Rs. 8,427-11-0.

6. The final position of the Fund on 30th June 1919 was therefore as follows:—

		Rs.	a.	p.
Opening balance on 1st July 1918	.. ..	2,21,957	5	10
Subscriptions during the year	.. ..	90,734	11	2
Repayments of temporary advance	.. ..	8,427	11	0
	Total ..	3,21,119	12	0
Withdrawals during the year	.. ..	35,528	6	9
		2,85,591	5	3
Interest credited during the year	.. ..	12,303	2	2
Closing balance on 30th June 1919	.. ..	2,97,894	7	5

The closing balance of the last year which was furnished to Government was Rs. 2,21,947-5-10, and the difference of Rs. 10 was due to a transfer adjustment made after the submission of the report to Government.

7. *Nominations.*—During the year under report there were 65 nominations and the total number registered from the beginning was 987.

8. Annual advices to subscribers are being issued.

Temporary Local Allowance to all officials whose salary does not exceed Rs. 50 per mensem

Statement of Loans and Advances.

No. Fl. 2683-92—G. F. 166-18-5, dated 4th November 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Letter Nos.—1. Loans 142282, dated 4-9-1918
2. ,, 1405 ,, 3-2-1919
3. ,, 1506 ,, 10-2-1919
4. ,, 2059 ,, 17-4-1919
5. ,, 2088 ,, 26-4-1919

submitting the annual statement of loans and advances under the several heads for the year 1917-18.

(In extenso as annexures A, B, C, D and E.)

Order No. Fl. 2683-92—G. F. 166-18-5, dated 4th November 1919.

1. Recorded.

2. *Loans to encumbered Jahagirdars.*—Of the 11 accounts under this head, one was closed during the year and the credit balance of Rs. 145, in another still remains unadjusted. Early action is necessary to finally close the account of Messrs. T. Sreenivasa Rao and Kesaviah of the late Mr. Bakshi Thippiah's family. Of the other 9 cases, no recoveries towards principal have been made in two cases, *viz.*, Mr. Siddaraj Urs and Krishnaraj Ammanniavaru and Ramanna and others of the Nandagudi family, the amounts due from whom on 30th June 1918 were Rs. 27,500 and Rs. 64,341, respectively. In regard to the first case separate action is being taken towards the adjustment of Toddy Revenue due to the Inamdar. As regards the other case, the Deputy Commissioner, Bangalore, has submitted a report to Government recently and this question is also separately under consideration of Government. The progress of the adjustment of the remaining 7 cases was on the whole, satisfactory. The Comptroller is requested to devote a paragraph in future reports to show if the balances on his books have been communicated to the several debtors and if their acknowledgments have been received.

3. *Loans to Agricultural Banks.*—The recovery under this class of loans during the year under report was unsatisfactory. The amounts reported as overdue under principal and interest were respectively Rs. 2,66,077 and Rs. 1,63,530.

4. The two Coffee Banks of Saklespur and Chikmagalur are responsible for almost the whole of the outstandings, the former being indebted to the extent of Rs. 3,07,522, and the latter, Rs. 1,10,258, respectively. A sum of Rs. 1,59,126 is shown as overdue under interest from the members of these two Banks. With a view to expedite the adjustment of these long outstanding advances, Government have in their Order No. 7017-9—I and C. 225-17—11, dated 29th January 1919, promised that those debtors of the Banks who pay up the whole amount due by them in one instalment within a period of five years from the date of the order will be excused the payment of interest for seven years immediately preceding the date of such repayment and Government hope that the Deputy Commissioners of Hassan and Kadur will take effective steps towards the adjustment of these loans. Good prices have been realised from the last crop of coffee and that debtors should be able to take advantage of the concession promised by Government and repay the amounts payable by them.

5. No recoveries towards principal have been made during the year under review from the following six Banks.—

Bangalore District.	Kolar District.	Mysore District
1. Ardeshahalli	11. Mudavatti	33. Chamrajnagar
8. Vadigenahalli	13. Thippenhalli	34. Satanur.

No. Fl. 2683-92—G. F. 166-18-5, dated 4th November 1919.

Report of the action taken in consultation with the Registrar of Co-operative Societies and Inspector of Agricultural Banks towards the adjustment of the credit balances shown against some of the Agricultural Banks is awaited.

M. N. KRISHNA RAO;
Offg. Finl. Secy. to Govt.

To—The Comptroller to Government.

No. Loans 1405—G. F. 166-18-1, dated Bangalore, the 3rd February 1919, from T. Satyaraj Chetty, Esq., B.A., Officiating Comptroller to the Government of His Highness the Maharaja of Mysore, to Rajamantrapravina Dewan Bahadur J. S. Chakravarti, Esq., M.A., F.R.A.S., Secretary to the Government of Mysore, Financial Department.

Sir,

In forwarding herewith a consolidated statement including therein the transactions relating to the marginally noted interest bearing loans for the year 1917-18, I have the honor to state that the statements relating to the other loans, House Building, Indian War Loan and other advances, will be submitted separately.

1. Loans to Jahgirdars
2. ,, Agricultural Banks
3. ,, Co-operative Societies
4. Loans for encouragement of Industries and Commerce
5. Loans for dairy and other farms
6. Miscellaneous loans.

As directed in para 8 of Government Order No. Fl. 1862-71—G. F. 127-17-4, dated the 3rd October 1918, the Registrar of Co-operative Societies and Inspector of Agricultural Banks in Mysore, was requested in this office letter No. 450—Loans, dated 21st December 1918, to propose arrangements for the adjustment of the excess recoveries from Agricultural Banks and his reply is awaited.

I have the honour to be,
Sir,
Your most obedient servant,
T. SATYARAJ CHETTY,
For Officiating Comptroller.

No. LOANS 2088 / G. F. 166-18-4

GOVERNMENT OF H. H. THE MAHARAJA OF MYSORE,
GENERAL AND REVENUE SECRETARIAT.
Dated Bangalore, the 26th April 1919.

from M. N. Krishna Rao, Esq., B.A., Comptroller to the Government of His Highness the Maharaja of Mysore, to Rajamantrapravina Dewan Bahadur J.S. Chakravarti, Esq., M.A., F.R.A.S., Secretary to the Government of Mysore, Financial Department.

In continuation of this office letter No. 1506—Loans, dated the 11th February 1919, I have the honour to submit herewith a consolidated statement showing the transactions relating to the marginally noted interest bearing loans for the year 1917-18.

1. Loans of purchase of machinery.
2. Loans to owners of lands submerged by the Krishnarajasagara.
3. Indian War Loan Advances.

In the case of loans to owners of lands submerged by the Krishnarajasagara the penal interest prescribed in clause (*e*) of para 3 of Government Order No. R. 906-11—L. R. 538-13-2, dated 1st August 1914, was not levied but only interest at the ordinary rate of 4 per cent per annum prescribed in clause (*c*) of the same para. The matter has been reported to Government in this office letter No. 196-7—Loans 439-40, dated the 26th September 1918, addressed to the Chief Secretary and the orders of Government thereon are still awaited.

Loans to owners of lands submerged by the Krishnarajasagara, 1917-18.

Article 526 of Mysore Service Regulations.

No. Fl. 2921-70—S. & A. 21-19-6, dated 17th November 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Letter No. M. A. D. 246, dated 14th August 1919, from the Comptroller, stating that under Articles 526 and 527, M. S. R. his sanction has to be obtained by Treasury Officers to disburse pensions undrawn for more than six months, while under the corresponding Article 956 in the Civil Service Regulation, these officers are authorised to pay pension in arrears up to one year and proposing that the latter rule may be adopted in Mysore State as it will save much inconvenience to pensioners and clerical work in his office and the Treasuries.

Order No. Fl. 2921-70—S. & A. 21-19-6, dated 17th November 1919.

The Comptroller's proposal is approved, and the following amendment to M. S. R. is issued.

"Substitute 'one year' instead of 'six months' in line 2 of Article 526."

M. N. KRISHNA RAO,

No. FL. 3070-3119—S. & A. 107-19-1, DATED 20TH NOVEMBER 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE

GENERAL AND REVENUE DEPARTMENTS.

READ AGAIN—

Memo No. 148, dated 28th November 1910, from the Secretary to the late Retrenchment Committee forwarding the report of that Committee on the revision of travelling allowance rules and rates.

2. Note No. 34, dated 30th May 1917, from Mr. K. L. Datta, Special Officer, on the subject of revision of travelling allowance rules.

READ—

Government Order No. Fl. 2100-49—S. & A. 355-10-2, dated 24th October 1918, sanctioning certain changes in the travelling allowance rules.

Order No. Fl. 3070-3119—S. & A, 107-19-1, dated 20th November 1919.

Government have had under their consideration for some time past the question of revising some of the travelling allowance rules with a view to make their application general as far as possible and they are now pleased to sanction the following changes in the said rules with effect from 1st January 1920.

2. For purposes of travelling allowance rules, officers of all departments will be divided into the following classes based on salary and they will be entitled to the rates of allowances admissible for the class to which they belong.

The term, 'salary,' will for this purpose include pay, acting or charge allowance, and also personal allowance.

Classes of Officers	Daily Allowance	Railway fare	Mileage
	Rs. a. p.		
I. Officers whose salary exceeds Rs. 1,200 ...	7 8 0	I Class	8 annas
II. Officers whose salary is Rs. 800 or more but does not exceed Rs 1,200.	5 0 0	Do	8 ,,
III. Officers whose salary is Rs. 250 or more but is less than Rs. 800 ...	4 0 0	Do	6 ,,
IV. Officers whose salary is Rs 40 or more but is less than Rs. 250.	2 annas for every Rs. 10 of actual salary or fraction thereof in excess ..	II Class	4 ,,
V. Other officers in superior service whose salary is less than Rs. 40.	2 annas subject to a minimum of 4 annas ..	III Class	2 ,,
VI. All officers in Inferior service ...	Do ...	Do	6 pies

3. The existing rates of travelling allowances admissible to the Dewan, the Members of Council and the Chief Judge are unaffected by this order.

4. The rates allowed to officers employed under agreements of service or as personal to particular officers are also not altered by this order.

5. The certificate of actual expenses required in the case of non-gazetted ministerial and menial officers to draw mileage under Article 591, Rule 1, Mysore Service Regulations, will be dispensed with. The road mileage admissible to inferior servants will, however, be subject to the furnishing of a certificate in the following form:—

"The menials for whom road mileage is claimed were not given seats in carts paid for by Government."

No. FL. 3070-3119—S. & A. 107-19-1, DATED 20TH NOVEMBER 1919.

6. An Officer transferred in the interests of public service from one station to another for more than three months will be given for such journey on transfer double the rates of Railway fare and road mileage to which he would be entitled for making the same journey on tour.

7. The minimum limit laid down in Articles 538 and 539, Mysore Service Regulations, for claiming actual transport charges of conveyances by rail will be raised from 20 to 30 miles.

8. Article 558, Mysore Service Regulations, will be cancelled to permit Sub-Assistant Surgeons to draw the road mileage admissible to them for all journeys on duty.

9. Article 594, Mysore Service Regulations, will be deleted to enable establishments accompanying Jamabandy officers to draw mileage under the ordinary rules.

10. The Rule under Article 597 (1), Mysore Service Regulations, will be amplified to permit Sub-Assistant Surgeons and Lady Apothecaries to draw conveyance lowance during outbreaks of all epidemics, requiring them to be constantly on the move.

11. The additional daily allowance admissible, under Article 634 to officers for journeys and halts in Malnad tracts or in the Kolar Gold Fields area, will be 25 per cent in the case of officers whose salary is Rs. 250 and above, and 50 per cent for those whose salary is less than Rs. 250.

The question of revising the tracts to be treated as malnad as well that of the rates for journeys and halts in semi-malnad areas is reserved for separate consideration.

12. The consequential changes necessitated in the Mysore Service Regulations are hereby sanctioned and necessary *Addenda* and *Corrigenda* slips will separately issue.

M. N. KRISHNA RAO,
Offg. Financial Secretary to Government.

To—The Comptroller, Mysore Government.
The Other Heads of Departments.
The Other Secretaries to Government.
The Deputy Commissioners of Districts.

Water-supply to Public Institutions.

No. P. W. 1323-32—M. 5302-11, DATED 12TH NOVEMBER 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

PUBLIC WORKS DEPARTMENT.

READ—

(1) Government Order No. 766-71—5269-74, dated 29th June 1912, sanctioning revised rules for the regulation of water-supply in the Cities of Bangalore and Mysore.

(2) Government Order No. 309-46—1663-700, dated 20th February 1915, increasing the limit of free allowance of water-supply to public, charitable or religious institutions in the Bangalore City.

(3) Note, dated 2nd September 1919 by the Public Works Secretary on the representation made by leading gentlemen of the Mahomedan community in the Bangalore City on the 13th August 1919, concerning their grievances in regard to free allowance of water.

Order No. P. W. 1323-32—M. 5302-11, dated 12th November 1919.

On a consideration of the representations now made on behalf of the charitable and religious institutions in Bangalore City, Government are pleased to direct that the following concessions be granted:—

(1) The meter charge may be levied only when the consumption exceeds the free allowances.

(2) The excess consumption may be determined once a year, after taking into account the free allowance for the previous 12 months together.

(3) The free allowance for the marginally noted institutions in the Bangalore City may be increased as noted against them.

	Gallons.
(1) Imperial Service Lines Masjid ...	13,800 to 25,000
(2) Mahomedan Grave yard, Tumkur road	27,600 to 50,000
(3) Sub Hazarath Mekhan	23,000 to 35,000
(4) Labbe Masjid	46,000 to 60,000
(5) Mahomedan burial ground, Mysore road	13,800 to 60,000
(6) Sankar Matt	41,400 to 60,000
(7) Mavalli Masjid	13,800 to 20,000

(4) The above proposals may take effect from the date of Government Order No. 309-46—1663-700, dated 20th February 1915.

(5) The arrears previous to the above order be written off the accounts.

2. In view of the concessions sanctioned in clauses (1) and (2) above, the following note will be added to Rule 23 of the revised rules for the regulation of water-supply in the City of Bangalore.

Note.—In the case of public institutions, the excess consumption will be determined once a year, *i.e.*, on the 30th June of each year, after taking into account the free allowance for the previous 12 months together and remission of full meter rent for any month shall be granted if the total consumption in that month does not exceed the free allowance fixed for each institution.

Jurisdiction of the three Circles and their Establishments.

No. P. W. 1354-1416—E. 5452-5514, DATED 15TH NOVEMBER 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

PUBLIC WORKS DEPARTMENT.

READ—

(1) Government Order No. P. W. 361-410—E. 1247-96, dated 26th July 1919, according sanction to the constitution of a separate Superintending Engineer's Circle for sanitary works for the State with headquarters at Bangalore and the appointment of an additional Superintending Engineer.

(2) Public Works Secretary's Note No. D. 87, dated 12th June 1919, submitting proposals connected with the jurisdiction of the three Circles of Superintendence and the formation of Project Divisions with the necessary establishment therefor.

Order No. P. W. 1354-1416—E. 5452-5514, dated 15th November 1919.

The constitution of a separate Sanitary Circle, to be placed under an officer of the rank, and with the powers of a Superintending Engineer, was sanctioned in Government Order No. P. W. 361-410—E. 1247-96, dated 26th July 1919, and the Public Works Secretary has now submitted proposals for the establishment required for the office of the new Circle and for the redistribution of the Circle charges.

2. It was first proposed that the Sanitary Circle might comprise of the following Divisions, *viz.*, (1) Water-Supply, (2) Construction (for the execution of water supply, drainage and town extension works) and (3) two Project Divisions (called Eastern and Western respectively) for the investigation and the preparation of water-supply, drainage and town extension schemes. the extra cost involved by the proposals was estimated at Rs. 61,300, as it was intended to entertain two Engineer Officers for the two Project Divisions with the necessary clerical and executive establishments. It was, however, subsequently considered that there need not be two Project Divisions at the commencement and that one Project Division would answer for the present.

3. Proposals, modified accordingly and now submitted, provide for—

(1) the clerical establishment to be entertained for the Office of the Sanitary Circle ;

(2) the executive and the clerical establishments required for one Project Division ; and

(3) the adjustment of the scale of the Office establishments sanctioned for the existing Northern and Southern Circles.

The omission of one of the Project Divisions has resulted in the reduction of the extra cost involved from Rs. 61,300 to 44,660.

4. After a careful consideration, Government have been pleased to sanction the following proposals :—

(*a*) To adopt a uniform scale of office establishment costing Rs. 678 each, per mensem, for all the three Circles.

(*b*) To form one Project Division for the Sanitary Circle with the necessary executive and clerical establishments.

(*c*) To change the designation of the present Northern and Southern Circles into the Eastern and the Western Circles, respectively.

5. A statement showing the scale of establishment sanctioned for the Circle Offices and for the Project Division is attached.

6. The jurisdiction of the three Circles will be as shown hereunder.—

(1) Eastern Circle, Headquarters, Bangalore, will comprise—

(*a*) Bangalore (with the Headquarters Range),

(*b*) Kolar,

(*c*) Tumkur and

(*d*) Chitaldrug Divisions.

(2) Western Circle, Headquarters, Mysore, will comprise—

(*a*) Mysore Division with the Headquarters Range.
(*b*) New Palace and Architectural Division, Mysore.
(*c*) Hassan Division.
(*d*) Kadur Division.
(*e*) Shimoga Division with the Bhadra Anicut Range.

(3) Sanitary Circle, Headquarters, Bangalore, will comprise—

(*a*) Water-Supply Division,
(*b*) Construction Division, and
(*c*) Project Division.

7. The clerical establishment already posted to the Sanitary Circle will draw their pay from the date they reported themselves to the Superintending Engineer.

8. The new Sanitary Circle is sanctioned for a period of five years in the first instance.

Authorization Rolls of the Mysore Railways for 1919-20.

No. R. S. 912-19—Ry. F. 7.-O. L.-19-20, dated 5th November 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

RAILWAY DEPARTMENT.

READ —

Note dated 15th August 1919, from the Secretary for Railways, submitting for sanction the Authorization Rolls of the Mysore Railways for the year 1919-20.

Order No. R. S. 912-19—Ry. F. 7.-O. L.-19-20, dated 5th November 1919.

The rolls provide for earnings and expenditure on the different sections worked by the State as under:—

Name of section	Gross earnings	Working expenses	Percentage of expenditure to earnings	Net earnings
Mysore-Arsikere ...	5,00,000	4,46,547	89·32	53,453
Kolar District	1,75,000	1,58,657	90·64	16,343
Bangalore-Chikballapur ...	1,25,000	1,13,314	90·64	11,686
Tarikere-Narasimharajapura Tramway.	35,000	60,675	173·36	—25,675
Total ...	8,35,000	7,79,193	93·32	55,807

The amount provided for working expenses in the rolls is Rs. 7,79,193 but as the Financial Secretary desires that the same should not exceed the amount provided for in the General Budget estimates, *viz.*, Rs. 7,50,000 the Railway Secretary recommends that the excess of Rs. 29,193 may be deducted from the provision made in the rolls under the following head under the different sections, and the rolls for 1919-20 sanctioned for Rs. 7,50,000.

	Metre Gauge	Narrow Gauge	2' Gauge	Total
Head B—III (i) Coal ..	18,900	7,750	2,543	29,193

Government are accordingly pleased to sanction the Authorization Rolls for 1919-20 with the proviso that the expenditure should be limited to Rs. 7,50,000.

G. D. DANI,
Secretary for Rys., Govt. of Mysore.

To—The Chief Secretary to Government.
The Financial Secretary to Government.
The Agent, Mysore Railways.
The Comptroller, Government of Mysore.
The Auditor, Mysore Railways.
The Secretary, Railway Committee.
The President, District Board, Kolar District.
The Chairman, B. C. L. Railway Company., Ltd.
